App Planet - Hall 8.1 Stand 8.1G58	AppMobi	www.appmobi.com	appMobi is a leading vendor of cloud-based cross platform mobile development and deployment tools. appMobi has created a complete, integrated, mobile PAAS technology solution for carriers, device manufacturers, retailers, service providers, and others who wish to drive app development and deployment for their businesses.
App Planet - Hall 8.1 Stand 8.1L25	Apsalar Inc.	www.apsalar.com	Apsalar provides Mobile Engagement Management solutions for mobile apps. Mobile app marketers can acquire, analyze, and remarket to engaged users through Apsalar's behavioral advertising and free analytics solutions. Apsalar's all-in-one solution helps marketers increase customer lifetime value with all of the following capabilities: campaign attribution analytics, in-app analytics, audience targeting, and retargeting. Founded in 2010 and based in San Francisco, Apsalar is backed by leading venture investors, Thomvest Ventures, Battery Ventures, and DN Capital. Apsalar has won numerous awards, including eWeek's Top Ten Promising Mobile IT Startups in 2011.

Stand: Hall 2 Stand 2B104	Aricent Group	www.aricent.com	The Aricent Group is a global innovation and technology services company that helps clients imagine, commercialize, and evolve products and services for the connected world. Bringing together the communications technology expertise of Aricent with the creative vision and user experience prowess of frog, the Aricent Group provides a unique portfolio of innovation capabilities that seamlessly combines consumer insights, strategy, design, software engineering, and systems integration. The client base includes communications service providers, equipment manufacturers, independent software vendors, device makers, and many other Fortune 500 brands. The company's investors are Kohlberg Kravis Roberts & Co., Sequoia Capital, The Family Office, Delta Partners, and The Canadian Pension.
Hall 3 Stand 3C2 Connected City, Hall 6 Stand 6D100	AT&T	www.att.com	AT&T Inc. (NYSE:T) is a premier communications holding company. Its subsidiaries and affiliates – AT&T operating companies – are the providers of AT&T services around the world. With a powerful array of network resources that includes the largest 4G network in U.S., AT&T is a leading provider of wireless, Wi-Fi, high speed Internet, voice and cloud-based services. A leader in mobile Internet, AT&T also offers the best wireless coverage worldwide of any U.S. carrier, offering the most wireless phones that work in the most countries. The company's suite of IP-based business communications services is one of the most advanced in the world.
Hall 1 Stand 1EMR.E2	Broadsoft, Inc.	www.broadsoft.com	BroadSoft provides software that enables mobile, fixed-line and cable service providers to deliver voice and multimedia services over their IP-based networks. The Company's software, BroadWorks®, enables service providers to provide enterprises and consumers with a range of cloud-based, or hosted, IP multimedia communications, such as hosted IP private branch exchanges, video calling, unified communications, collaboration and converged mobile and fixed-line services.
App Planet - Hall 8.1 Stand 8.1G2	BSG Wireless	www.connections-services.com	Connection Services is a leading provider of Wi-Fi solutions delivering proven and reliable solutions to the growing Wi-Fi ecosystem. Our company offers a broad suite of innovative services which enable the next generation of Wi-Fi by simplifying the user experience across a wide variety of disparate networks and devices. Connection Services also empowers network owners with the tools they need to effectively monetize their Wi-Fi networks; in addition to providing white labeled device clients, directory services, location services, wifi roaming, hubbing, interconnection, financial clearing & settlement, and credit card payment gateway services.
Hall 7 Stand 7A51 Contact through U.S. Export Interest Directory Marketplace	Charge Anywhere	www.chargeanywhere.com	CHARGE Anywhere is an innovative electronic payment solutions provider, operator of the most robust Payment Gateway in the market place today and creator of the patented CHARGE Anywhere POS solution. CHARGE Anywhere's extensive, PCI-compliant product suite includes award-winning payment solutions for many industries, provides real-time access to data and is backed by a roster of trusted industry leading partners.

App Planet - Hall 8.1 Stand 8.1C7	Crittercism	www.crittercism.com	At Crittercism they help people make better apps, improve retention, conversion and monetization. They want people to have powerful insight into how consumers interact with mobile applications in real-time. Their objective is to make the integration easy, so that people can save time and energy in monitoring and managing their apps.
Hall 2 Stand 2A105	Devicescape Software, Inc.	http://devicescape.com/	Devicescape connects devices to more WiFi hotspots than any other offload service. They do this by combining their patented connection management service with the largest virtual network of quality hotspots. With over 9 million quality-controlled hotspots (curated from over 100 million discovered access points) around the world, Devicescape's virtual network is continuously growing and monitored. Devicescape seamlessly manages over 50 million WiFi offload connections daily with a scalable and cost effective solution that easily integrates with any mobile network infrastructure.
Hall 5 Stand 5D54	Dialogic, Inc.	www.dialogic.com	Dialogic supplies products that deliver video calls, location-based services, text messaging, and other high-demand services over mobile, VoIP, and traditional networks. Dialogic provides the technology to create, manage, and control voice, video, and data sessions simultaneously.
Hall 2 Stand 2MR202	Ecrio Inc.	www.ecrio.com	Ecrio is a leading supplier of client software for IP communication services including IP Voice, video, messaging, and content sharing over 3G, 4G, and WiFi networks.
Hall 7 Stand 7H44	ElementN	www.elementn.com	ElementN provides an ecosystem for the acceleration of mobile, web applications and Software as a Service. ElementN, Inc. offers web consulting and implementation, turnkey solutions, and custom web development services.
Hall 5 Stand 5C51	Emida	www.emida.net	Emida is a leader in the global prepayment and value transfer market, operating in 37 countries throughout North, Central and South America, the extended Caribbean, Africa, Oceania, the Middle East and Europe. Their network technology enables the domestic and international distribution and value transfer of many types of prepaid products and payment services.
App Planet - Hall 8.1 Stand 8.1B1	Fiksu, Inc.	www.fiksu.com	Fiksu is a mobile app user acquisition platform that helps app marketers overcome the hurdle of getting an app discovered & download by engaged, loyal users—those who return repeatedly to an app and are most likely to monetize—while lowering user acquisition costs. Fiksu works across many traffic sources, tracks ad performance and optimizes ad buys in real time, & generates more organic and loyal users at a lower cost.
Hall 6 Stand 6E110	Genband	www.genband.com	Genband is a global leader of IP infrastructure and service solutions, helping fixed, mobile and cable service providers around the world evolve communications networks through IP innovation.

App Planet - Hall 8.1 Stand 8.1L2	Glympse	www.glympse.com	Glympse is the pioneer of person-to-person location sharing in real-time, for a set amount of time. Recipients of Glympse do not need the app to be able to view the sender's location on a dynamic map, including speed and ETA. With an intuitive design and enhanced features, such as Glympse Groups, the company easily integrates location sharing into everyday activities. Glympse recently partnered with Mercedes-Benz and Ford to provide location sharing for the connected car. Glympse location technology is embedded into the new Mercedes-Benz 2013 A-Class and GL-class series and it's available to Ford drivers via the SYNC AppLink program.
Hall 6 Stand 6C71	Keynote DeviceAnywhere	www.keynotedeviceanywhere.com	Keynote's Keynote's DeviceAnywhere platform provides the industry's only true cloud-based product for testing and monitoring the functionality, usability, performance and availability of mobile applications and websites. Keynotes' suite of mobile testing solutions assures the quality of enterprise mobile applications and services, helping to extend businesses and brands to the mobile channel.
Hall 6 Stand 6E91 Contact through U.S. Export Interest Directory Marketplace	LogMeIn	www.logmein.com	LogMeIn (Nasdaq:LOGM) provides essential cloud and mobile services to individuals, businesses, and IT organizations for remote access, collaboration, customer care, and remote IT management. These services are used by millions of people to quickly, simply and securely connect over 150 million internet-enabled devices across the globe — computers, smartphones, iPad™ and Android™ tablets, and digital displays. LogMeIn is based in Woburn, Massachusetts, USA, with offices in Australia, Hungary, India, Ireland, Japan, and the UK.
App Planet - Hall 8.1 Stand 8.1G12	MobiWork	www.mobiwork.com	MobiWork® is the Smartphone based Mobile Workforce Technology Company. Smartphones and tablets are increasingly pervasive and have become robust business application platforms. MobiWork is a software technology company that has embraced this technology and market shift. MobiWork has engineered several advanced software components (6 patents pending) that exploit the unique smartphone & tablet capabilities and combine them with the power of the web, all leveraged in the cloud-based mobile workforce solutions MobiWork MWS and MobiWork SmartTrack. It is also possible to OEM MobiWork's components and solutions to create your own applications, or extend your web based applications to the mobile world.
Hall 2 Stand 2MR104	Monotype Imaging, Ltd.	www.monotypeimaging.com	Monotype Imaging combines technology with design to help the world communicate. Based in Woburn, Mass. with offices in the U.S., Europe and Asia, Monotype Imaging brings text imaging and graphical user interface capabilities to consumer electronics devices such as laser printers, copiers, mobile phones, navigation devices, digital cameras, e-book readers, automotive devices, tablets, digital televisions, set-top boxes and consumer appliances.

Hall 1 Stand 1EMR.F8	MontaVista Software, Inc.	www.mvista.com	MontaVista Software, LLC, a wholly owned subsidiary of Cavium Networks (NASDAQ: CAVM), is a leader in embedded Linux commercialization. For over 10 years, MontaVista has been helping embedded developers get the most out of open source by adding commercial quality, integration, hardware enablement, expert support, and the resources of the MontaVista development community. Because MontaVista customers enjoy faster time to market, more competitive device functionality, and lower total cost, more devices have been deployed with MontaVista than with any other Linux.
Hall 5 Stand 5MR98	Movius Interactive Corp.	www.moviuscorp.com	Movius is a global leader in value-added communication solutions for service providers. We create applications that improve the quality of people's lives by helping them communicate in simple, fun and unique ways that transform the way they interact with information, media and each other. On November 2011 Movius Interactive announced today the introduction of CAFÉ, a new Communication Applications Framework Engine that enables service providers to offer a constant flow of new relevant applications to their end-users in an affordable, rapid and cloud ready environment.
App Planet - Hall 8.1 Stand 8.1MR20	Mozilla	www.mozilla.org	Mozilla is a non-profit organization dedicated to keeping the power of the Web in people's hands. They're a global community of users, contributors and developers working to innovate on users' behalf.
Hall 2 Stand 2D50	Perfecto Mobile	www.perfectomobile.com	Perfecto Mobile is the leading global provider of cloud-based testing, automation and monitoring solutions for mobile applications and websites, utilizing a wide selection of REAL mobile devices accessible via the web. Perfecto Mobile's MobileCloud is a web-based SaaS platform that enables testers and developers to easily access a multitude of REAL mobile devices connected to LIVE mobile networks across different geo-locations. Organizations can streamline development, testing, support, and monitoring processes and ensure optimal compatibility of the application. As a result, customers gain better quality testing, shorter time-to-market and overall reduction in costs and logistical efforts.
Hall 7 Stand 7E26	Preventice	www.preventice.com	Preventice develops mobile health technologies that create compelling and engaging applications for the healthcare industry.
Hall 7 Stand 7G14	PT	www.pt.com	PT's SEGway portfolio of Signalling SS7, SIGTRAN and Diameter protocol products provide wireless carriers high density signalling and advanced routing for next generation LTE and IMS networks. The company's IP-centric network elements are designed for high availability and scalability to deliver an unparalleled price-to-performance ratio in edge-to-core network deployments. PT's STPs, Diameter routers, gateways, edges, and network applications are deployed in mobile networks around the globe, enabling wireless network service providers to rapidly and cost-effectively deliver revenue-generating features. PT's solutions enable IP migration, Diameter routing, gateway capabilities, SIP bridging, and core-to-edge distributed intelligence, along with features like Number Portability.

Hall 5 Stand 5G34	Radisys	www.radisys.com	Radisys (NASDAQ: RSYS) is a leading provider of embedded wireless infrastructure solutions for telecom, aerospace, defense and public safety applications. Radisys' market-leading ATCA, IP Media Server and Com Express platforms coupled with world-renowned Trillium software, services and market expertise enable customers to bring high-value products and services to market faster with lower investment and risk. Radisys solutions are used in a wide variety of 3G and 4G / LTE mobile network applications including: Radio Access Networks (RAN) solutions from femtocells to picocells and macrocells, wireless core network applications, Deep Packet Inspection (DPI) and policy management; conferencing and media services including voice, video and data, as well as customized mobile network applications that support the aerospace, defense and public safety markets.
Hall 1 Stand 1EMR.F4	RealNetworks	www.realnetworks.com	RealNetworks creates products and services that make it easy for people to access and enjoy digital media on the devices and platforms they choose to use. Whether it's music, movies, games, video, or apps, RealNetworks thrives on giving people the fresh and entertaining experiences they deserve—whenever, wherever they want. RealNetworks does this in two ways: directly to consumers through our applications and services and through partnerships with well-established businesses and mobile operators throughout the world. RealNetworks technology powers audio, video, ringbacktones, and messaging on more than 700 million mobile handsets from some of the world's most popular mobile carriers.
App Planet - Hall 8.1 Stand 8.1L19	Soge Interactive	www.sogemobile.com	SogeMobile is a leading IT firm which offers a wide range of services including UI/UX design, Web, PC, Mac programming as well as development of mobile applications for IOS, Android, and Windows Phone. Our main strength is in supplying turnkey and custom solutions for different business categories: Newspapers & Magazines, Restaurants, Auto Dealerships, Radio & TV stations, Law Firms, Medical Offices, Fitness Clubs and more. SogeMobile has offices in four countries and employs more than 100 in-house IT professionals to deliver high quality and useful mobile solutions to the business owners
App Planet - Hall 8.1 Stand 8.1H46	StackMob	https://stackmob.com/	StackMob's mobile platform helps developers create a mobile business by letting them easily build, deploy and grow full-featured applications from the very first version. StackMob cuts backend development time from months to days, letting developers focus on creating powerful apps with quality user experiences. StackMob also provides a front-end development environment that developers can use to create a single, feature-rich application that runs seamlessly on multiple mobile operating systems.
App Planet - Hall 8.1 Stand 8.1B52	State of Oregon	http://www.oregon.gov/Pages/index.aspx	Come to the State of Oregon -- the center of the U.S. West Coast -- now known as Techlandia -- where creativity and passion meet technology. Techlandia is a place and a state of mind. One that grew from the roots of our world-famous Silicon Forest. Hosting Tektronix, Intel's largest presence, and the father of Linux. Our developers commit over 100K of open source code each year. Now home to more than 10,000 mobile software developers. Companies like Vestas, Ibedrola, and Adidas have their North American home in Oregon.

<p>Hall 2 Stand 2MR210,App Planet - Hall 8.1 Stand 8.1G10,Hall 2 Stand 2MR208</p>	<p>Symphony Teleca</p>	<p>www.symphonyteleca.com</p>	<p>Symphony Teleca Corp., headquartered in Palo Alto, CA, is the world's first services company dedicated exclusively to helping clients manage the global convergence of software, the cloud and connected devices, resulting in captivating connected experiences. The company solves complex business challenges through a unique combination of software expertise, deep industry insight, process excellence and a passionate global workforce. The company delivers innovative solutions combined with systems integration, analytics and managed services to hundreds of organizations around the world across all major verticals. Application Development - Shopping

Hall	Company	Website	Overview
Hall 7 Stand 7A57	AIRTAG	www.airtag.com	AIRTAG is the leading provider of Mobile Shopping ecosystem innovations, NFC secure mobile applications and in-store solutions that continue to improve the consumer buying experience. AIRTAG's all in one package solutions include: AIRSHOP Ordering and Payments, AIRSHOP Loyalty and Couponing, AIRPASS secure NFC Payment and Wallet Apps, AIRTAG Kit: The fast, easy and cost effective way to develop a Mobile MasterCard PayPass App. Visit www.airtagkit.com to learn more. AIRTAG's quickly growing partner base is comprised of more than 50+ brands and financial institutions including McDonald's, McCafé, Starbucks, Reebok, Dior, Carrefour, Casino, G20, MasterCard, Orange, SFR, NRJ Mobile, BNP, CIC and Credit Mutuel.
Hall 6 Stand 6C70	bMobilized	www.bmobilized.com	bMobilized AUTOMATICALLY converts websites to mobile HTML5 sites optimized for any device that can further be customized with over 30 plugins. bMobilized focus is on PARTNER RESELLERS offering WHITE LABEL solutions and API integration. We service Directory Listings, Telcos, Domain Registrars, Web Development Agencies and any other business providing services to SMB's. We offer the highest quality conversion on the market using more than 300 algorithms with several patents granted and pending. Our platform can scale to millions of websites while creating a turnkey revenue solution for our partners. bMobilized is based in New York with partners worldwide.
Hall 3 Stand 3B158	eBay Inc.	www.ebayinc.com	eBay Inc. is a global commerce platform and payments leader connecting millions of buyers and sellers. We do so through eBay, the world's largest online marketplace, which allows users to buy and sell in nearly every country on earth; through PayPal, which enables individuals and businesses to securely, easily and quickly send and receive digital payments; and through GSI, which facilitates ecommerce, multichannel retailing and digital marketing for global enterprises. X.commerce harnesses the developer community of Magento, an ecommerce platform, by providing technology solutions and eBay Inc. capabilities to merchants of all sizes, supporting eBay Inc.'s mission of enabling commerce.
App Planet - Hall 8.1 Stand 8.1H46	StackMob	https://stackmob.com/	StackMob's mobile platform helps developers create a mobile business by letting them easily build, deploy and grow full-featured applications from the very first version. StackMob cuts backend development time from months to days, letting developers focus on creating powerful apps with quality user experiences. StackMob also provides a front-end development environment that developers can use to create a single, feature-rich application that runs seamlessly on multiple mobile operating systems.

Backhaul solutions

Hall	Company	Website	Overview
Hall 1 Stand 1EMR.A3 Contact through U.S. Export Interest Directory Marketplace	AOptix Technologies	www.aoptix.com	AOptix offers reliable, long-range, ultra high bandwidth wireless transport solutions. They can be deployed quickly, cost-effectively and without disruption even in the most challenging locations and environments. Mobile backhaul as well as government and enterprise applications are being transformed through AOptix communications technology.
Stand: Hall 2 Stand 2B104	Aricent Group	www.aricent.com	The Aricent Group is a global innovation and technology services company that helps clients imagine, commercialize, and evolve products and services for the connected world. Bringing together the communications technology expertise of Aricent with the creative vision and user experience prowess of frog, the Aricent Group provides a unique portfolio of innovation capabilities that seamlessly combines consumer insights, strategy, design, software engineering, and systems integration. The client base includes communications service providers, equipment manufacturers, independent software vendors, device makers, and many other Fortune 500 brands. The company's investors are Kohlberg Kravis Roberts & Co., Sequoia Capital, The Family Office, Delta Partners, and The Canadian Pension.
Hall 2 Stand 2MR244	BridgeWave Communications	www.bridgewave.com	BridgeWave Communications is the leading supplier of high capacity 4G backhaul and gigabit wireless connectivity solutions. BridgeWave's carrier-grade, point-to-point wireless FlexPort® links provide a future-proof mobile backhaul solution for carriers and mobile operators looking to support 4G/LTE/WiMAX adoption. The company's 60 GHz and 80 GHz links offer up to ten times the bandwidth of comparably-priced lower-frequency license-free and licensed-band wireless links, while providing superior interference immunity and data security. Founded in 1999, BridgeWave is headquartered in Santa Clara, California.
Hall 3 Stand 3C14	Broadcom Corporation	www.broadcom.com	Broadcom Corporation (NASDAQ: BRCM), a FORTUNE 500® company, is a global leader and innovator in semiconductor solutions for wired and wireless communications. Broadcom® products seamlessly deliver voice, video, data and multimedia connectivity in the home, office and mobile environments. Broadcom's global customer roster includes the elite of both consumer and enterprise technology brands – from computing powerhouses to major providers of networking equipment, and from home entertainment to mobile device and wireless providers. With the industry's broadest portfolio of state-of-the-art system-on-a-chip and embedded software solutions, Broadcom is changing the world by Connecting everything®.
App Planet - Hall 8.1 Stand 8.1B49	CalAMP	www.calamp.com	CalAmp develops and markets wireless communications solutions that deliver data, voice and video for critical networked communications and other applications. The Company's two business segments are Wireless DataCom, which serves utility, governmental and enterprise customers, and Satellite, which focuses on the North American Direct Broadcast Satellite market.

