

## U.S. Exhibitors at Composites Europe 2014

### **ACMA**

**8a/I16d**

American Composite Manufacturers Association (ACMA) provides a forum for the composites industry to come together to develop shared market opportunities and deal with common challenges.

### **Axel Plastics Research Labs Inc.**

**8a/B06**

A full range of proprietary mold releases and process aid additives for the plastics and composites industries.

### **KNF FLEXPAC CORPORATION**

**8a/G44**

Nylon & polyethylene blow film extruders and converters as well as Clean Room products such as the "Ultraclean Film™".

### **Magnum Venus Plastech**

**8a/E61**

Composite application equipment such as pumping systems, spray guns, filament winding systems, and much more.

### **NDT Systems**

**8a/A27**

High quality, advanced ultrasonic testing equipment for the non-destructive testing marketplace including: Ultrasonic thickness gages, bond testers, portable flaw detectors as well as a range of precision ultrasonic transducers and manual and automated scanners

### **Phoenix Equipment Co.**

**8b/H05**

Phoenix offers specialized dispense systems, including spray guns, impregnators and accessories.

### **Spintech Ventures LLC**

**8a/G02**

Spintech's Smart Tooling Division offers complete tooling solutions for the manufacture of composite parts with complex shapes and trapped features.