Hall 3 Stand 3C54	Cisco Systems	www.cisco.com	Cisco made the Internet what it is today, pioneering it every step of the way. The Internet of Everything is the next step, and only Cisco can deliver the intelligent network to make it happen. A network that listens, learns and responds. On a scale like never before. The Internet of Everything brings together people, process, data, and things to make connectivity more relevant and valuable than ever before, creating a world of new opportunities. Cisco is the strategic partner to create and expand new markets.
Hall 2 Stand 2A105	Devicescape Software, Inc.	http://devicescape.com/	Devicescape connects devices to more WiFi hotspots than any other offload service. They do this by combining their patented connection management service with the largest virtual network of quality hotspots. With over 9 million quality-controlled hotspots (curated from over 100 million discovered access points) around the world, Devicescape's virtual network is continuously growing and monitored. Devicescape seamlessly manages over 50 million WiFi offload connections daily with a scalable and cost effective solution that easily integrates with any mobile network infrastructure.
Hall 2 S Stand 2MR96	Equinix	www.equinix.com	Equinix, Inc. (Nasdaq: EQIX) provides global data center services that ensure the vitality of the information-driven world. Equinix, Inc. operates International Business Exchange™ (IBX®) data centers in 38 markets across 13 countries in the Americas, EMEA, and
Hall 7 Stand 7C34	Exalt Communications, Inc.	www.exaltcom.com	Exalt Communications provides next-generation microwave backhaul systems to mobile operators, government agencies, and enterprises worldwide.
Hall 2 Stand 2MR214	Fastback Networks	www.fastbacknetworks.com	Fastback Networks delivers innovative technology for the mobile infrastructure of the future, enabling network operators to provide new services, tap new markets and monetize a new generation of 4G mobile applications. The Fastback Intelligent Wireless Transport solution transforms the small cell backhaul challenge into a new opportunity to deliver the rich capabilities of the fiber service edge to any location where mobile services are in demand -- the Anywhere Service Edge™. This new class of devices fuses advanced data networking with radio technology to achieve a breakthrough leap in performance regardless of line of sight radio conditions (AnyLOS™), lowering cost of operations and opening doors to new mobile services.
Hall 6 Stand 6E90	Gigamon LLC	www.gigamon.com	Gigamon® provides intelligent Traffic Visibility solutions for enterprises, data centers and service providers around the globe. Our technology empowers infrastructure architects, managers and operators with unmatched visibility into the traffic traversing both physical and virtual networks without affecting the performance or stability of the production environment. Through patented technologies, the Gigamon GigaVUE® portfolio of high availability and high density products intelligently delivers the appropriate network traffic to security, monitoring or management systems.

Hall 5 Stand 5E70	Ruckuss Wireless Inc.	www.ruckuswireless.com	Ruckus Wireless is supplier of advanced wireless systems for the mobile Internet working market. The company markets and manufactures a wide range of indoor and outdoor “Smart Wi-Fi” products for mobile operators, broadband service providers and corporate enterprises around the world.
Hall 5 Stand 5MR102	Symmetricom	www.symmetricom.com	Symmetricom, a world leader in precise time solutions, sets the world's standard for time. Across the globe, telecom carriers, cable providers and data service providers depend on Symmetricom carrier-class solutions for the superior accuracy, consistency and reliability that is essential for quality assurance, network performance, service availability and seamless network interoperability. Visit Symmetricom to learn more about our precise timing and synchronization solutions for Small Cells and LTE Networks.
Hall 6 Stand 6G33	Taqua, LLC	www.taqua.com	Taqua provides wireless and wireline next generation telecommunication systems and applications. Hundreds of carriers utilize Taqua solutions to provide network solutions ranging from legacy switch replacement, enhanced VoIP and communication applications, fixed/wireless media servers/gateways, high capacity IP Peering and advanced RF wireless backhaul technologies.
Hall 6 Stand 6C94	Tarana Wireless	www.taranawireless.com	Tarana offers the first true Non-Line of Sight (NLoS) wireless infrastructure solution that is poised to revolutionize small cell backhaul. It delivers uncompromised NLoS operation with ubiquitous coverage in addition to unprecedented capacity and scalability. For the first time, install small cells anywhere you need them, without concern about backhaul capacity and coverage. With self-aligning antennas and automatic configuration, planning and operation for Tarana products are simplified, reducing TCO. Tarana’s innovative products have been designed and built from the ground-up to meet mobile carrier challenges for today and tomorrow.
Hall 6 Stand 6D97	TE Connectivity	www.te.com	TE Connectivity is a global, \$14 billion company that designs and manufactures approximately 500,000 products. TE’s nearly 100,000 employees create solutions for consumer electronics, energy and healthcare, automotive, aerospace and communication networks. As leader in fiber optics, DAS and other small cell network solutions, and data center solutions, TE transforms the way mobile service delivery networks are created, deployed and used for new mobile applications. TE’s solutions support a variety of multi-vendor, multi-technology and multi-service deployments.
Hall 3 Stand 3B15	TeleCommunication Systems	www.telecomsys.com	TeleCommunication Systems, Inc. (NASDAQ: TSYS) a world leader in highly reliable and secure mobile communication technology. TCS provides messaging, E112/E911, and complete end-to-end LBS solutions that include branded and white-label navigation and finder applications, infrastructure, mapping, and content for leading consumer brands, content providers, voice service providers, government agencies, and 60 mobile operators worldwide.

Hall 5 Stand 5H70	Telco Systems	www.telco.com	Telco Systems, a wholly-owned subsidiary of BATM Advanced Communications, leverages 20 years of Carrier Ethernet and MPLS technology experience to create a robust mobile backhaul solution that enables a cost-effective migration to 4G and LTE networks. These solutions fit transparently into the provider's network offering a cost effective means to deliver IP services while lowering "cost per bit" and delivering precise timing, bandwidth scalability and advanced traffic management required for migration to high bandwidth WiMAX, HSPA+ and LTE services. A powerful service management system eases network planning and activation to reduce OPEX and offer cost effective TCO.
Hall 2 Stand 2C65	TriQuint Semiconductor	www.triquint.com	TriQuint Semiconductor designs, develops and manufactures advanced high-performance RF solutions with Gallium Arsenide (GaAs), Gallium Nitride (GaN), Surface Acoustic Wave (SAW) and Bulk Acoustic Wave (BAW) technologies for customers worldwide. We are a leader in market diversity serving customers in mobile devices, 3G and 4G cellular base station, WLAN, WiMAX, GPS, defense and

CRM Systems

Hall	Company	Website	Overview
Hall 2 Stand 2MR234	Guavus	www.guavus.com	<p>Guavus Big Data analytics solutions, which are based on pioneering patent-pending technology, are a unified technology stack consisting of the Guavus Reflex™ platform integrated with a suite of decisioning applications. A grid-based, scalable and highly available computing architecture, the Guavus Reflex platform, offers a powerful solution for data analytics using an innovative paradigm of stream processing and analytics for collection, processing and advanced visualization. Instead of first storing and then querying large and growing volumes of data, the platform processes raw network data streams as they arrive from the various network elements. Catalog information — such as subscriber demographics, pricing plans, device catalogs, and more — is fused with the network usage data and application data to provide a holistic picture and deliver business critical insights for just-in-time decision-making. Insights are displayed through powerful, easy-to-use graphical dashboards that can be customized to suit specific and individual information requirements. Users can output data into a PDF, XML or CSV file format for incorporation into other software application programs for further analysis or presentation purposes.</p>
Hall 5 Stand 5F30	InnoPath Software	www.innopath.com	<p>InnoPath is the global leader in Over-the-Air customer care for service providers, shortening support calls and driving first call resolution. ActiveCare is a natural extension to CRM solutions, evolving them from just logging issues to solving them. Experience in production Tier-1 networks helps ensure successful deployments in large, complex environments.</p>
Hall 2 Stand 2MR192	Lithium Technologies	www.lithium.com	<p>Lithium helps great companies build brand nations for their most engaged customers. With Lithium, clients such as Best Buy, AT&T, Sephora, Univision, and PayPal turn their customers' passion into marketing, product development, sales and customer service assets. The Lithium Social Customer Suite offers complete social monitoring, a comprehensive community platform, and actionable analytics across millions of blogs, forums, and social networking sites.</p>
Hall 1 Stand 1EMR.B1	Unisys	www.unisys.com	<p>Unisys is a worldwide information technology company. We provide a portfolio of IT services, software, and technology that solves critical problems for clients.</p> <p>We specialize in helping clients secure their operations, increase the efficiency and utilization of their data centers, enhance support to their end users and constituents, and modernize their enterprise applications. To provide these services and solutions, we bring together offerings and capabilities in outsourcing services, systems integration and consulting services, infrastructure services, maintenance services, and high-end server technology.</p> <p>With approximately 22,500 employees, Unisys serves commercial organizations and government agencies throughout the world.</p>

Clearing House Services

Hall	Company	Website	Overview
App Planet - Hall 8.1 Stand 8.1G2	BSG Wireless	www.connectionservices.com	Connection Services is a leading provider of Wi-Fi solutions delivering proven and reliable solutions to the growing Wi-Fi ecosystem. Our company offers a broad suite of innovative services which enable the next generation of Wi-Fi by simplifying the user experience across a wide variety of disparate networks and devices. Connection Services also empowers network owners with the tools they need to effectively monetize their Wi-Fi networks; in addition to providing white labeled device clients, directory services, location services, wifi roaming, hubbing, interconnection, financial clearing & settlement, and credit card payment gateway services.
Hall 2 Stand 2B70	Syniverse Technologies	www.syniverse.com	With more than 25 years making mobile work, Syniverse serves 900+ mobile operators, cable and Internet providers, and enterprises as well as M2M, VoIP and application service providers in over 160 countries. We connect disparate technologies to help deliver seamless service to more than 5 billion mobile users worldwide. Our rich heritage of simplifying roaming, messaging and networking complexities and unmatched access to real-time intelligence that helps create personalized, enhanced end-user experiences puts us at the center of the mobile universe, where we keep people connected today and forge new connections for tomorrow. Nobody knows mobile like Syniverse.
Hall 2 Stand 2MR51	Telcordia	www.telcordia.com	Telcordia's Interconnection business develops market leading solutions that enable operators to interconnect networks, devices, and applications critical to evolving the global telecommunications marketplace. Hall	Company	Website	Overview
App Planet - Hall 8.1 Stand 8.1MR50	A10 Networks	www.a10networks.com	A10 Networks is one of the leader in Application Networking, helping organizations of all sizes to accelerate, optimize and secure their applications. A10 was named the fastest growing private Computer Hardware company in the Inc 500 and the second fastest growing private company in Silicon Valley by the San Jose Business Journal. Headquartered in San Jose, CA, A10 has offices in over 15 countries, over 500 employees and is profitable with a track record of consistent quarterly revenue growth.
Hall 3 Stand 3C2 Connected City, Hall 6 Stand 6D100	AT&T	www.att.com	AT&T Inc. (NYSE:T) is a premier communications holding company. Its subsidiaries and affiliates – AT&T operating companies – are the providers of AT&T services around the world. With a powerful array of network resources that includes the largest 4G network in U.S., AT&T is a leading provider of wireless, Wi-Fi, high speed Internet, voice and cloud-based services. A leader in mobile Internet, AT&T also offers the best wireless coverage worldwide of any U.S. carrier, offering the most wireless phones that work in the most countries. The company’s suite of IP-based business communications services is one of the most advanced in the world.
Hall 6 Stand 6C70	bMobilized	www.bmobilized.com	bMobilized AUTOMATICALLY converts websites to mobile HTML5 sites optimized for any device that can further be customized with over 30 plugins. bMobilized focus is on PARTNER RESELLERS offering WHITE LABEL solutions and API integration. We service Directory Listings, Telcos, Domain Registrars, Web Development Agencies and any other business providing services to SMB’s. We offer the highest quality conversion on the market using more than 300 algorithms with several patents granted and pending. Our platform can scale to millions of websites while creating a turnkey revenue solution for our partners. bMobilized is based in New York with partners worldwide.
Hall 2 Stand 2MR42	Box Inc.	www.box.com	Box was founded on a simple, powerful idea: people should be able to access and share their content from anywhere. Since 2005, Box has helped more than 11 million individuals, small businesses and Fortune 500 companies do just that. We want to reinvent what businesses can do with their content through Box's content sharing platform, made for a new kind of worker, a new kind of workplace and a new kind of IT.
App Planet - Hall 8.1 Stand 8.1B49	CalAmp	www.calamp.com	CalAmp Corp. (NASDAQ: CAMP) is a proven leader in providing wireless communications solutions to a broad array of vertical market applications and customers. CalAmp’s extensive portfolio of “edge or the network” intelligent communications devices, robust and scalable cloud service platform, and targeted software applications streamline otherwise complex M2M deployments. These solutions enable customers to optimize their operations by collecting, monitoring and efficiently reporting business critical data and desired intelligence from high-value remote assets.

Hall 5 Stand 5MR130	CDNetworks	www.cdnetworks.com	CDNetworks is partnering with the world's leading Telcos and Mobile Network Operators ("MNO") to solve the Internet and mobile traffic growth problems through CDN technologies. CDNetworks' mobile CDN technology provides MNOs with considerable CAPEX savings through data traffic reduction over their mobile networks, as well as improving their customers' user experience. Despite just being recently announced, CDNetworks' mobile CDN technology has been field-proven and adopted by some of the largest MNOs. As the only multinational CDN with expertise and infrastructure in China, CDNetworks can provide Telcos and MNOs with instant access to even the most challenging markets while minimizing capital expenditures of its MNO partners. Founded in 2000, CDNetworks has offices in the U.S., Korea, China, Japan, the UK and France.
App Planet - Hall 8.1 Stand 8.1A51	Centrify	www.centrify.com	Centrify provides unified identity services across data center, cloud and mobile — resulting in one single login for users and one unified identity infrastructure for IT. Centrify's software and cloud services let organizations securely leverage their existing identity infrastructure to centrally manage authentication, access control, privilege management, policy enforcement and compliance across on-premise and cloud resources. More than 4,500 customers have deployed Centrify on millions of server, application and mobile device resources to optimize costs, agility and security.

Comverse's extensive customer base spans more than 125 countries and covers over 450 communication service providers serving more than two billion subscribers. The company's innovative product portfolio enables communication service providers to unleash the value of the network for their customers by making their networks smarter. Comverse's solutions support flexible deployment models, including in-network, cloud, hosted and managed services. Comverse, ranked number 55 in PwC's Global 100 Software Leaders based on research by Pierre Audoin Consultants, is a subsidiary of Comverse Technology, Inc. (NASDAQ:CMVT).
Hall 2 Stand 2MR118	Critical path	www.criticalpath.net	Critical Path's extensive portfolio of applications and services enable millions of people to communicate, connect, share and organize while providing industry-leading safety and assurance. Consumer solutions for online communication and social networking are delivered to leading service providers under the Memova® brand for white-label applications, and directly to consumers as the award-winning "ShoZu" service. The world's largest enterprises choose messaging, safety and assurance solutions delivered under the Mirapoint brand. With offices around the globe, Critical Path supports companies with their deployments of Memova, ShoZu and Mirapoint solutions to drive revenue, boost loyalty, streamline operations and reduce costs.
App Planet - Hall 8.1 Stand 8.1C7	Crittercism	www.crittercism.com	At Crittercism they help people make better apps, improve retention, conversion and monetization. They want people to have powerful insight into how consumers interact with mobile applications in real-time. Their objective is to make the integration easy, so that people can save time and energy in monitoring and managing their apps.
Hall 2 Stand 2A105	Devicescape	www.devicescape.com	Devicescape redefines the "always best connected" mobile experience by uniquely combining intelligent network selection—going beyond simple Wi-Fi Offload—with the world's largest curated virtual network of high-quality Wi-Fi hotspots. For mobile operators this carrier-grade service delivers an overnight, cost effective step change in network capacity-reach leading to a doubling of customer lifetime value which results from elevated customer satisfaction, powerful new data management solutions, and Wi-Fi service generation. For end users the Devicescape solution means a curated mobile experience that features simpler access, faster speeds, and more data consumed at less cost.
Hall 2 Stand 2MR144	Dropbox	www.dropbox.com	Dropbox is a free service that lets you bring your photos, docs, and videos anywhere and share them easily. Dropbox was founded in 2007 by Drew Houston and Arash Ferdowsi, two MIT students tired of emailing files to themselves to work from more than one computer. Today, more than 100 million people across every continent use Dropbox to always have their stuff at hand, share with family and friends, and work on team projects.
Hall 7 Stand 7H44	ElementN	www.elementn.com	ElementN provides an ecosystem for the acceleration of mobile, web applications and Software as a Service. ElementN, Inc. offers web consulting and implementation, turnkey solutions, and custom web development services.

Hall 5 Stand 5C51	Emida	www.emida.net	Emida is a leader in the global prepayment and value transfer market, operating in 37 countries throughout North, Central and South America, the extended Caribbean, Africa, Oceania, the Middle East and Europe. Their network technology enables the domestic and international distribution and value transfer of many types of prepaid products and payment services.
Hall 6 Stand 6E110	Genband	www.genband.com	Genband is a global leader of IP infrastructure solutions, enabling service providers, cable operators and enterprises around the world to evolve communications networks through IP innovation. This position of IP leadership was earned through aggressive organic growth, unique partnering strategies, bold acquisitions, and the creation of a comprehensive portfolio of IP switching, networking and application products and solutions. GENBAND offers market-leading Switching, Applications, Networking and Service solutions, with products deployed in over 600 customer networks spanning more than 80 countries.
Hall 6 Stand 6E90	Gigamon LLC	www.gigamon.com	Gigamon® provides intelligent Traffic Visibility solutions for enterprises, data centers and service providers around the globe. Our technology empowers infrastructure architects, managers and operators with unmatched visibility into the traffic traversing both physical and virtual networks without affecting the performance or stability of the production environment. Through patented technologies, the Gigamon GigaVUE® portfolio of high availability and high density products intelligently delivers the appropriate network traffic to security, monitoring or management systems.
Hall 6 Stand 6MR76	Jasper Wireless	www.jasperwireless.com	Jasper Wireless enables mobile network operators around the world with platform, applications, and design services to serve the emerging machine-to-machine (M2M) and embedded devices markets. Using the company's unique end-to-end solution, network operators and enterprises can scale their deployment of connected devices quickly and profitably. Jasper Wireless operator partners include ATandT, América Móvil, Telefónica, KPN, VimpelCom, SingTel, Telstra, Rogers, CSL and Optimus. Founded in 2005, Jasper Wireless is a privately held company based in Mountain View, Calif., with regional offices in the United Kingdom.
Hall Congress Square Stand CS50	Kinvey	www.kinvey.com	Kinvey makes it easy for developers to setup, use and operate a cloud backend for their mobile apps. They don't have to worry about connecting to various cloud services, setting up servers for their backend, or maintaining and scaling them. With Kinvey, developers simply code their app using any SDK of their choice. They then connect the app to Kinvey's backend features using auto-generated APIs and libraries, and - just like that - the app is ready to launch. We'll worry about auto-scaling and maintaining your backend. You focus solely on your app.
Hall 2 Stand 2MR192	Lithium Technologies	www.lithium.com	Lithium helps great companies build brand nations for their most engaged customers. With Lithium, clients such as Best Buy, AT&T, Sephora, Univision, and PayPal turn their customers' passion into marketing, product development, sales and customer service assets. The Lithium Social Customer Suite offers complete social monitoring, a comprehensive community platform, and actionable analytics across millions of blogs, forums, and social networking sites.

<p>Hall 6 Stand 6E91 Contact through U.S. Export Interest Directory Marketplace</p>	<p>LoMeIn</p>	<p>www.logmein.com</p>	<p>LogMeIn (Nasdaq:LOGM) provides essential cloud and mobile services to individuals, businesses, and IT organizations for remote access, collaboration, customer care, and remote IT management. These services are used by millions of people to quickly, simply and securely connect over 150 million internet-enabled devices across the globe — computers, smartphones, iPad™ and Android™ tablets, and digital displays. LogMeIn is based in Woburn, Massachusetts, USA, with offices in Australia, Hungary, India, Ireland, Japan, and the UK.</p>
<p>Hall 6 Stand 6C44</p>	<p>Marvell</p>	<p>www.marvell.com</p>	<p>Marvell is a global leader in providing complete silicon solutions enabling the digital connected lifestyle. From mobile communications to storage, cloud infrastructure, digital entertainment and in-home content delivery, Marvell's diverse product portfolio aligns complete platform designs with industry-leading performance, security, reliability and efficiency. At the core of powerful consumer, network and enterprise systems, Marvell empowers partners and their customers to always stand at the forefront of innovation, performance and mass appeal. By providing people globally with mobility and ease of access to services adding value to their social, private and work lives, Marvell is committed to enhancing the human experience.</p>
<p>Hall 2 Stand 2MR180</p>	<p>Metaswitch Networks</p>	<p>www.metaswitch.com</p>	<p>Metaswitch Networks is a leading provider of the software that powers a whole new generation of communications services, and the solutions that fuel the rapid migration to all-IP architectures. Hundreds of network operators worldwide defend, extend and brand their business by building on Metaswitch to deliver a reliable, scalable, and immersive communications experience.</p>
<p>App Planet - Hall 8.1 Stand 8.1G12</p>	<p>MobiWork</p>	<p>www.mobiwork.com</p>	<p>MobiWork® is the Smartphone based Mobile Workforce Technology Company. Smartphones and tablets are increasingly pervasive and have become robust business application platforms. MobiWork is a software technology company that has embraced this technology and market shift. MobiWork has engineered several advanced software components (6 patents pending) that exploit the unique smartphone & tablet capabilities and combine them with the power of the web, all leveraged in the cloud-based mobile workforce solutions MobiWork MWS and MobiWork SmartTrack. It is also possible to OEM MobiWork's components and solutions to create your own applications, or extend your web based applications to the mobile world.</p>
<p>Hall 5 Stand 5MR14</p>	<p>Polycom</p>	<p>www.polycom.com</p>	<p>Polycom is the global leader in open standards-based unified communications and collaboration (UC&C) solutions for voice and video collaboration, trusted by more than 415,000 customers around the world. Polycom solutions are powered by the Polycom® RealPresence® Platform, comprehensive software infrastructure and rich APIs that interoperate with the broadest set of communication, business, mobile and cloud applications and devices to deliver secure face-to-face video collaboration in any environment. Polycom and its ecosystem of over 7,000 partners provide truly unified communications solutions that deliver the best user experience, highest multi-vendor interoperability, and lowest TCO. Visit www.polycom.com to learn how we're pushing the greatness of human collaboration forward.</p>

Hall 6 Stand 6E64	Roamware	www.roamware.com	Roamware is The Global Leader in Mobile Operator Service Solutions. Roamware's market leading Roaming and Local VAS, Mobile Virtual Network Enabler Solutions and Mobile Financial Services Solutions are deployed in 575 Operator Networks, MVNOs and Banks across 168 countries. Roamware's innovative solutions in the area of LTE Roaming, Customer Experience Management, MVNO, EU2014, Big Data and Active Testing are helping mobile operators stay ahead of the innovation curve while achieving subscriber delight. With nearly 100 patents, Roamware is an innovation leader in its space. Roamware's Global HQ is in Santa Clara with global operations.
Hall 2 Stand 2MR90	Skyfire	www.skyfire.com	Skyfire is dedicated to leveraging the power of cloud computing to radically improve the mobile Internet experience for both operators and their consumers. Skyfire's innovative, next-generation carrier cloud approach to mobile video and data optimization provides wireless operators with huge cost savings, elastic capacity, and the ability to surgically enhance quality of experience on a per-stream level. The company has also introduced the first mobile browser extension platform to enable robust contextual & social browsing, as well as enhanced monetization opportunities for operators. The company currently counts 3 of the largest mobile operators in the world as customers for its Rocket Optimizer™ and Skyfire Horizon™ solutions.
Hall 2 Stand 2A130	SpiderClod Wireless	www.spidercloud.com	SpiderCloud Wireless empowers mobile operators with a scalable multi-access small cell system with 3G, LTE/4G and dual-band Wi-Fi for reliable mobile services indoors for enterprise customers. The Enterprise RAN (E-RAN) delivers unprecedented reliability, mobility, capacity, and coverage to over 10,000 connected devices, with one connection to the core network.
Hall 1 Stand 1EMR.E5, Hall 1 Stand 1EMR.E3, Hall 1 Stand 1EMR.E1	Sprint	www.sprint.com	Sprint offers a comprehensive range of wireless and wireline communications services to wholesalers, businesses, government and consumers. Sprint is widely recognized for developing, engineering and deploying innovative technologies including the first wireless 4G service from a national carrier in the U.S. and an award-winning global Tier 1 Internet backbone. Sprint Wholesale Solutions provides an innovative, customizable suite of wireless, wireline, M2M and VoIP services to hundreds of partners worldwide, who in turn serve millions of customers. We enable partners to extend the value of core products, helping build brand loyalty and multiply business results.
App Planet - Hall 8.1 Stand 8.1H46	StackMob	https://stackmob.com/	StackMob's mobile platform helps developers create a mobile business by letting them easily build, deploy and grow full-featured applications from the very first version. StackMob cuts backend development time from months to days, letting developers focus on creating powerful apps with quality user experiences. StackMob also provides a front-end development environment that developers can use to create a single, feature-rich application that runs seamlessly on multiple mobile operating systems.

<p>App Planet - Hall 8.1 Stand 8.1E41 Contact through U.S. Export Interest Directory Marketplace</p>	<p>SundaySky</p>	<p>www.sundaysky.com</p>	<p>SundaySky is the creator of SmartVideo, delivering compelling, personalized, real-time video experiences that effectively engage people at every step of the customer lifecycle. Our platform generates hundreds of thousands of SmartVideos daily that target prospects, convert prospects to customers, support customers and enhance customer relationships. SundaySky customers include global telecommunications leaders, such as AT&T and Orange, who use SmartVideo experiences to increase competitiveness, proactively reduce churn and turn new customers into advocates while reducing care cost.</p>
<p>Hall 5 Stand 5MR138</p>	<p>Synchronoss Technologies, Inc.</p>	<p>www.synchronoss.com</p>	<p>Synchronoss is the world's leading provider of automation software and cloud technology solutions. Our solutions connect, synchronize and activate any device or service across any channel or network for Tier One Communications Service Providers (CSPs) and Original Equipment Manufacturers (OEMs) across the globe. We deliver a best-in-class customer experience with an expedited time to market at a lower cost of service. Synchronoss' industry-leading customers include tier 1 service providers such as AT&T Inc., Verizon Wireless and Vodafone, tier 1 cable operators/MSOs such as Cablevision, Charter Communications, Comcast, and Time Warner Cable and large OEMs such as Apple, Dell, Panasonic and Nokia. These customers utilize our platforms, technology and services to service both consumer and business customers, including over 300 of the Fortune 500 companies.</p>
<p>Hall 5 Stand 5H70</p>	<p>Telco Systems</p>	<p>www.telco.com</p>	<p>Telco Systems, a wholly-owned subsidiary of BATM Advanced Communications, leverages 20 years of Carrier Ethernet and MPLS technology experience to create a robust mobile backhaul solution that enables a cost-effective migration to 4G and LTE networks. These solutions fit transparently into the provider's network offering a cost effective means to deliver IP services while lowering "cost per bit" and delivering precise timing, bandwidth scalability and advanced traffic management required for migration to high bandwidth WiMAX, HSPA+ and LTE services A powerful service management system eases network planning and activation to reduce OPEX and offer cost effective TCO.</p>
<p>Hall 3 Stand 3B15</p>	<p>TeleCommunication Systems</p>	<p>www.telecomsys.com</p>	<p>TeleCommunication Systems, Inc. (NASDAQ: TSYS) a world leader in highly reliable and secure mobile communication technology. TCS provides messaging, E112/E911, and complete end-to-end LBS solutions that include branded and white-label navigation and finder applications, infrastructure, mapping, and content for leading consumer brands, content providers, voice service providers, government agencies, and 60 mobile operators worldwide.</p>
<p>Hall 2 Stand 2MR170</p>	<p>TeleTech</p>	<p>www.teletech.com</p>	<p>TeleTech Holdings, Inc. (NASDAQ: TTEC) has designed, implemented and managed critical business processes for Global 1000 companies for nearly 30 years. TeleTech's success has been in developing strategies and implementing solutions that drive commerce and differentiate the customer experience to deliver increased brand loyalty, retention and satisfaction.</p>

Hall 1 Stand 1EMRC4	TEOCO	www.teoco.com	TEOCO is the leading provider of Assurance and Analytics solutions to Communication Service Providers worldwide. TEOCO's product portfolio includes:- Customer Analytics –Combine profitability, quality of experience, and behavioral data to better understand, target and engage the subscriber base.- Margin Assurance – Manage costs and revenues to understand the profitability of every transaction.- Service Assurance – Resolve faults, maximize performance & utilization, and improve customer experience.- Network Optimization – Optimize radio access networks to reduce costs while improving coverage, capacity, and quality of the network.
Hall 2 Stand 2MR132	Texas Instruments, Inc	www.ti.com	Texas Instruments Incorporated is one of the world's largest semiconductor companies, and dedicated to providing complete solutions that empower our customers to push the boundaries of what's possible in mobile and other markets.
Hall 5 Stand 5I60	TriPlay, Inc.	www.triplay.com	TriPlay is a mobile life company - the only media delivery platform and services suite for sharing personal digital content across multiple devices. TriPlay's patent protected media delivery platform was built from the ground up as the first truly cross-platform empowering users to send and receive any digital media anywhere in the world, from any online device.
App Planet - Hall 8.1 Stand 8.1L14	Twilio	www.twilio.com	Twilio, the cloud communications company, is reinventing telecom by merging the worlds of cloud computing, web services and telecommunications. Twilio provides a telephony infrastructure web service in the cloud, allowing web developers to integrate phone calls, text messages, and IP voice communications into their web, mobile, and traditional phone applications.
Hall 2 Stand 2MR10	Verizon Wireless	www.verizonwireless.com	Verizon Wireless operates the largest 4G LTE network and largest, most reliable 3G network in the United States. The company serves 108.7 million total wireless connections, including 92.2 million retail customers. With nearly 82,000 employees nationwide, Verizon Wireless is a joint venture of Verizon Communications (NYSE, NASDAQ: VZ) and Vodafone (LSE, NASDAQ: VOD).
App Planet - Hall 8.1 Stand 8.1C47	Webalo	www.webalo.com	Webalo enables self-service mobile interaction with IBM, Microsoft, Oracle, SAP, Salesforce.com, in-house, and other vendors' enterprise applications, letting users interact directly from their smartphones and tablets with the enterprise applications and data they rely on. By connecting directly to enterprise resources through a cloud-based configuration service, Webalo eliminates app development bottlenecks that hamper enterprise mobility deployments. For ISVs, SIs, VARs, and, especially, wireless carriers, Webalo provides a virtually immediate BYOD enterprise app enablement service which, reduces enterprise mobile app costs to the equivalent of pennies an app, accelerates device and data plan sales and rapidly increases ARPU to provide immediate profitability.
App Planet - Hall 8.1 Stand 8.1MR21	Webroot, Inc.	www.webroot.com	Webroot provides industry-leading Internet security solutions for consumers, enterprises and small and medium businesses worldwide. Webroot products consistently receive top review ratings by respected third parties and have been adopted by millions globally. With a wide range of online security products for home and office, Webroot protects corporate networks and allows consumers to download music, store digital files, bank, shop, surf and search – safely.

Hall 7 Stand 7C66,Hall 7 Stand 7MR132	Wind River	www.windriver.com	Wind River, a wholly owned subsidiary of Intel® Corporation (NASDAQ: INTC), is a world leader in embedded and mobile software. Wind River has been pioneering computing inside embedded devices since 1981 and its technology is found in more than 1 billion products. Wind River is headquartered in Alameda, Calif., with offices in more than 20 countries.

Consulting-Professional Services

Hall	Company	Website	Overview
TBD	Andrew Seybold	www.andrewseybold.com	This worldview educational session is for professionals involved in every aspect of mobility who need to know about the transition to next-generation mobile technology, devices, and applications. Imparts a solid grounding in mobile today and an understanding of current trends and their implications. We look into the future and prepare for what lies ahead. For the first time in the history of mobility, a worldwide standard is being deployed. We provide examples of successes and failures of those that have deployed this technology early and explore what will come next with LTE Advanced. Presented in a straightforward, plain-English style.
Hall 6 Stand 6C75	Celcite	www.celcite.com	Celcite Management Solutions delivers optimisation solutions for all wireless technologies including GSM/GPRS/EDGE BSS, UTRAN (WCDMA/HSPA +HSUPA PH2) and E-UTRAN (LTE).
Hall 5 Stand 5D45	CelPlan Technologies Inc	www.celplan.com	CelPlan Technologies, Inc. is a leading provider of RF Planning & Optimization Tools, Engineering Services, Consulting, and Certified Training to the wireless industry. Founded in 1992, CelPlan has steadily developed the CelPlanner™ Suite of tools into the finest set of PC-based application modules available for designing high quality fixed and mobile 4G networks. The suite of tools supports planning and optimization of 2G, 3G and 4G technologies with a traffic based approach. CelPlan has been involved in over 125 4G projects in the last year from providing RFP's, to technology transfer programs, to full project management and deployment.
App Planet - Hall 8.1 Stand 8.1J46	CloudXtension	www.cloudxtension.com	CloudXtension is a leading professional services company specializing in mobile and cloud application development. Our mobile development expertise covers all major platforms- iPhone/iPad, Android, BlackBerry, Windows and Symbian. We empower you to design, develop and deploy your mobile applications and optimize the development by leveraging leading cloud platforms such as Microsoft Azure, Amazon, Force.com and Google.
Hall 2 Stand 2MR202	Ecrio Inc.	www.ecrio.com	Ecrio is a leading supplier of client software for IP communication services including IP Voice, video, messaging, and content sharing over 3G, 4G, and WiFi networks.
Hall 7 Stand 7C34	Exalt Communications, Inc.	www.exaltcom.com	Exalt Communications provides next-generation microwave backhaul systems to mobile operators, government agencies, and enterprises worldwide.
Hall 6 Stand 6E110	Genband	www.genband.com	Genband is a global leader of IP infrastructure and service solutions, helping fixed, mobile and cable service providers around the world evolve communications networks through IP innovation.

Hall 2 Stand 2MR234	Guavus	www.guavus.com	Guavus Big Data analytics solutions, which are based on pioneering patent-pending technology, are a unified technology stack consisting of the Guavus Reflex™ platform integrated with a suite of decisioning applications. A grid-based, scalable and highly available computing architecture, the Guavus Reflex platform, offers a powerful solution for data analytics using an innovative paradigm of stream processing and analytics for collection, processing and advanced visualization. Instead of first storing and then querying large and growing volumes of data, the platform processes raw network data streams as they arrive from the various network elements. Catalog information — such as subscriber demographics, pricing plans, device catalogs, and more — is fused with the network usage data and application data to provide a holistic picture and deliver business critical insights for just-in-time decision-making. Insights are displayed through powerful, easy-to-use graphical dashboards that can be customized to suit specific and individual information requirements.
Hall 2 Stand 2MR192	Lithium Technologies	www.lithium.com	Lithium helps great companies build brand nations for their most engaged customers. With Lithium, clients such as Best Buy, AT&T, Sephora, Univision, and PayPal turn their customers' passion into marketing, product development, sales and customer service assets. The Lithium Social Customer Suite offers complete social monitoring, a comprehensive community platform, and actionable analytics across millions of blogs, forums, and social networking sites.
Hall 1 Stand 1EMR.F8	MontaVista Software, Inc.	www.mvista.com	MontaVista Software, LLC, a wholly owned subsidiary of Cavium Networks (NASDAQ: CAVM), is a leader in embedded Linux commercialization. For over 10 years, MontaVista has been helping embedded developers get the most out of open source by adding commercial quality, integration, hardware enablement, expert support, and the resources of the MontaVista development community. Because MontaVista customers enjoy faster time to market, more competitive device functionality, and lower total cost, more devices have been deployed with MontaVista than with any other Linux.
Hall 6 Stand 6G31	Newfield Wireless	www.newfieldwireless.com	Newfield Wireless delivers network visualization software and specialized engineering services to wireless service providers so they can improve their subscriber experience. As a trusted strategic partner, the company develops technically advanced and vendor-independent solutions to address the needs of engineering, marketing and customer care teams within wireless operators.
Hall 2 Stand 2MR226	Novatel Wireless	www.novatelwireless.com	Novatel Wireless, Inc. is a leader in the design and development of intelligent wireless solutions based on 2G, 3G and 4G technologies providing wireless connectivity. The Company delivers specialized wireless solutions to carriers, distributors, retailers, OEMs and vertical markets worldwide.
Hall 2 Stand 2MR58	Shelly Palmer	www.shellypalmer.com	Shelly Palmer, the prolific author and American TV personality who speaks on a wide range of topics relating to the challenges of digital disruption, is bringing his Digital Leadership Series to Mobile World Congress. Shelly Palmer and his team of experienced tour guides will conduct bespoke tours during the event for business leaders who seek to rapidly get up to speed on mobile industry trends and opportunities to build an actionable roadmap for their business. The goal of Shelly Palmer Digital Leadership Series digital series is to help you succeed in a connected world. For over 10 years, we have been curating and leading tours for some of the world's largest companies.

Consumer Electronic/CEM

Hall	Company	Website	Overview
Hall 7 Stand 7144	AMD	www.amd.com	AMD is a semiconductor design innovator leading the next era of vivid digital experiences. At Mobile World Congress, AMD is highlighting the tablet user experience provided by its accelerated processing units (APUs). Demonstrations of tablet gaming, advanced user interfaces, and content sharing across devices are planned. Showcasing AMD's upcoming "Temash" quad core system-on-chip, these demonstrations are designed to show how a new breed of performance tablets will redefine customer expectations of thin tablets and hybrid form factors.
App Planet - Hall 8.1 Stand 8.1K13	Analogix Semiconductors	www.analogix.com	Analogix Semiconductor, Inc. designs and manufactures semiconductors for the digital multimedia market, from portable devices such as smart phones to high-end graphics cards and large, high-definition displays. Analogix is the market leader in providing end-to-end interface connectivity semiconductor solutions for DisplayPort, including the SlimPort family of products.
Hall 2 Stand 2MR194	Audyssey	www.audyssey.com	Established in 2002, Audyssey is the industry leader in research-based audio technologies that correct acoustical problems to improve the sound quality of any device or listening environment. The company's technologies are integrated into home theater products, automobiles, TVs, mobile phones and movie theaters from industry-leading manufacturers. Audyssey also produces a line of speakers and audio docks with wireless connectivity to suit today's digital lifestyle.
Hall 6 Stand 6MR90	AuthenTec	www.authentec.com	AuthenTec's vision is to provide complete security and identity management solutions for consumer, enterprise and government applications. AuthenTec is the world's #1 provider of fingerprint sensors, identity management software, and embedded security solutions. Already shipped on hundreds of millions of devices, the company's smart sensor products, software and embedded security solutions are used virtually everywhere, from the PC on your desk to the mobile device in your hand to the server in the cloud.
App Planet - Hall 8.1 Stand 8.1G45	Belkin	www.belkin.com	At Belkin, we make people-inspired products and solutions. For 30 years it has been our passion and our mission to create products that make people's lives better, easier and more fulfilling. From wireless home networking and entertainment, to mobile accessories, energy management, and an extensive range of cables, Belkin products enhance the technology that connects us to the people, activities and experiences we love.
Hall 5 Stand 5H34	Carrier IQ	www.carrieriq.com	Deployed on over 150M devices from the top mobile device vendors worldwide, Carrier IQ is the leading provider of Mobile Intelligence solutions, providing detailed metrics regarding mobile customer experience in a highly secure, private and anonymized environment. Today, it's increasingly important for mobile operators and OEMs to take a proactive approach to gathering insight into problems that may arise with user experience. Mobile Intelligence is an invaluable tool, providing real-time data directly from handsets, creating more efficient and cost effective business models by pointing out problem service locations and product features, spotting user trends, and ultimately identifying areas for improvement.

Hall 1 Stand 1EMR.F3	Compound Photonics	www.compoundphotonics.com	From very tiny, very bright, full HD laser projection light engines for smartphones and other mobile devices to ultra-high definition, 3D capable, cinema quality projectors, they have capabilities that are shaping the world of modern projection. They're in the former Motorola semiconductor fab known as COM-1.
Hall 2 Stand 2MR18	DigitalOptics Corporation	www.doc.com	DigitalOptics Corporation designs and manufactures camera modules for mobile applications, combining MEMS autofocus technology, optical design expertise, image processing algorithms, and manufacturing know-how to create the fastest, lowest power, highest precision camera modules available.
Hall 6 Stand 6G94 Contact through U.S. Export Interest Directory Marketplace	Drywired	www.drywired.com	DryWired™ is a Los Angeles based technology firm and the leading licensee of a revolutionary European protective nano-coating technology, which makes virtually any surface resistant to water, oil and corrosion. Our nano-coating is non-toxic, invisible, and undetectable to touch. DryWired™ is currently licensed to distribute the patented technology in over 50 countries. DryWired™'s patented, plasma polymerization system technology is the product of over 15 years of research and development. Our focus is to work with major mobile electronic manufacturers, distributors and operators to help them expand their portfolio of products and offer consumers water resistant electronic devices.
Hall 5 Stand 5C70	GoPro	www.gopro.com	GoPro makes the world's most versatile cameras, enabling people to capture immersive and engaging photo and video content during their favorite activities. GoPro's products are sold in over 100 countries worldwide and at GoPro.com.
App Planet - Hall 8.1 Stand 8.1H48	Griffin Technology	www.griffintechology.com	Griffin Technology began designing and manufacturing technical solutions with an innovative flair in 1992. We've since grown to become one of the largest providers of accessories for personal computing and digital media. We ask ourselves: What would you like to do with your computer, your TV, your stereo system, your MP3 players, your musical instruments... the technology that enhances your life? Our approach has given birth to some of the best known accessories in the digital entertainment and personal computer markets. Today, Griffin designs, manufactures and delivers useful and fun solutions for digital entertainment and personal computing to people in the Americas, Europe, and Asia, through major retailers and online.
Hall 5 Stand 5C80	InvenSense Inc.	www.invensense.com	InvenSense® Inc. is the pioneer and global market leader in intelligent motion processing solutions that enable a motion-based user interface for consumer electronics.
App Planet - Hall 8.1 Stand 8.1M08	LifeProof	www.lifeproof.com	LifeProof is a young vibrant company based in San Diego that designs, manufactures and markets LifeProof cases for all-environmental protection, functionality and interactivity to SmartPhones and Tablet PCs.
Hall 6 Stand 6C95	Liquipel	www.liquipel.com	Liquipel LLC presents our next generation of WATERSAFE nanotechnology liquid protection for phones, tablets and other electronics. Liquipel's 2.0 patent pending chemical formulation and manufacturing process creates a nano coating that protects the external and internal components of a device. The nano coating is virtually untraceable and does not affect the devices look, feel or performance. Since 2012, Liquipel has won an Edison Award, a Fierce wireless Fierce 15 Award, and was named by Popular Science as a Grand Award Winner. Executives will be on hand to discuss retail, distributor, OEM and licensing opportunities.

Hall 6 Stand 6C44	Marvell	www.marvell.com	Marvell is a global leader in providing complete silicon solutions enabling the digital connected lifestyle. From mobile communications to storage, cloud infrastructure, digital entertainment and in-home content delivery, Marvell's diverse product portfolio aligns complete platform designs with industry-leading performance, security, reliability and efficiency. At the core of powerful consumer, network and enterprise systems, Marvell empowers partners and their customers to always stand at the forefront of innovation, performance and mass appeal. By providing people globally with mobility and ease of access to services adding value to their social, private and work lives, Marvell is committed to enhancing the human experience.
Hall 5 Stand 5I02	Netgear	www.netgear.com	NETGEAR is a global networking company that delivers innovative products to consumers, businesses and service providers. For consumers, the company makes high performance, dependable and easy to use home networking, storage and digital media products to connect people with the Internet and their content and devices. For businesses, NETGEAR provides networking, storage and security solutions without the cost and complexity of big IT. The company also supplies top service providers with retail proven, whole home solutions for their customers. NETGEAR products are built on a variety of proven technologies with a focus on reliability and ease-of-use.
Hall 2 Stand 2MR226	Novatel Wireless	www.novatelwireless.com	Novatel Wireless, Inc. is a leader in the design and development of intelligent wireless solutions based on 2G, 3G and 4G technologies providing wireless connectivity. The Company delivers specialized wireless solutions to carriers, distributors, retailers, OEMs and vertical markets worldwide.
Hall 7 Stand 7G114	SanDisk Corp.	www.sandisk.com	SanDisk Corporation is the global leader in flash memory cards and a leading provider of embedded storage for mobile phones and tablets.
Hall 7 Stand 7C71	Silicon Image	www.siliconimage.com	Silicon Image is a leading provider of advanced, interoperable semiconductor and intellectual property connectivity solutions that enable the reliable distribution and presentation of high-definition content for consumer electronics, mobile, and PC markets.
Hall 2 Stand 2MR102	Synaptic	www.synaptic.com	Synaptics is the leading developer of human interface solutions which enhance the user experience with the broadest touch solutions portfolio in the industry. The ClearPad™ family supports touchscreen solutions for devices ranging from entry-level mobile phones to flagship premium smartphones, tablets and notebook PCs. The TouchPad™ family, including ClickPad™ and ForcePad™, is integrated into the majority of today's notebook PCs. Synaptics' wide portfolio also includes ThinTouch™ supporting thin and light keyboard solutions, as well as key technologies for next generation touch-enabled video and display applications.
Hall 6 Stand 6E95	Tektronix Communications	www.tekcomms.com	Tektronix Communications provides communication service providers and equipment manufacturers around the world an unparalleled suite of customer experience, assurance and test solutions for fixed, mobile and converged multi-service networks. This comprehensive set of solutions and services support a range of architectures and applications such as LTE, HSPA, 3G, IMS, mobile broadband, VoIP and triple play. Tektronix Communications is headquartered in Plano, Texas.

Hall 2 Stand 2MR132	Texas Instruments, Inc	www.ti.com	Texas Instruments Incorporated is one of the world's largest semiconductor companies, and dedicated to providing complete solutions that empower our customers to push the boundaries of what's possible in mobile and other markets.
Hall 5 Stand 5E90	Wireless Power Consortium	www.wirelesspowerconsortium.com	The Wireless Power Consortium is an open-membership organization. They promote the adoption of a global standard for wireless charging.

Content Management

Hall	Company	Website	Overview
Hall 2 Stand 2MR228	Affirmed Networks	www.affirmednetworks.com	Affirmed Networks enables mobile operators to deploy a virtualized mobile network – completely revolutionizing the wireless network infrastructure. Affirmed’s solutions, the Mobile Content Cloud and the AN3000, elevate service orchestration above industry standards –delivering virtualized subscriber management and policy-aware services that are bundled with 3G and 4G gateway functionality for rich application and content delivery. Affirmed’s technology supersedes existing, monolithic, discrete nodes for services with a flexible, highly-scalable solution that meets today’s demands and evolves with projected trends. Backed by venture capital investors Charles River Ventures, Matrix Partners, and Lightspeed Venture Partners, and by strategic investors T-Venture and Vodafone Ventures.
Hall 2 Stand 2MR176	Aylus Networks	http://www.aylus.com/	Aylus Networks, Inc. helps mobile operators and over-the-top (OTT) service providers transform their business models so that they can find new and innovative ways of monetizing the broadband mobile Internet. It is a leading provider of infrastructure software for enabling video communication services over mobile networks.
Hall 5 Stand 5C110	Bytemobile, Inc.	www.bytemobile.com	Bytemobile’s Smart Capacity platforms give mobile operators more control of existing network resources to manage escalating subscriber demand for capacity due to video and other bandwidth-intensive content and applications.
Hall 5 Stand 5MR130	CDNetworks	www.cdnetworks.com	CDNetworks is partnering with the world’s leading Telcos and Mobile Network Operators (“MNO”) to solve the Internet and mobile traffic growth problems through CDN technologies. CDNetworks’ mobile CDN technology provides MNOs with considerable CAPEX savings through data traffic reduction over their mobile networks, as well as improving their customers’ user experience. Despite just being recently announced, CDNetworks’ mobile CDN technology has been field-proven and adopted by some of the largest MNOs. As the only multinational CDN with expertise and infrastructure in China, CDNetworks can provide Telcos and MNOs with instant access to even the most challenging markets while minimizing capital expenditures of its MNO partners. Founded in 2000, CDNetworks has offices in the U.S., Korea, China, Japan, the UK and France.
Hall 5 Stand 5C110,Hall 5 Stand 5MR128,Hall 5 Stand 5MR122	Citrix	www.bytemobile.com	About Citrix ByteMobile Citrix (NASDAQ:CTXS) transforms how businesses and IT work and people collaborate in the cloud era. Citrix ByteMobile® Smart Capacity platforms enable mobile operators to deliver the best possible experience to their subscribers under all network conditions and to differentiate their services based on subscriber usage. The company’s solutions have been deployed in the mobile networks of more than 130 operators worldwide to manage escalating demand for capacity due to video and other rich multimedia content and applications. With Smart Capacity, mobile operators can improve utilization of existing capacity and control operating expenses, while increasing revenue growth and profitability

Hall 2 Stand 2MR234	Guavus	www.guavus.com	Guavus Big Data analytics solutions, which are based on pioneering patent-pending technology, are a unified technology stack consisting of the Guavus Reflex™ platform integrated with a suite of decisioning applications. A grid-based, scalable and highly available computing architecture, the Guavus Reflex platform, offers a powerful solution for data analytics using an innovative paradigm of stream processing and analytics for collection, processing and advanced visualization. Instead of first storing and then querying large and growing volumes of data, the platform processes raw network data streams as they arrive from the various network elements. Catalog information — such as subscriber demographics, pricing plans, device catalogs, and more — is fused with the network usage data and application data to provide a holistic picture and deliver business critical insights for just-in-time decision-making. Insights are displayed through powerful, easy-to-use graphical dashboards that can be customized to suit specific and individual information requirements. Users can output data into a PDF, XML or CSV file format for incorporation into other software application programs for further analysis or presentation purposes.
Hall 2 Stand 2D50	PeerApp	www.peerapp.com	PeerApp enables network operators to meet the exploding consumer demand for over-the-top multimedia and data content. Our award-winning UltraBand multiservice transparent caching platform enhances subscribers' quality of experience, improves network efficiency and optimizes content delivery networks by delivering both managed and unmanaged video, audio, file-sharing, software updates, and peer-to-peer traffic from the network edge. PeerApp is the acknowledged leader in transparent caching, with systems commercially deployed by hundreds of operators worldwide.
Hall 1 Stand 1EMR.F4	RealNetworks	www.realnetworks.com	RealNetworks creates products and services that make it easy for people to access and enjoy digital media on the devices and platforms they choose to use. Whether it's music, movies, games, video, or apps, RealNetworks thrives on giving people the fresh and entertaining experiences they deserve—whenever, wherever they want. RealNetworks does this in two ways: directly to consumers through our applications and services and through partnerships with well-established businesses and mobile operators throughout the world. RealNetworks technology powers audio, video, ringbacktones, and messaging on more than 700 million mobile handsets from some of the world's most popular mobile carriers.
Hall 5 Stand 5MR138	Synchronoss Technologies, Inc.	www.synchronoss.com	Synchronoss Technologies (NASDAQ: SNCR) is the mobile innovation company that provides software-based activation and personal cloud solutions for connected devices across the globe. The company's proven and scalable technology solutions allow customers to connect, synchronize and activate connected devices and services that empower enterprises and consumers to live in a connected world.
Hall 5 Stand 5I60	TriPlay, Inc.	www.triplay.com	TriPlay is a mobile life company - the only media delivery platform and services suite for sharing personal digital content across multiple devices. TriPlay's patent protected media delivery platform was built from the ground up as the first truly cross-platform empowering users to send and receive any digital media anywhere in the world, from any online device.

App Planet - Hall 8.1 Stand 8.1MR5	Urban Airship	www.urbanairship.com	Urban Airship makes mobile marketing far more engaging, effective, and efficient. Top brands depend on Urban Airship to ensure their mobile app initiatives are scalable and profitable. Dictionary.com, Groupon, Warner Bros., Weather Channel and Yahoo! are just a few of the thousands of companies that utilize Urban Airship's innovative platform to reach and engage target audiences and increase app revenue streams through push notification, rich messaging, in-app purchase, subscriptions and data tracking. The company's investors include Founder's Co-op, Foundry Group, Intel Capital, salesforce.com, True Ventures and Verizon. Urban Airship is headquartered in Portland, Oregon with offices in San Francisco.
Hall 2 Stand 2D50	Vasona Networks	www.vasonanetworks.com	Vasona Networks enhances the order and efficiency of mobile services. Operators can seamlessly integrate on existing networks to better fulfill demand and control when to spend on upgrades. More applications and better experiences result in enhanced subscriber loyalty and can drive new revenues.
Hall 2 Stand 2MR10	Verizon Wireless	www.verizonwireless.com	Verizon Wireless operates the largest 4G LTE network and largest, most reliable 3G network in the United States. The company serves 108.7 million total wireless connections, including 92.2 million retail customers. With nearly 82,000 employees nationwide, Verizon Wireless is a joint venture of Verizon Communications (NYSE, NASDAQ: VZ) and Vodafone (LSE, NASDAQ: VOD).

Hall 5 Stand 5D54	Dialogic, Inc.	www.dialogic.com	Dialogic supplies products that deliver video calls, location-based services, text messaging, and other high-demand services over mobile, VoIP, and traditional networks. Dialogic provides the technology to create, manage, and control voice, video, and data sessions simultaneously.
Hall 5 Stand 5G63 Contact through U.S. Export Interest Directory Marketplace	Diametriq, LLC	www.diametriq.com	Diametriq, an innovator in Diameter signaling control technologies, was launched in 2012 to focus on "Smart Signaling" solutions and meeting the ever increasing signaling traffic demands of 4G/LTE networks. Diametriq offers high performance Diameter signaling solutions to meet the needs of LTE wireless operators. The company's standards compliant Diameter Routing Engine™ (DRE) includes a Diameter Routing Agent (DRA), Diameter Edge Agent (DEA), a Subscription Locator Function (SLF) and a Diameter Interworking Function.
Hall 5 Stand 5G63 Contact through U.S. Export Interest Directory Marketplace	Emerson Network Power	www.emersonnetworkpower.com	At Emerson Network Power, they've built their capabilities on delivering reliable power, precision cooling, connectivity and embedded solutions that assure Business-Critical Continuity™ for your technology investments. Their ability to keep your network infrastructure up and running, regardless of whether the content is voice, data or multimedia, comes from a time-tested grid-to-chip portfolio of products, services and systems that can maintain a wide range of computing, telecom, healthcare and industrial applications. These technology offerings and deep expertise, complemented by in-depth industry knowledge support a full spectrum of enterprise-wide solutions for today's vital business needs.
Hall 7 Stand 7C34	Exalt Communications, Inc.	www.exaltcom.com	Exalt Communications provides next-generation microwave backhaul systems to mobile operators, government agencies, and enterprises worldwide.
Hall 6 Stand 6E110	Genband	www.genband.com	Genband is a global leader of IP infrastructure and service solutions, helping fixed, mobile and cable service providers around the world evolve communications networks through IP innovation.

App Planet - Hall 8.1 Stand 8.1E20,Hall 3 Stand 3C34	Intel Corporation	www.intel.com	Intel Corporation's vision is connect and enrich the lives of every person on earth by offering solutions across the eco-system with essential technologies that serve as the foundation for an increasingly mobile world. From organizing Big Data, to transforming networks, to delivering performance driven devices including - smartphones, tablets, Ultrabook(tm), and other products customers now experiencing mobile with Intel Inside(r). The company's mobile broadband product portfolio also includes broad offerings spanning Wi-Fi, Blue Tooth, GPS, 2G, 3G and 4G solutions, in an effort to support a variety of technology needs, customer requirements and market segments in both developed and emerging markets.
App Planet - Hall 8.1 Stand 8.1J5	LineRate Systems Inc.	www.lineratesystems.com	Our Application Layer SDN solution provides precision traffic handling to deliver a fully programmable policy enforcement gateway using x86 servers. With our data path programming API, line.js, customers can rapidly implement dynamic policies to monetize new services, make programmatic steering decisions incorporating external services, and intelligently steer HTTP traffic. Aligned with NFVs network virtualization goals, LineRate Proxy is the fastest pure software solution available today and runs on inexpensive COTS servers, eliminating special-purpose hardware. In our booth see use-case demonstrations of value-add services like Targeted Ad Insertion, Parental Controls and Video Request Steering being delivered via our powerful programming API.
Hall 2 Stand 2MR108	NetNumber, Inc.	www.netnumber.com	NetNumber is a leading provider of converged, next-generation, ENUM, SIP, SS7/C7 and SIGTRAN addressing and routing technology to the global communications industry. The NetNumber Transactional IP Telephony Addressing and Numbering (TITAN) server is licensed and deployed by many of the world's largest mobile-operators, fixed-line carriers, and cable companies as a centralized addressing and routing infrastructure for both TDM and IP-based voice services, messaging services, number-portability services and least-cost routing services. The highly-scalable TITAN Master/Edge architecture delivers on the next- generation technology promise of lower-cost, faster-performance, and greater configuration flexibility than legacy intelligent networking platforms.
Hall 5 Stand 5MR144	NetScout Systems, Inc.	www.netscout.com	NetScout Systems is the market leader in Unified Service Delivery Management enabling comprehensive end-to-end network and application assurance. On October 2011, NetScout® Systems, Inc. announced it ranked number 396 on Deloitte's Technology Fast 500™, an annual ranking of the 500 fastest growing technology, media, telecommunications, life sciences and clean technology companies in North America.
Hall 2 Stand 2D50	PeerApp	www.peerapp.com	PeerApp enables network operators to meet the exploding consumer demand for over-the-top multimedia and data content. Our award-winning UltraBand multiservice transparent caching platform enhances subscribers' quality of experience, improves network efficiency and optimizes content delivery networks by delivering both managed and unmanaged video, audio, file-sharing, software updates, and peer-to-peer traffic from the network edge. PeerApp is the acknowledged leader in transparent caching, with systems commercially deployed by hundreds of operators worldwide.

Hall 7 Stand 7G14	PT	www.pt.com	PT's SEGway portfolio of Signalling SS7, SIGTRAN and Diameter protocol products provide wireless carriers high density signalling and advanced routing for next generation LTE and IMS networks. The company's IP-centric network elements are designed for high availability and scalability to deliver an unparalleled price-to-performance ratio in edge-to-core network deployments. PT's STPs, Diameter routers, gateways, edges, and network applications are deployed in mobile networks around the globe, enabling wireless network service providers to rapidly and cost-effectively deliver revenue-generating features. PT's solutions enable IP migration, Diameter routing, gateway capabilities, SIP bridging, and core- to-edge distributed intelligence, along with features like Number Portability.
Hall 5 Stand 5G34	Radisys	www.radisys.com	Radisys (NASDAQ: RSYS) is a leading provider of embedded wireless infrastructure solutions for telecom, aerospace, defense and public safety applications. Radisys' market-leading ATCA, IP Media Server and Com Express platforms coupled with world-renowned Trillium software, services and market expertise enable customers to bring high-value products and services to market faster with lower investment and risk. Radisys solutions are used in a wide variety of 3G and 4G / LTE mobile network applications including: Radio Access Networks (RAN) solutions from femtocells to picocells and macrocells, wireless core network applications, Deep Packet Inspection (DPI) and policy management; conferencing and media services including voice, video and data, as well as customized mobile network applications that support the aerospace, defense and public safety markets.
Hall 5 Stand 5E70	Ruckus Wireless Inc.	www.ruckuswireless.com	Ruckus Wireless is supplier of advanced wireless systems for the mobile Internetworking market. The company markets and manufactures a wide range of indoor and outdoor "Smart Wi-Fi" products for mobile operators, broadband service providers and corporate enterprises around the world.
Hall 5 Stand 5MR86	Stoke, Inc.	www.stoke.com	Stoke is the mobile industry's only transformation platform, delivering future-focused thinking and solutions for 3G and 4G mobile broadband infrastructures. Stoke enables mobile operators, through the application of Business-Crossover™ thinking, to overcome limitations inherent in legacy approaches and architectures, helping them tackle the new realities of 3G mobile data service delivery today and successfully navigate their transition to 4G services platforms tomorrow.
Hall 2 Stand 2A130	SpiderClod Wireless	www.spidercloud.com	SpiderCloud Wireless empowers mobile operators with a scalable multi-access small cell system with 3G, LTE/4G and dual-band Wi-Fi for reliable mobile services indoors for enterprise customers. The Enterprise RAN (E-RAN) delivers unprecedented reliability, mobility, capacity, and coverage to over 10,000 connected devices, with one connection to the core network.
Hall 5 Stand 5MR102	Symmetricom, Inc.	www.symmetricom.com	Symmetricom is a worldwide leader of precise time and synchronization technologies. Across the globe, telecom carriers, cable providers and data service providers depend on Symmetricom carrier-class solutions for the superior accuracy, consistency and reliability that is essential for quality assurance, network performance, service availability and seamless network interoperability.

Private Suite. Contact: sales@tecore.com	Tecore	www.tecore.com	<p>Supplier of multi-technology 2G, 3G and 4G mobile network infrastructure. Built with the same standards-based voice and data technologies available to global carriers on an IP-based architecture, we have dramatically enhanced functionality while minimizing space requirements, installation time and cost of ownership. We also offer integrated value-added features to enable our customers to increase ARPU and retention. Our solutions include core as well as radio access network infrastructure, supported by state-of-the-art professional services. Our IP-based core and access products have allowed an unprecedented level of functionality, including: supporting multiple technologies including GSM, CDMA, GPRS / EDGE, UMTS, LTE and VoIP in a single network; integrating multiple network components and value-added features in a single chassis; and delivering innovative new services such as Over-the-Air Prepaid Roaming, an award-winning offering enabling operators to capture roaming revenue directly from network visitors without the need for a roaming agreement.</p>
Hall 5 Stand 5H70	Telco Systems	www.telco.com	<p>Telco Systems, a wholly-owned subsidiary of BATM Advanced Communications, leverages 20 years of Carrier Ethernet and MPLS technology experience to create a robust mobile backhaul solution that enables a cost-effective migration to 4G and LTE networks. These solutions fit transparently into the provider's network offering a cost effective means to deliver IP services while lowering "cost per bit" and delivering precise timing, bandwidth scalability and advanced traffic management required for migration to high bandwidth WiMAX, HSPA+ and LTE services A powerful service management system eases network planning and activation to reduce OPEX and offer cost effective TCO.</p>
Hall 5 Stand 5H40	Ulticom	www.ulticom.com	<p>Ulticom, a Platinum Equity Company, is a leader in high performance mission critical products that evolve information delivery. With over 6,000 deployments worldwide, the company's flagship product, Signalware, is the premier platform for the deployment of applications and services within wireless, IP, and wireline networks. For over 35 years, Ulticom has delivered carrier-grade solutions that are robust, reliable, and enable high- performance and high-availability deployments, all backed by the company's unmatched service and support. Communication Service Providers (CSP), Telecom Equipment Manufacturers (TEM) and Systems Integrators (SI) trust Ulticom solutions to optimize information and application.</p>
Hall 2 Stand 2D50	Vasona Networks	www.vasonanetworks.com	<p>Vasona Networks enhances the order and efficiency of mobile services. Operators can seamlessly integrate on existing networks to better fulfill demand and control when to spend on upgrades. More applications and better experiences result in enhanced subscriber loyalty and can drive new revenues.</p>

Data Analysis			
Hall	Company	Website	
Hall 6 Stand 6MR90	AuthenTec	www.authentec.com	AuthenTec's vision is to provide complete security and identity management solutions for consumer, enterprise and government applications. AuthenTec is the world's #1 provider of fingerprint sensors, identity management software, and embedded security solutions. Already shipped on hundreds of millions of devices, the company's smart sensor products, software and embedded security solutions are used virtually everywhere, from the PC on your desk to the mobile device in your hand to the server in the cloud.
Hall 5 Stand 5C110	Bytemobile, Inc.	www.bytemobile.com	Bytemobile's Smart Capacity platforms give mobile operators more control of existing network resources to manage escalating subscriber demand for capacity due to video and other bandwidth-intensive content and applications.
Hall 5 Stand 5H34	Carrier IQ	www.carrieriq.com	Deployed on over 150M devices from the top mobile device vendors worldwide, Carrier IQ is the leading provider of Mobile Intelligence solutions, providing detailed metrics regarding mobile customer experience in a highly secure, private and anonymized environment. Today, it's increasingly important for mobile operators and OEMs to take a proactive approach to gathering insight into problems that may arise with user experience. Mobile Intelligence is an invaluable tool, providing real-time data directly from handsets, creating more efficient and cost effective business models by pointing out problem service locations and product features, spotting user trends, and ultimately identifying areas for improvement.
App Planet - Hall 8.1 Stand 8.1C7	Crittercism	www.crittercism.com	At Crittercism they help people make better apps, improve retention, conversion and monetization. They want people to have powerful insight into how consumers interact with mobile applications in real-time. Their objective is to make the integration easy, so that people can save time and energy in monitoring and managing their apps.
Hall 7 Stand 7I80	Fiberlink	www.maas360.com	MaaS360 by Fiberlink simplifies mobile device management (MDM), mobile application management (MAM), and secure document sharing in the BYOD era. Trusted by small businesses, government agencies, universities, and large enterprises worldwide, MaaS360 enables mobile policies that boost productivity, protect employee privacy, and secure sensitive data across smartphones, tablets, and laptops. MaaS360's on-demand mobility management can be deployed in minutes and seamlessly integrates with existing infrastructure. Backed by 20 years of experience and the most responsive customer service in the industry, MaaS360 helps organizations transform business operations and reduce the costs of supporting the expanding mobile workforce.
Hall 1 Stand 1EMR.C8	First Data	www.firstdata.com	At First Data, they look for every opportunity to help customers leverage more value from each transaction—developing new solutions to make them simpler, faster, safer and more rewarding. We've entered the age of Universal Commerce, where the lines between in-store. eCommerce and mobile commerce are blurring. First Data is focused on delivering the integrated buying experience today's consumers demand—anywhere, any time and on any device.

Hall 6 Stand 6E90	Gigamon LLC	www.gigamon.com	Gigamon® provides intelligent Traffic Visibility solutions for enterprises, data centers and service providers around the globe. Our technology empowers infrastructure architects, managers and operators with unmatched visibility into the traffic traversing both physical and virtual networks without affecting the performance or stability of the production environment. Through patented technologies, the Gigamon GigaVUE® portfolio of high availability and high density products intelligently delivers the appropriate network traffic to security, monitoring or management systems.
Hall 2 Stand 2MR234	Guavus	www.guavus.com	Guavus Big Data analytics solutions, which are based on pioneering patent-pending technology, are a unified technology stack consisting of the Guavus Reflex™ platform integrated with a suite of decisioning applications. A grid-based, scalable and highly available computing architecture, the Guavus Reflex platform, offers a powerful solution for data analytics using an innovative paradigm of stream processing and analytics for collection, processing and advanced visualization. Instead of first storing and then querying large and growing volumes of data, the platform processes raw network data streams as they arrive from the various network elements. Catalog information — such as subscriber demographics, pricing plans, device catalogs, and more — is fused with the network usage data and application data to provide a holistic picture and deliver business critical insights for just-in-time decision-making. Insights are displayed through powerful, easy-to-use graphical dashboards that can be customized to suit specific and individual information requirements. Users can output data into a PDF, XML or CSV file format for incorporation into other software application programs for further analysis or presentation purposes.
Hall 3 Stand 3B86	IBM	www.ibm.com	Join IBM at Booth 3.B86 in Hall 3 to learn how we are partnering with service providers, enterprises, organizations and governments to help make communications smarter. Discover new ways we can help you: – Connect to enterprises, consumers, partners, and developers – Innovate with the latest technologies to reach new markets– Deliver new services and more value to your customersSee demonstrations designed to deliver smarter services, personalize customer engagements, transform operations, and build smarter networks. Explore innovations in big data, IBM systems, and research and understand how we can deliver proven results.
App Planet - Hall 8.1 Stand 8.1I21	Matrixx software	www.matrixsw.com	MATRIXX Software is REINVENTING REAL-TIME™ to deliver solutions that help communications service providers address the growing volume and complexity of services that require real-time processing. By delivering a ten to fifty-fold increase in performance over existing real-time rating and charging systems, the MATRIXX solution enables an entirely new operational cost structure for online charging and subscriber policy management. It empowers service providers to monetize all products, services, and content in real-time at a dramatically lower cost per transaction.
App Planet - Hall 8.1 Stand 8.1G12	MobiWork	www.mobiwork.com	MobiWork® is the Smartphone based Mobile Workforce Technology Company. Smartphones and tablets are increasingly pervasive and have become robust business application platforms. MobiWork is a software technology company that has embraced this technology and market shift. MobiWork has engineered several advanced software components (6 patents pending) that exploit the unique smartphone & tablet capabilities and combine them with the power of the web, all leveraged in the cloud-based mobile workforce solutions MobiWork MWS and MobiWork SmartTrack. It is also possible to OEM MobiWork's components and solutions to create your own applications, or extend your web based applications to the mobile world.

Visiting. Contact through U.S. Export Interest Directory Marketplace	Neustar	www.neustar.biz	Neustar is one of the world's largest addressing and policy management companies, operating authoritative databases for virtually all telephone numbers and area codes for the U.S. and Canada, managing LNP in Taiwan and Brazil; providing DNS solutions that direct and manage Internet traffic; and managing the registry for Common Short Codes used by the wireless industry.
Hall 1 Stand 1EMR.E8	Openwave Mobility	www.owmobility.com	Openwave Mobility empowers mobile operators to manage and monetize the growth in mobile video and web traffic. By analyzing the data network and individual subscriber habits, it reduces congestion exactly where it appears while creating new revenues through personalized data plans.
Hall 2 Stand 2MR170	TeleTech	www.teletech.com	TeleTech Holdings, Inc. (NASDAQ: TTEC) has designed, implemented and managed critical business processes for Global 1000 companies for nearly 30 years. TeleTech's success has been in developing strategies and implementing solutions that drive commerce and differentiate the customer experience to deliver increased brand loyalty, retention and satisfaction.
Hall 1 Stand 1EMR.C4	TEOCO	www.teoco.com	TEOCO is the leading provider of Assurance and Analytics solutions to Communication Service Providers worldwide. TEOCO's product portfolio includes:- Customer Analytics –Combine profitability, quality of experience, and behavioral data to better understand, target and engage the subscriber base.- Margin Assurance – Manage costs and revenues to understand the profitability of every transaction.- Service Assurance – Resolve faults, maximize performance & utilization, and improve customer experience.- Network Optimization – Optimize radio access networks to reduce costs while improving coverage, capacity, and quality of the network.
Hall 5 Stand 5G12	Trendium	www.trendium.com	Trendium offers policy-based software and hardware solutions that allow service providers to generate differentiated value services by understanding their customer experience as well as their behavior, service needs and usage patterns. The focus for Trendium's products is to enable the service providers to capture, understand and drill-down to all service events, key performance indicators, as well as the health of network elements and IT infrastructure, in order to identify the areas that can affect and improve the customer experience in time to be able to influence, optimize and monetize that experience.
App Planet - Hall 8.1 Stand 8.1C47	Webalo	www.webalo.com	Webalo enables self-service mobile interaction with IBM, Microsoft, Oracle, SAP, Salesforce.com, in-house, and other vendors' enterprise applications, letting users interact directly from their smartphones and tablets with the enterprise applications and data they rely on. By connecting directly to enterprise resources through a cloud-based configuration service, Webalo eliminates app development bottlenecks that hamper enterprise mobility deployments. For ISVs, SIs, VARs, and, especially, wireless carriers, Webalo provides a virtually immediate BYOD enterprise app enablement service which, reduces enterprise mobile app costs to the equivalent of pennies an app, accelerates device and data plan sales and rapidly increases ARPU to provide immediate profitability.

Data Clearing			
Hall	Company	Website	Overview
App Planet - Hall 8.1 Stand 8.1G2	BSG Wireless	www.connectionservices.com	Connection Services is a leading provider of Wi-Fi solutions delivering proven and reliable solutions to the growing Wi-Fi ecosystem. Our company offers a broad suite of innovative services which enable the next generation of Wi-Fi by simplifying the user experience across a wide variety of disparate networks and devices. Connection Services also empowers network owners with the tools they need to effectively monetize their Wi-Fi networks; in addition to providing white labeled device clients, directory services, location services, wifi roaming, hubbing, interconnection, financial clearing & settlement, and credit card payment gateway services.
Hall 2 Stand 2MR96	Equinix	www.equinix.com	Equinix, Inc. (Nasdaq: EQIX) provides global data center services that ensure the vitality of the information-driven world. Equinix, Inc. operates International Business Exchange™ (IBX®) data centers in 38 markets across 13 countries in the Americas, EMEA, and Asia- Pacific.
Hall 2 Stand 2MR234	Guavus	www.guavus.com	Guavus Big Data analytics solutions, which are based on pioneering patent-pending technology, are a unified technology stack consisting of the Guavus Reflex™ platform integrated with a suite of decisioning applications. A grid-based, scalable and highly available computing architecture, the Guavus Reflex platform, offers a powerful solution for data analytics using an innovative paradigm of stream processing and analytics for collection, processing and advanced visualization. Instead of first storing and then querying large and growing volumes of data, the platform processes raw network data streams as they arrive from the various network elements. Catalog information — such as subscriber demographics, pricing plans, device catalogs, and more — is fused with the network usage data and application data to provide a holistic picture and deliver business critical insights for just-in-time decision-making. Insights are displayed through powerful, easy-to-use graphical dashboards that can be customized to suit specific and individual information requirements.

Device Management			
Hall	Company	Website	Overview
App Planet - Hall 8.1 Stand 8.1MR15, App Planet - Hall 8.1 Stand 8.1F13	Aruba Networks Inc	www.arubanetworks.com	Aruba Networks™ is a leading supplier of next-generation carrier Wi-Fi access solutions for service providers. The company's carrier Wi-Fi networks are fast and simple to deploy, easy to manage, and dramatically reduce capital and operational costs. With Aruba, service providers can rollout carrier Wi-Fi with incredible speed to offload 3G/4G networks while delivering value-rich managed mobility services to customers.
Hall 3 Stand 3C2 Connected City, Hall 6 Stand 6D100	AT&T	www.att.com	AT&T Inc. (NYSE:T) is a premier communications holding company. Its subsidiaries and affiliates – AT&T operating companies – are the providers of AT&T services around the world. With a powerful array of network resources that includes the largest 4G network in U.S., AT&T is a leading provider of wireless, Wi-Fi, high speed Internet, voice and cloud-based services. A leader in mobile Internet, AT&T also offers the best wireless coverage worldwide of any U.S. carrier, offering the most wireless phones that work in the most countries. The company's suite of IP-based business communications services is one of the most advanced in the world.
Hall Zone 3a Stand OS3	Brightstar Corp.	www.brightstarcorp.com	Brightstar is the world's largest specialized wireless distributor and a leading global services company focused on enhancing the performance and profitability of the key participants in the wireless device value chain. The company supports over 80,000 points of sale worldwide with operations in 51 countries and territories and provides a comprehensive range of more than 100 customized services for value-added distribution, supply chain optimization, retail, government and VARs, and consumer services. Brightstar's services help customers manage the growing complexity of the wireless device value chain and enable them to increase product availability, expand their channel reach and drive supply chain efficiencies by getting the right products to the right place at the right time for the best value.
App Planet - Hall 8.1 Stand 8.1B49	CalAMP	www.calamp.com	CalAmp develops and markets wireless communications solutions that deliver data, voice and video for critical networked communications and other applications. The Company's two business segments are Wireless DataCom, which serves utility, governmental and enterprise customers, and Satellite, which focuses on the North American Direct Broadcast Satellite market.
Hall 5 Stand 5H34	Carrier IQ	www.carrieriq.com	Deployed on over 150M devices from the top mobile device vendors worldwide, Carrier IQ is the leading provider of Mobile Intelligence solutions, providing detailed metrics regarding mobile customer experience in a highly secure, private and anonymized environment. Today, it's increasingly important for mobile operators and OEMs to take a proactive approach to gathering insight into problems that may arise with user experience. Mobile Intelligence is an invaluable tool, providing real-time data directly from handsets, creating more efficient and cost effective business models by pointing out problem service locations and product features, spotting user trends, and ultimately identifying areas for improvement.

App Planet - Hall 8.1 Stand 8.1A51	Centrify	www.centrify.com	Centrify provides unified identity services across data center, cloud and mobile — resulting in one single login for users and one unified identity infrastructure for IT. Centrify's software and cloud services let organizations securely leverage their existing identity infrastructure to centrally manage authentication, access control, privilege management, policy enforcement and compliance across on-premise and cloud resources. More than 4,500 customers have deployed Centrify on millions of server, application and mobile device resources to optimize costs, agility and security.
Hall 7 Stand 7180	Fiberlink	www.maas360.com	MaaS360 by Fiberlink simplifies mobile device management (MDM), mobile application management (MAM), and secure document sharing in the BYOD era. Trusted by small businesses, government agencies, universities, and large enterprises worldwide, MaaS360 enables mobile policies that boost productivity, protect employee privacy, and secure sensitive data across smartphones, tablets, and laptops. MaaS360's on-demand mobility management can be deployed in minutes and seamlessly integrates with existing infrastructure. Backed by 20 years of experience and the most responsive customer service in the industry, MaaS360 helps organizations transform business operations and reduce the costs of supporting the expanding mobile workforce.
Hall 5 Stand 5F34	GT Advanced Technologies	www.gtat.com	GT Advanced Technologies Inc. is a diversified technology company serving the global solar, LED and electronics industries. Our innovative crystal growth equipment and solutions accelerate the adoption of new advanced materials that improve performance and lower the cost of manufacturing. See our sapphire solutions for cover and touch screen applications.
Hall 5 Stand 5F30	InnoPath Software	www.innopath.com	InnoPath is the global leader in Over-the-Air customer care for service providers, shortening support calls and driving first call resolution. ActiveCare is a natural extension to CRM solutions, evolving them from just logging issues to solving them. Experience in production Tier-1 networks helps ensure successful deployments in large, complex environments.
Hall 6 Stand 6MR76	Jasper Wireless	www.jasperwireless.com	Jasper Wireless enables mobile network operators around the world with platform, applications, and design services to serve the emerging machine-to-machine (M2M) and embedded devices markets. Using the company's unique end-to-end solution, network operators and enterprises can scale their deployment of connected devices quickly and profitably. Jasper Wireless operator partners include ATandT, América Móvil, Telefónica, KPN, VimpelCom, SingTel, Telstra, Rogers, CSL and Optimus. Founded in 2005, Jasper Wireless is a privately held company based in Mountain View, Calif., with regional offices in the United Kingdom.
Hall 6 Stand 6C71	Keynote DeviceAnywhere	www.keynotedevicewhere.com	Keynote's Keynote's DeviceAnywhere platform provides the industry's only true cloud-based product for testing and monitoring the functionality, usability, performance and availability of mobile applications and websites. Keynotes' suite of mobile testing solutions assures the quality of enterprise mobile applications and services, helping to extend businesses and brands to the mobile channel.

<p>Hall 6 Stand 6E91 Contact through U.S. Export Interest Directory Marketplace</p>	<p>LogMeIn</p>	<p>www.logmein.com</p>	<p>LogMeIn (Nasdaq:LOGM) provides essential cloud and mobile services to individuals, businesses, and IT organizations for remote access, collaboration, customer care, and remote IT management. These services are used by millions of people to quickly, simply and securely connect over 150 million internet-enabled devices across the globe — computers, smartphones, iPad™ and Android™ tablets, and digital displays. LogMeIn is based in Woburn, Massachusetts, USA, with offices in Australia, Hungary, India, Ireland, Japan, and the UK.</p>
<p>App Planet - Hall 8.1 Stand 8.1I21</p>	<p>ManageEngine (Zoho Corp.)</p>	<p>www.manageengine.com</p>	<p>ManageEngine® is an innovative producer of Enterprise IT Management Software, offering high-end functionality of large network management frameworks at cost-effective prices to enterprises world-wide. With more than 50,000 Customers Worldwide, including 3 out of every 5 Fortune 500 companies, we are the fastest growing alternative to traditional network management frameworks. Zoho Corporation started of by building SNMP APIs and Network Management Platforms for Network and Element Management Systems for the Telecom domain way back in 1996. WebNMS Framework was rated #1 EMS/NMS Platform for Telecoms and is a carrier grade platform with over 1000 Man Years of development. During the dot com burst and telecom slowdown, early 2000s, Zoho Corporation diversified in to the Enterprise IT Management space. ManageEngine as a brand targeting Enterprise IT Management was born. The carrier grade platform used for large telecoms was used as the basis for the new products in the IT Management Space. Today ManageEngine has over 20 products that cover many key areas for effective IT Management.</p>
<p>Hall 2 Stand 2MR226</p>	<p>Novatel Wireless</p>	<p>www.novatelwireless.com</p>	<p>Novatel Wireless, Inc. is a leader in the design and development of intelligent wireless solutions based on 2G, 3G and 4G technologies providing wireless connectivity. The Company delivers specialized wireless solutions to carriers, distributors, retailers, OEMs and vertical markets worldwide.</p>
<p>Hall 7 Stand 7B57</p>	<p>OPLink Communications</p>	<p>www.oplink.com</p>	<p>Oplink Security, part of Oplink Communications, Inc. (Nasdaq: OPLK), offers the world’s most user-friendly and advanced plug-n-play alarm and surveillance integrated solution for home security, fire and care protections. Our revolutionary device-collaboration technology enables Smartphones/tablets users to simultaneously access multi-site viewing of advanced wireless sensors, cameras and storage devices anytime and anywhere. Our system can be installed in minutes with no configuration required. Our system is also equipped with optional power backup and 3G/4G redundancy that meet alarm industry standards. As wireless industry focuses on growth beyond Smartphones, Oplink offers a total Connected Devices solution to potential carrier partners.</p>

Hall 2 Stand 2MR51	Telcordia	www.telcordia.com	Telcordia's Interconnection business develops market leading solutions that enable operators to interconnect networks, devices, and applications critical to evolving the global telecommunications marketplace. Telcordia's Interconnection business delivers powerful, trusted, neutral solutions for the telecommunications industry including number portability clearinghouses, mobile messaging services, anti-theft mobile device registries, spectrum management databases and other interconnection information services. Telcordia's Interconnection products are used by more than 1,000 operators, regulators and content providers and are currently used to provide services to over 1 billion end users.
App Planet - Hall 8.1 Stand 8.1MR5	Urban Airship	www.urbanairship.com	Urban Airship makes mobile marketing far more engaging, effective, and efficient. Top brands depend on Urban Airship to ensure their mobile app initiatives are scalable and profitable. Dictionary.com, Groupon, Warner Bros., Weather Channel and Yahoo! are just a few of the thousands of companies that utilize Urban Airship's innovative platform to reach and engage target audiences and increase app revenue streams through push notification, rich messaging, in-app purchase, subscriptions and data tracking. The company's investors include Founder's Co-op, Foundry Group, Intel Capital, salesforce.com, True Ventures and Verizon. Urban Airship is headquartered in Portland, Oregon with offices in San Francisco.
Hall 2 Stand 2D50	Vasona Networks	www.vasonanetworks.com	Vasona Networks enhances the order and efficiency of mobile services. Operators can seamlessly integrate on existing networks to better fulfill demand and control when to spend on upgrades. More applications and better experiences result in enhanced subscriber loyalty and can drive new revenues.

Devices			
Hall	Company	Website	Overview
Hall 7 Stand 7B66	Automation Engineering Inc.	www.aeiboston.com	AEi's camera packaging design services, prototypes, and automated manufacturing solutions deliver the highest image quality camera modules for mobile device, medical, and automotive markets.
Hall 7 Stand 7I90	Azimuth Systems	www.azimuthsystems.com	Azimuth Systems is the leading provider of comprehensive real world wireless test solutions for 2G/3G/4G, LTE-Advanced and beyond, with field-proven, solutions-focused automated wireless test equipment that makes testing more affordable and reliable by increasing the scope of testing while enabling real world performance testing across the entire product design cycle, resulting in high quality devices that perform as expected in the field.
Hall 3 Stand 3C14	Broadcom Corporation	www.broadcom.com	Broadcom Corporation (NASDAQ: BRCM), a FORTUNE 500® company, is a global leader and innovator in semiconductor solutions for wired and wireless communications. Broadcom® products seamlessly deliver voice, video, data and multimedia connectivity in the home, office and mobile environments. Broadcom's global customer roster includes the elite of both consumer and enterprise technology brands – from computing powerhouses to major providers of networking equipment, and from home entertainment to mobile device and wireless providers. With the industry's broadest portfolio of state-of-the-art system-on-a-chip and embedded software solutions, Broadcom is changing the world by Connecting everything®.
Hall 1 Stand 1EMR.F3	Compound Photonics	www.compoundphotonics.com	From very tiny, very bright, full HD laser projection light engines for smartphones and other mobile devices to ultra-high definition, 3D capable, cinema quality projectors, they have capabilities that are shaping the world of modern projection. They're in the former Motorola semiconductor fab known as COM-1.
Hall 7 Stand 7MR100, Hall 7 Stand 7I120, Hall 7 Stand 7MR138	Fairchild Semiconductor	www.fairchildsemi.com	Fairchild Semiconductor, a leader in mobile technology, offers a substantial portfolio of analog, power and mixed-signal components, customized products and technical support. Our innovative solutions include core power, lighting, battery management, RF power, USB, video and haptic drivers. By focusing on functions that improve user interaction, add convenience and extend usage times, Fairchild enables handset manufacturers to provide an exceptional user experience without compromise. Furthermore, Fairchild is committed to providing OEMs with world-class customer support, including a reliable supply chain, and regional centers staffed with expert application and design engineers.

Hall 2 Stand 2MR43	Freescale Semiconductor	www.freescale.com	Freescale Semiconductor is a global leader in embedded processing solutions for the automotive, consumer, industrial and networking markets. Our technology helps to improve battery life in portable devices and innovate home entertainment to enable a more connected and efficient world for consumers. Freescale is a technology leader in several consumer markets, including eReaders, home media phones, smartphones, gaming and sensors. Our technologies also enable a new era of networking—helping to build more reliable, protected and content-rich networks. Our PowerQUICC processors, StarCore DSPs, RF solutions and QorIQ platforms offer a smarter approach to multicore for manufacturers of wireless and wireline infrastructure, enterprise, SOHO networking and pervasive computing products.
Hall 5 Stand 5D32	GT Advanced Technologies	www.gtat.com	GT Advanced Technologies Inc. is a diversified technology company serving the global solar, LED and electronics industries. Our innovative crystal growth equipment and solutions accelerate the adoption of new advanced materials that improve performance and lower the cost of manufacturing. See our sapphire solutions for cover and touch screen applications.
Hall 7 Stand 7B55	Infinite Pheripherals (at Blackberry booth)	www.ipcprint.com	Infinite Peripherals's Linea-pro has introduced groundbreaking functionality to the iPhone®, iPod touch® and iPad®. Seizing upon opportunities to sell into other markets, Infinite Peripherals now supplies printers, mechanisms, and other receipt printer- related components to customers in the following markets: Gaming, Medical, Hospitality, ATM, Retail, Amusement, Security, Time and Attendance, and Industrial Measurement.
App Planet - Hall 8.1 Stand 8.1M08	LifeProof	www.lifeproof.com	LifeProof is a young vibrant company based in San Diego that designs, manufactures and markets LifeProof cases for all-environmental protection, functionality and interactivity to SmartPhones and Tablet PCs.
Hall 6 Stand 6C95	Liquipel	www.liquipel.com	Liquipel LLC presents our next generation of WATERSAFE nanotechnology liquid protection for phones, tablets and other electronics. Liquipel's 2.0 patent pending chemical formulation and manufacturing process creates a nano coating that protects the external and internal components of a device. The nano coating is virtually untraceable and does not affect the devices look, feel or performance. Since 2012, Liquipel has won an Edison Award, a Fierce wireless Fierce 15 Award, and was named by Popular Science as a Grand Award Winner. Our portfolio includes converged mobile devices such as smartphones, tablets and wireless accessories.
Hall 2 Stand 2MR226	Novatel Wireless	www.novatelwireless.com	Novatel Wireless, Inc. is a leader in the design and development of intelligent wireless solutions based on 2G, 3G and 4G technologies providing wireless connectivity. The Company delivers specialized wireless solutions to carriers, distributors, retailers, OEMs and vertical markets worldwide.

Hall 2 Stand 2MR100	Peregrine Semiconductor	www.psemi.com	Peregrine Semiconductor is a supplier of the industry's most advanced RF and mixed- signal communications ICs which are ideally suited for the wireless infrastructure and mobile wireless; broadband CATV/DTV; communications infrastructure; and high- reliability markets. Manufactured on the Company's proprietary UltraCMOS™ mixed- signal process technology, Peregrine products are uniquely poised to meet the needs of a global RF design community in high-growth applications such as WCDMA, EDGE and GSM digital cellular and mobile TV; broadband communications such as DTV/PCTV/DVR and telecom infrastructure; and in high-reliability applications such as industrial, automotive, military and satellite systems.
Hall 7 Stand 7E26	Preventice	www.preventice.com	Preventice develops mobile health technologies that create compelling and engaging applications for the healthcare industry.
Hall 7 Stand 7I38	Quintech Electronics & Communications, Inc.	www.quintechelectronics.com	Quintech has been "The Source for Reliable RF (Radio Frequency) Signal Management Solutions" serving the cable, satellite and broadcast industries. Quintech products are vital and necessary for RF signal management, optimizing the automation of today's advanced telecommunication network infrastructures. Quintech has historically emphasized the design and development of customer driven RF signal management solutions in order to facilitate the convergence of modern telephony, broadcast, satellite and cable/HFC networks. Quintech products are used in most major telecommunications networks worldwide.
App Planet - Hall 8.1 Stand 8.1J40	Sonim Technologies	www.sonimtech.com	Sonim Technologies is the provider of the world's most rugged, water-submersible mobile phones designed specifically for workers in challenging outdoor and industrial environments. Sonim's industry-leading three-year comprehensive warranty has redefined customer expectations of rugged technology. Sonim provides a suite of high-performance workforce management solutions that keep workers safe and enhance their productivity, including push-to-talk, lone worker safety services and NFC proof-of-activity services.
Hall 5 Stand 5H70	Telco Systems	www.telco.com	Telco Systems, a wholly-owned subsidiary of BATM Advanced Communications, leverages 20 years of Carrier Ethernet and MPLS technology experience to create a robust mobile backhaul solution that enables a cost-effective migration to 4G and LTE networks. These solutions fit transparently into the provider's network offering a cost effective means to deliver IP services while lowering "cost per bit" and delivering precise timing, bandwidth scalability and advanced traffic management required for migration to high bandwidth WiMAX, HSPA+ and LTE services. A powerful service management system eases network planning and activation to reduce OPEX and offer cost effective TCO.
Hall 2 Stand 2C65	TriQuint	www.triquint.com	TriQuint Semiconductor designs, develops and manufactures advanced high- performance RF solutions with Gallium Arsenide (GaAs), Gallium Nitride (GaN), Surface Acoustic Wave (SAW) and Bulk Acoustic Wave (BAW) technologies for customers worldwide. We are a leader in market diversity serving customers in mobile devices, 3G and 4G cellular base station, WLAN, WiMAX, GPS, defense and aerospace markets.

Hall 5 Stand 5E90	Wireless Power Consortium	www.wirelesspowerconsortium.com	The Wireless Power Consortium is an open-membership organization. They promote the adoption of a global standard for wireless charging.

Hall	Company	Website	Overview
App Planet - Hall 8.1 Stand 8.1MR50	A10 Networks	www.a10networks.com	A10 Networks is one of the leader in Application Networking, helping organizations of all sizes to accelerate, optimize and secure their applications. A10 was named the fastest growing private Computer Hardware company in the Inc 500 and the second fastest growing private company in Silicon Valley by the San Jose Business Journal. Headquartered in San Jose, CA, A10 has offices in over15 countries, over 500 employees and is profitable with a track record of consistent quarterly revenue growth.
Hall 6 Stand 6G20	Acme Packet	www.acmepacket.com	Net-Net product family supports multiple solutions for fixed, mobile and cable service providers—including VoLTE, IP interconnect, LTE roaming, RCS, femtocells and fixed-mobile convergence. Acme Packet products satisfy critical security, service assurance and regulatory requirements and deliver many IMS functional elements for next generation networks.
Hall 6 Stand 6MR90	AuthenTec	www.authentec.com	AuthenTec's vision is to provide complete security and identity management solutions for consumer, enterprise and government applications. AuthenTec is the world's #1 provider of fingerprint sensors, identity management software, and embedded security solutions. Already shipped on hundreds of millions of devices, the company's smart sensor products, software and embedded security solutions are used virtually everywhere, from the PC on your desk to the mobile device in your hand to the server in the cloud.
Hall 7 Stand 7G02	ForeScout Technologies	www.forescout.com	ForeScout delivers automated solutions for Network Access Control (NAC), mobile security, threat prevention and endpoint compliance. We offer a range of BYOD solutions including an integrated approach that combines both network and endpoint security (MDM). Over 1,400 of the world's most secure enterprises and military installations rely on ForeScout to protect their networks and sensitive data.
Hall 5 Stand 5C55	Sanjole Inc.	www.sanjole.com	Sanjole is a leading global provider of over the air test solutions that focus on LTE and WiMAX wireless technologies. Our clients encompass base station and mobile developers to operators deploying these devices in their 4G networks.
Hall 5 Stand 5MR86	Stoke, Inc.	www.stoke.com	Stoke is the mobile industry's only transformation platform, delivering future- focused thinking and solutions for 3G and 4G mobile broadband infrastructures. Stoke enables mobile operators, through the application of Business-Crossover™ thinking, to overcome limitations inherent in legacy approaches and architectures, helping them tackle the new realities of 3G mobile data service delivery today and successfully navigate their transition to 4G services platforms tomorrow.

Environment-Green Services&Solutions

Hall	Company	Website	Overview
Hall 6 Stand 6C92 Contact through U.S. Export Interest Directory Marketplace	Asentria Corp.	www.asentria.com	Asentria Corporation solutions give communication network operators monitoring, access, and control of the remote or unmanned locations on their network, to enable the Network operation Center (NOC) to reduce the cost of operating the network and risk of a loss of service. Solutions: Power – Diesel, Generators, AC Main, Batteries Security – Door/Motion, Tower Lights, Card Reader Access, Theft Prevention Environment – Temp, Humidity, Smoke, Water, Airflow, HVAC Secure Remote IP Access – Wireless to Serial/Ethernet, Ethernet to Serial Power Control – DC Power Cycling, DC Load Shedding Antenna Control – AISG I/O Management – Contact closures, Analog, Relays
App Planet - Hall 8.1 Stand 8.1B52	State of Oregon	http://www.oregon.gov/Pages/index.aspx	Come to the State of Oregon -- the center of the U.S. West Coast -- now known as Techlandia -- where creativity and passion meet technology. Techlandia is a place and a state of mind. One that grew from the roots of our world-famous Silicon Forest. Hosting Tektronix, Intel's largest presence, and the father of Linux. Our developers commit over 100K of open source code each year. Now home to more than 10,000 mobile software developers. Companies like Vestas, Ibedrola, and Adidas have their North American home in Oregon. Find out why.
Hall 7 Stand 7A43	Urban Green Energy	www.urbangreenenergy.com	With installations in approximately 60 countries, including several government agencies and Fortune 100 companies, UGE is changing the face of distributed renewable energy generation. UGE's goal is to put users in control of their energy source, and is doing so by designing and manufacturing more versatile wind turbines and hybrid wind/solar systems for use in applications ranging from residential to commercial, from suburban US homeowners to off-grid telecoms towers in rural Africa.

Femtocells			
Hall	Company	Website	Overview
Hall 6 Stand 6G20	Acme Packet	www.acmepacket.com	Net-Net product family supports multiple solutions for fixed, mobile and cable service providers—including VoLTE, IP interconnect, LTE roaming, RCS, femtocells and fixed-mobile convergence. Acme Packet products satisfy critical security, service assurance and regulatory requirements and deliver many IMS functional elements for next generation networks.
Hall 2 Stand 2MR134	Airvana	www.airvana.com	Airvana Corp. dramatically improves voice coverage, data performance and capacity of 3G wireless networks through small base stations called femtocells. The company's product portfolio includes: HubBub Femtocells. Airvana's HubBub CDMA provides simultaneous support for EV- DO Rev. A mobile broadband data and CDMA2000 1x voice, for up to six simultaneous users. The Femtocells Service Manager is a TR-069 standards-based, scalable management and auto-configuration platform for HubBub™ and third-party femtocell deployments. Airvana Corp. supplies femtocells to KDDI in Japan and to Sprint in the US.
Stand: Hall 2 Stand 2B104	Aricent Group	www.aricent.com	The Aricent Group is a global innovation and technology services company that helps clients imagine, commercialize, and evolve products and services for the connected world. Bringing together the communications technology expertise of Aricent with the creative vision and user experience prowess of frog, the Aricent Group provides a unique portfolio of innovation capabilities that seamlessly combines consumer insights, strategy, design, software engineering, and systems integration. The client base includes communications service providers, equipment manufacturers, independent software vendors, device makers, and many other Fortune 500 brands. The company's investors are Kohlberg Kravis Roberts & Co., Sequoia Capital, The Family Office, Delta Partners, and The Canadian Pension.
Hall 7 Stand 7190	Azimuth Systems	www.azimuthsystems.com	Azimuth Systems is the leading provider of comprehensive real world wireless test solutions for 2G/3G/4G, LTE-Advanced and beyond, with field-proven, solutions- focused automated wireless test equipment that makes testing more affordable and reliable by increasing the scope of testing while enabling real world performance testing across the entire product design cycle, resulting in high quality devices that perform as expected in the field.
Hall 3 Stand 3C54	Cisco Systems	www.cisco.com	Cisco, the worldwide leader in networking for the Internet, provides hardware, software, and service offerings used to create Internet solutions that allow individuals, companies, and countries to increase productivity, improve customer satisfaction, and strengthen competitive advantage.

Hall 2 Stand 2MR43	Freescale Semiconductor	www.freescale.com	Freescale Semiconductor is a global leader in embedded processing solutions for the automotive, consumer, industrial and networking markets. Our technology helps to improve battery life in portable devices and innovate home entertainment to enable a more connected and efficient world for consumers. Freescale is a technology leader in several consumer markets, including eReaders, home media phones, smartphones, gaming and sensors. Our technologies also enable a new era of networking—helping to build more reliable, protected and content-rich networks. Our PowerQUICC processors, StarCore DSPs, RF solutions and QorIQ platforms offer a smarter approach to multicore for manufacturers of wireless and wireline infrastructure, enterprise, SOHO networking and pervasive computing products.
Hall 7 Stand 7G111	InterDigital, Inc.	www.interdigital.com	InterDigital develops fundamental wireless technologies that are at the core of mobile devices, networks, and services worldwide. Advanced solutions from InterDigital support the development of more efficient wireless networks, a richer multimedia experience, and new mobile broadband capabilities for billions of consumers globally.
Hall 6 Stand 6G100, Stand 6MR2, Stand 6MR36, Stand 6MR10, Stand 6MR34, Stand 6MR32	Maxim Integrated	www.maximintegrated.com	Maxim Integrated designs, manufactures, and sells high-performance semiconductor products. The company was founded 29 years ago with the mission to deliver innovative analog and mixed-signal engineering solutions for the industrial, communications, consumer, and computing markets. A leader in analog innovation and integration, Maxim is unique among semiconductor companies in the range of disparate analog functions that it can combine onto a single chip. The company's highly integrated solutions help customers get to market faster with systems that are smaller and consume less power. Maxim reported revenue of approximately \$2.4 billion for fiscal 2012.
Hall 7 Stand 7E104	Mindspeed Technologies	www.mindspeed.com	Mindspeed Technologies is a leading provider of network infrastructure semiconductor solutions to the communications industry. The company's low-power system-on-chip (SoC) products are helping to drive video, voice and data applications in worldwide fiber-optic networks and enable advanced processing for 3G and long-term evolution (LTE) mobile networks. The company's high-performance analog products are used in a variety of optical, enterprise, industrial and video transport systems. Mindspeed's products are sold to original equipment manufacturers (OEMs) around the globe.
Hall 2 Stand 2MR100	Peregrine Semiconductor	www.psemi.com	Peregrine Semiconductor is a supplier of the industry's most advanced RF and mixed-signal communications ICs which are ideally suited for the wireless infrastructure and mobile wireless; broadband CATV/DTV; communications infrastructure; and high-reliability markets. Manufactured on the Company's proprietary UltraCMOS™ mixed-signal process technology, Peregrine products are uniquely poised to meet the needs of a global RF design community in high-growth applications such as WCDMA, EDGE and GSM digital cellular and mobile TV; broadband communications such as DTV/PCTV/DVR and telecom infrastructure; and in high-reliability applications such as industrial, automotive, military and satellite systems.

Hall 5 Stand 5G34	Radisys	www.radisys.com	Radisys is a leading provider of embedded wireless infrastructure solutions for telecom, aerospace, defense and public safety applications. Radisys' market-leading ATCA, IP Media Server and Com Express platforms coupled with world-renowned Trillium software, services and market expertise enable customers to bring high-value products and services to market faster with lower investment and risk. Radisys solutions are used in a wide variety of 3G and 4G / LTE mobile network applications including: Radio Access Networks (RAN) solutions from femtocells to picocells and macrocells, wireless core network applications, Deep Packet Inspection (DPI) and policy management; conferencing and media services including voice, video and data, as well as customized mobile network applications that support the aerospace, defense and public safety markets.
Hall 5 Stand 5C55	Sanjole Inc	www.sanjole.com	Sanjole is a leading global provider of over the air test solutions that focus on LTE and WiMAX wireless technologies. Our clients encompass base station and mobile developers to operators deploying these devices in their 4G networks.
Hall 6 Stand 6E24	Skyworks Solutions	www.skyworksinc.com	Skyworks Solutions, Inc. is an innovator of high performance analog semiconductors. Leveraging core technologies, Skyworks supports automotive, broadband, cellular infrastructure, energy management, GPS, industrial, medical, military, wireless networking, smartphone and tablet applications. The Company's portfolio includes amplifiers, attenuators, circulators, demodulators, detectors, diodes, directional couplers, front-end modules, hybrids, infrastructure RF subsystems, isolators, lighting and display solutions, mixers, modulators, optocouplers, optoisolators, phase shifters, PLLs/synthesizers/VCOs, power dividers/combiners, power management devices, receivers, switches and technical ceramics. Headquartered in Woburn, Mass., Skyworks is worldwide with engineering, manufacturing, sales and service facilities throughout Asia, Europe and North America.
Hall 5 Stand 5MR102	Symmetricom, Inc.	www.symmetricom.com	Symmetricom is a worldwide leader of precise time and synchronization technologies. Across the globe, telecom carriers, cable providers and data service providers depend on Symmetricom carrier-class solutions for the superior accuracy, consistency and reliability that is essential for quality assurance, network performance, service availability and seamless network interoperability.
Hall 6 Stand 6G33	Taqua, LLC	www.taqua.com	Taqua provides wireless and wireline next generation telecommunication systems and applications. Hundreds of carriers utilize Taqua solutions to provide network solutions ranging from legacy switch replacement, enhanced VoIP and communication applications, fixed/wireless media servers/gateways, high capacity IP Peering and advanced RF wireless backhaul technologies.

Hall 6 Stand 6D97	TE Connectivity	www.te.com	TE Connectivity is a global, \$14 billion company that designs and manufactures approximately 500,000 products. TE's nearly 100,000 employees create solutions for consumer electronics, energy and healthcare, automotive, aerospace and communication networks. As leader in fiber optics, DAS and other small cell network solutions, and data center solutions, TE transforms the way mobile service delivery networks are created, deployed and used for new mobile applications. TE's solutions support a variety of multi-vendor, multi-technology and multi-service deployments.
Hall 2 Stand 2C65	TriQuint	www.triquint.com	TriQuint Semiconductor designs, develops and manufactures advanced high-performance RF solutions with Gallium Arsenide (GaAs), Gallium Nitride (GaN), Surface Acoustic Wave (SAW) and Bulk Acoustic Wave (BAW) technologies for customers worldwide. We are a leader in market diversity serving customers in mobile devices, 3G and 4G cellular base station, WLAN, WiMAX, GPS, defense and aerospace markets.

Hall 5 Stand 5I02	Netgear	www.netgear.com	NETGEAR is a global networking company that delivers innovative products to consumers, businesses and service providers. For consumers, the company makes high performance, dependable and easy to use home networking, storage and digital media products to connect people with the Internet and their content and devices. For businesses, NETGEAR provides networking, storage and security solutions without the cost and complexity of big IT. The company also supplies top service providers with retail proven, whole home solutions for their customers. NETGEAR products are built on a variety of proven technologies with a focus on reliability and ease-of-use.

Hall 2 Stand 2D50	PeerApp	www.peerapp.com	PeerApp enables network operators to meet the exploding consumer demand for over-the-top multimedia and data content. Our award-winning UltraBand multiservice transparent caching platform enhances subscribers' quality of experience, improves network efficiency and optimizes content delivery networks by delivering both managed and unmanaged video, audio, file-sharing, software updates, and peer-to-peer traffic from the network edge. PeerApp is the acknowledged leader in transparent caching, with systems commercially deployed by hundreds of operators worldwide.
Hall 7 Stand 7G14	PT	www.pt.com	PT's SEGway portfolio of Signalling SS7, SIGTRAN and Diameter protocol products provide wireless carriers high density signalling and advanced routing for next generation LTE and IMS networks. The company's IP-centric network elements are designed for high availability and scalability to deliver an unparalleled price-to-performance ratio in edge-to-core network deployments. PT's STPs, Diameter routers, gateways, edges, and network applications are deployed in mobile networks around the globe, enabling wireless network service providers to rapidly and cost-effectively deliver revenue-generating features. PT's solutions enable IP migration, Diameter routing, gateway capabilities, SIP bridging, and core-to-edge distributed intelligence, along with features like Number Portability.
Hall 5 Stand 5MR86	Stoke, Inc.	www.stoke.com	Stoke is the mobile industry's only transformation platform, delivering future-focused thinking and solutions for 3G and 4G mobile broadband infrastructures. Stoke enables mobile operators, through the application of Business-Crossover™ thinking, to overcome limitations inherent in legacy approaches and architectures, helping them tackle the new realities of 3G mobile data service delivery today and successfully navigate their transition to 4G services platforms tomorrow.
Hall 5 Stand 5MR102	Symmetricom, Inc.	www.symmetricom.com	Symmetricom is a worldwide leader of precise time and synchronization technologies. Across the globe, telecom carriers, cable providers and data service providers depend on Symmetricom carrier-class solutions for the superior accuracy, consistency and reliability that is essential for quality assurance, network performance, service availability and seamless network interoperability.
Hall 2 Stand 2B70	Syniverse Technologies	www.syniverse.com	Syniverse Technologies (NYSE:SVR) makes mobile work for more than 800 mobile operators, cable and Internet providers, and enterprises in over 160 countries.
Hall 6 Stand 6C94	Tarana Wireless	www.taranawireless.com	Tarana offers the first true Non-Line of Sight (NLoS) wireless infrastructure solution that is poised to revolutionize small cell backhaul. It delivers uncompromised NLoS operation with ubiquitous coverage in addition to unprecedented capacity and scalability. For the first time, install small cells anywhere you need them, without concern about backhaul capacity and coverage. With self-aligning antennas and automatic configuration, planning and operation for Tarana products are simplified, reducing TCO. Tarana's innovative products have been designed and built from the ground-up to meet mobile carrier challenges for today and tomorrow.

Private Suite. Contact: sales@tecore.com	Tecore	www.tecore.com	Supplier of multi-technology 2G, 3G and 4G mobile network infrastructure. Built with the same standards-based voice and data technologies available to global carriers on an IP-based architecture, we have dramatically enhanced functionality while minimizing space requirements, installation time and cost of ownership. We also offer integrated value-added features to enable our customers to increase ARPU and retention. Our solutions include core as well as radio access network infrastructure, supported by state-of-the-art professional services. Our IP-based core and access products have allowed an unprecedented level of functionality, including: supporting multiple technologies including GSM, CDMA, GPRS / EDGE, UMTS, LTE and VoIP in a single network; integrating multiple network components and value-added features in a single chassis; and delivering innovative new services such as Over-the-Air Prepaid Roaming, an award-winning offering enabling operators to capture roaming revenue directly from network visitors without the need for a roaming agreement.
Hall 5 Stand 5H70	Telco Systems	www.telco.com	Telco Systems, a wholly-owned subsidiary of BATM Advanced Communications, leverages 20 years of Carrier Ethernet and MPLS technology experience to create a robust mobile backhaul solution that enables a cost-effective migration to 4G and LTE networks. These solutions fit transparently into the provider's network offering a cost effective means to deliver IP services while lowering "cost per bit" and delivering precise timing, bandwidth scalability and advanced traffic management required for migration to high bandwidth WiMAX, HSPA+ and LTE services A powerful service management system eases network planning and activation to reduce OPEX and offer cost effective TCO.
Hall 2 Stand 2D50	Vasona Networks	www.vasonanetworks.com	Vasona Networks enhances the order and efficiency of mobile services. Operators can seamlessly integrate on existing networks to better fulfill demand and control when to spend on upgrades. More applications and better experiences result in enhanced subscriber loyalty and can drive new revenues.
Hall 7 Stand 7C66,Hall 7 Stand 7MR132	Wind River	www.windriver.com	Wind River, a wholly owned subsidiary of Intel® Corporation (NASDAQ: INTC), is a world leader in embedded and mobile software. Wind River has been pioneering computing inside embedded devices since 1981 and its technology is found in more than 1 billion products. Wind River is headquartered in Alameda, Calif., with offices in more than 20 countries.

ISP			
Hall	Company	Website	Overview
Hall 5 Stand 5MR90	Cloudmark	www.cloudmark.com	Cloudmark builds messaging security software that protects communications service provider networks and their subscribers against the widest range of messaging threats. Only the Cloudmark Security Platform™ delivers instant security and control across diverse messaging environments, enabling communications service providers to create a safe user experience, protect revenue and safeguard their brand, while streamlining infrastructure and reducing operational costs. Cloudmark's patented solutions combine Advanced Message Fingerprinting technology built on advanced algorithms, real-time traffic analysis across the world from the Global Threat Network, and security research expertise. Cloudmark protects more than 120 tier-one customers worldwide, including AT&T, Verizon, Swisscom, Comcast, Cox and NTT.

In-Building Systems

Hall	Company	Website	Overview
Hall 5 Stand 5G10	Digital Receiver Technology	www.drtd.com	Designs/manufactures communications test/measurement equipment for monitoring network quality in wireless industry.
Hall 5 Stand 5D32	GT Advanced Technologies	www.gtati.com	GT Advanced Technologies Inc. is a diversified technology company serving the global solar, LED and electronics industries. Our innovative crystal growth equipment and solutions accelerate the adoption of new advanced materials that improve performance and lower the cost of manufacturing. See our sapphire solutions for cover and touch screen applications.
Hall 5 Stand 5E70	Ruckus Wireless Inc.	www.ruckuswireless.com	Ruckus Wireless is supplier of advanced wireless systems for the mobile Internetworking market. The company markets and manufactures a wide range of indoor and outdoor "Smart Wi-Fi" products for mobile operators, broadband service providers and corporate enterprises around the world.
Hall 2 Stand 2A130	SpiderCloud Wireless	www.spidercloud.com	SpiderCloud Wireless empowers mobile operators with a scalable multi-access small cell system with 3G, LTE/4G and dual-band Wi-Fi for reliable mobile services indoors for enterprise customers. The Enterprise RAN (E-RAN) delivers unprecedented reliability, mobility, capacity, and coverage to over 10,000 connected devices, with one connection to the core network.
Hall 6 Stand 6D97	TE Connectivity	www.te.com	TE Connectivity is a global, \$14 billion company that designs and manufactures approximately 500,000 products. TE's nearly 100,000 employees create solutions for consumer electronics, energy and healthcare, automotive, aerospace and communication networks. As leader in fiber optics, DAS and other small cell network solutions, and data center solutions, TE transforms the way mobile service delivery networks are created, deployed and used for new mobile applications. TE's solutions support a variety of multi-vendor, multi-technology and multi-service deployments.

Intellectual Property

Hall	Company	Website	Overview
Hall 2 Stand 2MR18	DigitalOptics Corporation	www.doc.com	DigitalOptics Corporation (DOC), a wholly owned subsidiary of Tessera Technologies, Inc. (Nasdaq: TSRA), delivers innovation in imaging and optics with products and capabilities that enable expanded functionality in increasingly smaller devices. DigitalOptics' miniaturized camera module solutions provide cost-effective, high-quality camera features, including extended depth of field (EDoF), zoom, image enhancement, optical image stabilization and MEMS-based autofocus. These technologies can be applied to consumer electronic products. The group also offers customized micro-optic lenses from diffractive and refractive optical elements to integrated micro-optical subassemblies.
Hall 6 Stand 6G94 Contact through U.S. Export Interest Directory Marketplace	Drywired	www.drywired.com	DryWired™ is a Los Angeles based technology firm and the leading licensee of a revolutionary European protective nano-coating technology, which makes virtually any surface resistant to water, oil and corrosion. Our nano-coating is non-toxic, invisible, and undetectable to touch. DryWired™ is currently licensed to distribute the patented technology in over 50 countries. DryWired™'s patented, plasma polymerization system technology is the product of over 15 years of research and development. Our focus is to work with major mobile electronic, manufacturers, distributors and operators to help them expand their portfolio of products and offer consumers water resistant electronic devices.
Hall 6 Stand 6MR6	MIPS Technologies, Inc.	www.mips.com	The MIPS microprocessor architecture powers some of the world's most popular products, with more than 3.6 billion units shipped to-date. Our technology is broadly used in DTVs, set-top boxes, broadband CPE, WiFi access points/routers, networking infrastructure and portable/mobile communications and entertainment products. MIPS provides a high-performance, low power and cost-efficient solution. Our Aptiv™ generation of cores offers a range of options, with top-end multicore performance for applications processing in products such as tablets and smartphones, efficient multi-threading technology for applications such as baseband processing, and entry-level performance for embedded control and applications such as touchscreen controllers, SIM/security and GPS.
Hall 7 Stand 7G111	InterDigital, Inc.	www.interdigital.com	InterDigital develops fundamental wireless technologies that are at the core of mobile devices, networks, and services worldwide. Advanced solutions from InterDigital support the development of more efficient wireless networks, a richer multimedia experience, and new mobile broadband capabilities for billions of consumers globally.
Hall 7 Stand 7C71	Silicon Image	www.siliconimage.com	Silicon Image is a leading provider of advanced, interoperable semiconductor and intellectual property connectivity solutions that enable the reliable distribution and presentation of high-definition content for consumer electronics, mobile, and PC markets.

Hall 6 Stand 6D101	Tensilica	www.tensilica.com	Tensilica, Inc. is the leader in dataplane processor (DPU) IP cores, with over 200 licensees. DPUs combine the best capabilities of DSPs and CPUs while delivering 10 to 100x the performance because they can be optimized using Tensilica's automated design tools to meet specific and demanding signal processing performance targets. Tensilica's DPUs power SOC designs at system OEMs and seven out of the top 10 semiconductor companies for designs in mobile wireless, telecom and network infrastructure, computing and storage, and home and auto entertainment. Tensilica offers standard cores and hardware/software solutions that can be easily customized for added differentiation.
Hall 5 Stand 5E90	Wireless Power Consortium	www.wirelesspowerconsortium.com	The Wireless Power Consortium is an open-membership organization. They promote the adoption of a global standard for wireless charging.

LTE Network Infrastructure

Hall	Company	Website	Overview
Hall 6 Stand 6G20	Acme Packet	www.acmepacket.com	Net-Net product family supports multiple solutions for fixed, mobile and cable service providers—including VoLTE, IP interconnect, LTE roaming, RCS, femtocells and fixed-mobile convergence. Acme Packet products satisfy critical security, service assurance and regulatory requirements and deliver many IMS functional elements for next generation networks.
Hall 1 Stand 1EMR.A3 Contact through U.S. Export Interest Directory Marketplace	AOptix Technologies	www.aoptix.com	AOptix offers reliable, long-range, ultra high bandwidth wireless transport solutions. They can be deployed quickly, cost-effectively and without disruption even in the most challenging locations and environments. Mobile backhaul as well as government and enterprise applications are being transformed through AOptix communications technology.
Stand: Hall 2 Stand 2B104	Aricent Group	www.aricent.com	The Aricent Group is a global innovation and technology services company that helps clients imagine, commercialize, and evolve products and services for the connected world. Bringing together the communications technology expertise of Aricent with the creative vision and user experience prowess of frog, the Aricent Group provides a unique portfolio of innovation capabilities that seamlessly combines consumer insights, strategy, design, software engineering, and systems integration. The client base includes communications service providers, equipment manufacturers, independent software vendors, device makers, and many other Fortune 500 brands. The company's investors are Kohlberg Kravis Roberts & Co., Sequoia Capital, The Family Office, Delta Partners, and The Canadian Pension.
Hall 2 Stand 2MR244	BridgeWave Communications	www.bridgewave.com	BridgeWave Communications is the leading supplier of high capacity 4G backhaul and gigabit wireless connectivity solutions. BridgeWave's carrier-grade, point-to-point wireless FlexPort® links provide a future-proof mobile backhaul solution for carriers and mobile operators looking to support 4G/LTE/WiMAX adoption. The company's 60 GHz and 80 GHz links offer up to ten times the bandwidth of comparably-priced lower-frequency license-free and licensed-band wireless links, while providing superior interference immunity and data security. Founded in 1999, BridgeWave is headquartered in Santa Clara, California.
Hall 1 Stand 1EMR.E2	Broadsoft, Inc.	www.broadsoft.com	BroadSoft provides software that enables mobile, fixed-line and cable service providers to deliver voice and multimedia services over their IP-based networks. The Company's software, BroadWorks®, enables service providers to provide enterprises and consumers with a range of cloud-based, or hosted, IP multimedia communications, such as hosted IP private branch exchanges, video calling, unified communications, collaboration and converged mobile and fixed-line services.
Hall 2 Stand 2A120	Cavium Networks, Inc.	www.caviumnetworks.com	Cavium Networks is a leading provider of highly integrated semiconductor products that enable intelligent processing in networking, communications and digital home.

Hall 3 Stand 3C54	Cisco Systems	www.cisco.com	Cisco, the worldwide leader in networking for the Internet, provides hardware, software, and service offerings used to create Internet solutions that allow individuals, companies, and countries to increase productivity, improve customer satisfaction, and strengthen competitive advantage.
Hall 2 Stand 2A105	Devicescape Software, Inc.	http://devicescape.com/	Devicescape connects devices to more WiFi hotspots than any other offload service. They do this by combining their patented connection management service with the largest virtual network of quality hotspots. With over 9 million quality-controlled hotspots (curated from over 100 million discovered access points) around the world, Devicescape’s virtual network is continuously growing and monitored. Devicescape seamlessly manages over 50 million WiFi offload connections daily with a scalable and cost effective solution that easily integrates with any mobile network infrastructure.
Hall 5 Stand 5G63 Contact through U.S. Export Interest Directory Marketplace	Diametriq, LLC	www.diametriq.com	Diametriq, an innovator in Diameter signaling control technologies, was launched in 2012 to focus on “Smart Signaling” solutions and meeting the ever increasing signaling traffic demands of 4G/LTE networks. Diametriq offers high performance Diameter signaling solutions to meet the needs of LTE wireless operators. The company’s standards compliant Diameter Routing Engine™(DRE) includes a Diameter Routing Agent (DRA), Diameter Edge Agent (DEA), a Subscription Locator Function (SLF) and a Diameter Interworking Function (IWF).
Hall 2 Stand 2MR146	Emerson Network Power	www.emersonnetworkpower.com	At Emerson Network Power, they’ve built their capabilities on delivering reliable power, precision cooling, connectivity and embedded solutions that assure Business- Critical Continuity™ for your technology investments. Their ability to keep your network infrastructure up and running, regardless of whether the content is voice, data or multimedia, comes from a time-tested grid-to- chip portfolio of products, services and systems that can maintain a wide range of computing, telecom, healthcare and industrial applications. These technology offerings and deep expertise, complemented by in-depth industry knowledge support a full spectrum of enterprise-wide solutions for today’s vital business needs.
Hall 7 Stand 7C34	Exalt Communications, Inc.	www.exaltcom.com	Exalt Communications provides next-generation microwave backhaul systems to mobile operators, government agencies, and enterprises worldwide.
Hall 2 Stand 2MR214	Fastback Networks	www.fastbacknetworks.com	Fastback Networks delivers innovative technology for the mobile infrastructure of the future, enabling network operators to provide new services, tap new markets and monetize a new generation of 4G mobile applications. The Fastback Intelligent Wireless Transport solution transforms the small cell backhaul challenge into a new opportunity to deliver the rich capabilities of the fiber service edge to any location where mobile services are in demand -- the Anywhere Service Edge™. This new class of devices fuses advanced data networking with radio technology to achieve a breakthrough leap in performance regardless of line of sight radio conditions (AnyLOS™), lowering cost of operations and opening doors to new mobile services.

Hall 6 Stand 6E90	Gigamon LLC	www.gigamon.com	Gigamon® provides intelligent Traffic Visibility solutions for enterprises, data centers and service providers around the globe. Our technology empowers infrastructure architects, managers and operators with unmatched visibility into the traffic traversing both physical and virtual networks without affecting the performance or stability of the production environment. Through patented technologies, the Gigamon GigaVUE® portfolio of high availability and high density products intelligently delivers the appropriate network traffic to security, monitoring or management systems.
Hall 5 Stand 5G65	iBasis	www.ibasis.com	For more than a decade IP has been at the core of iBasis' business of providing smart international connectivity to carriers, mobile operators and OTT players. iBasis can help you benefit from the advantages of IP technology, smoothly evolve towards a genuine multiservice IPX, and lead the way to revenue assurance from innovative services such as HD Voice, LTE Roaming and VoLTE. A fully-owned KPN company, iBasis offers a comprehensive portfolio of international mobile solutions: reliable international voice and SMS termination, fraud detection, traffic management, Roaming, Signaling, GRX, emerging HD Voice and LTE Signaling services over the iBasis multiservice IPX.
Hall 7 Stand 7G111	InterDigital, Inc.	www.interdigital.com	InterDigital develops fundamental wireless technologies that are at the core of mobile devices, networks, and services worldwide. Advanced solutions from InterDigital support the development of more efficient wireless networks, a richer multimedia experience, and new mobile broadband capabilities for billions of consumers globally.
App Planet - Hall 8.1 Stand 8.1J5	LineRate Systems Inc.	www.lineratesystems.com	Our Application Layer SDN solution provides precision traffic handling to deliver a fully programmable policy enforcement gateway using x86 servers. With our data path programming API, line.js, customers can rapidly implement dynamic policies to monetize new services, make programmatic steering decisions incorporating external services, and intelligently steer HTTP traffic. Aligned with NFVs network virtualization goals, LineRate Proxy is the fastest pure software solution available today and runs on inexpensive COTS servers, eliminating special-purpose hardware. In our booth see use-case demonstrations of value-add services like Targeted Ad Insertion, Parental Controls and Video Request Steering being delivered via our powerful programming API.
Hall 6 Stand 6E60	Mavenir Systems	www.mavenir.com	Mavenir Systems gives mobile operators the power to deliver the next generation of communications experience to their end users. Mavenir's innovative mobile convergence solutions enable mobile operators to offer subscribers new and enhanced voice and messaging services over any device – 2G, 3G, WiMax, LTE, Fixed Broadband - by bridging core network and broadband access generations.

Hall 6 Stand 6G118	mobileCEM	www.mobilecem.com	mobileCEM Labs and GTL Europe bring to our customers the advance CEM solutions that accelerate LTE rollouts and provide Live CEM monitoring and analytics. Multiple global carries and OEMs use the mCEMAA LTEMagic™ smart handheld solutions for accelerating LTE rollouts and smart CEM Probes for live Consumer Experience Analytics (CEA). GTL Europe is a leading Network Services company offering services and solutions to address the Network Life Cycle requirements of Telecom Carriers and Technology providers (OEMs). GTL has operations in more than 40 countries and is staffed with over 5000 consultants.
Hall 2 Stand 2MR108	NetNumber, Inc.	www.netnumber.com	NetNumber is a leading provider of converged, next-generation, ENUM, SIP, SS7/C7 and SIGTRAN addressing and routing technology to the global communications industry. The NetNumber Transactional IP Telephony Addressing and Numbering (TITAN) server is licensed and deployed by many of the world's largest mobile- operators, fixed-line carriers, and cable companies as a centralized addressing and routing infrastructure for both TDM and IP-based voice services, messaging services, number-portability services and least-cost routing services. The highly-scalable TITAN Master/Edge architecture delivers on the next-generation technology promise of lower-cost, faster-performance, and greater configuration flexibility than legacy intelligent networking platforms.
Hall 5 Stand 5MR144	NetScout Systems, Inc.	www.netscout.com	NetScout Systems is the market leader in Unified Service Delivery Management enabling comprehensive end-to-end network and application assurance. On October 2011, NetScout® Systems, Inc. announced it ranked number 396 on Deloitte's Technology Fast 500™, an annual ranking of the 500 fastest growing technology, media, telecommunications, life sciences and clean technology companies in North America.
Hall 7 Stand 7G14	PT	www.pt.com	PT's SEGway portfolio of Signalling SS7, SIGTRAN and Diameter protocol products provide wireless carriers high density signalling and advanced routing for next generation LTE and IMS networks. The company's IP-centric network elements are designed for high availability and scalability to deliver an unparalleled price-to- performance ratio in edge-to-core network deployments. PT's STPs, Diameter routers, gateways, edges, and network applications are deployed in mobile networks around the globe, enabling wireless network service providers to rapidly and cost-effectively deliver revenue-generating features. PT's solutions enable IP migration, Diameter routing, gateway capabilities, SIP bridging, and core-to-edge distributed intelligence, along with features like Number Portability.
Hall 7 Stand 7I38	Quintech Electronics & Communications, Inc.	www.quintechelectronics.com	Quintech has been "The Source for Reliable RF (Radio Frequency) Signal Management Solutions" serving the cable, satellite and broadcast industries. Quintech products are vital and necessary for RF signal management, optimizing the automation of today's advanced telecommunication network infrastructures. Quintech has historically emphasized the design and development of customer driven RF signal management solutions in order to facilitate the convergence of modern telephony, broadcast, satellite and cable/HFC networks. Quintech products are used in most major telecommunications networks worldwide.

Hall 5 Stand 5G34	Radisys	www.radisys.com	Radisys (NASDAQ: RSYS) is a leading provider of embedded wireless infrastructure solutions for telecom, aerospace, defense and public safety applications. Radisys' market-leading ATCA, IP Media Server and Com Express platforms coupled with world-renowned Trillium software, services and market expertise enable customers to bring high-value products and services to market faster with lower investment and risk. Radisys solutions are used in a wide variety of 3G and 4G / LTE mobile network applications including: Radio Access Networks (RAN) solutions from femtocells to picocells and macrocells, wireless core network applications, Deep Packet Inspection (DPI) and policy management; conferencing and media services including voice, video and data, as well as customized mobile network applications that support the aerospace, defense and public safety markets.
Hall 6 Stand 6E24	Skyworks Solutions	www.skyworksinc.com	Skyworks Solutions, Inc. is an innovator of high performance analog semiconductors. Leveraging core technologies, Skyworks supports automotive, broadband, cellular infrastructure, energy management, GPS, industrial, medical, military, wireless networking, smartphone and tablet applications. The Company's portfolio includes amplifiers, attenuators, circulators, demodulators, detectors, diodes, directional couplers, front-end modules, hybrids, infrastructure RF subsystems, isolators, lighting and display solutions, mixers, modulators, optocouplers, optoisolators, phase shifters, PLLs/synthesizers/VCOs, power dividers/combiners, power management devices, receivers, switches and technical ceramics. Headquartered in Woburn, Mass., Skyworks is worldwide with engineering, manufacturing, sales and service facilities throughout Asia, Europe and North America.
Hall 5 Stand 5MR86	Stoke, Inc.	www.stoke.com	Stoke is the mobile industry's only transformation platform, delivering future-focused thinking and solutions for 3G and 4G mobile broadband infrastructures. Stoke enables mobile operators, through the application of Business-Crossover™ thinking, to overcome limitations inherent in legacy approaches and architectures, helping them tackle the new realities of 3G mobile data service delivery today and successfully navigate their transition to 4G services platforms tomorrow.
Hall 5 Stand 5MR102	Symmetricom, Inc.	www.symmetricom.com	Symmetricom is a worldwide leader of precise time and synchronization technologies. Across the globe, telecom carriers, cable providers and data service providers depend on Symmetricom carrier-class solutions for the superior accuracy, consistency and reliability that is essential for quality assurance, network performance, service availability and seamless network interoperability.
Hall 6 Stand 6G33	Taqua, LLC	www.taqua.com	Taqua provides wireless and wireline next generation telecommunication systems and applications. Hundreds of carriers utilize Taqua solutions to provide network solutions ranging from legacy switch replacement, enhanced VoIP and communication applications, fixed/wireless media servers/gateways, high capacity IP Peering and advanced RF wireless backhaul technologies.

Hall 6 Stand 6C94	Tarana Wireless	www.taranawireless.com	Tarana offers the first true Non-Line of Sight (NLoS) wireless infrastructure solution that is poised to revolutionize small cell backhaul. It delivers uncompromised NLoS operation with ubiquitous coverage in addition to unprecedented capacity and scalability. For the first time, install small cells anywhere you need them, without concern about backhaul capacity and coverage. With self-aligning antennas and automatic configuration, planning and operation for Tarana products are simplified, reducing TCO. Tarana's innovative products have been designed and built from the ground-up to meet mobile carrier challenges for today and tomorrow.
Hall 6 Stand 6D97	TE Connectivity	www.te.com	TE Connectivity is a technology leader in the world's fastest growing markets, helping connect power, data and signal in everything from automotive and aerospace to broadband communications, consumer, energy and industrial applications. By helping our customers meet the need for greater energy efficiency, ever-increasing productivity and faster, more reliable data, TE's market-defining technologies and engineering expertise is setting the pace for the future of connectivity.
Private Suite. Contact: sales@tecore.com	Tecore	www.tecore.com	Supplier of multi-technology 2G, 3G and 4G mobile network infrastructure. Built with the same standards-based voice and data technologies available to global carriers on an IP-based architecture, we have dramatically enhanced functionality while minimizing space requirements, installation time and cost of ownership. We also offer integrated value-added features to enable our customers to increase ARPU and retention. Our solutions include core as well as radio access network infrastructure, supported by state-of-the-art professional services. Our IP-based core and access products have allowed an unprecedented level of functionality, including: supporting multiple technologies including GSM, CDMA, GPRS / EDGE, UMTS, LTE and VoIP in a single network; integrating multiple network components and value-added features in a single chassis; and delivering innovative new services such as Over-the-Air Prepaid Roaming, an award-winning offering enabling operators to capture roaming revenue directly from network visitors without the need for a roaming agreement.
Hall 6 Stand 6D101	Tensilica	www.tensilica.com	Tensilica, Inc. is the leader in dataplane processor (DPU) IP cores, with over 200 licensees. DPUs combine the best capabilities of DSPs and CPUs while delivering 10 to 100x the performance because they can be optimized using Tensilica's automated design tools to meet specific and demanding signal processing performance targets. Tensilica's DPUs power SOC designs at system OEMs and seven out of the top 10 semiconductor companies for designs in mobile wireless, telecom and network infrastructure, computing and storage, and home and auto entertainment. Tensilica offers standard cores and hardware/software solutions that can be easily customized for added differentiation.

Hall 5 Stand 5H40	Ulticom	www.ulticom.com	<p>Ulticom, a Platinum Equity Company, is a leader in high performance mission critical products that evolve information delivery. With over 6,000 deployments worldwide, the company's flagship product, Signalware, is the premier platform for the deployment of applications and services within wireless, IP, and wireline networks. For over 35 years, Ulticom has delivered carrier-grade solutions that are robust, reliable, and enable high-performance and high-availability deployments, all backed by the company's unmatched service and support.</p> <p>Communication Service Providers (CSP), Telecom Equipment Manufacturers (TEM) and Systems Integrators (SI) trust Ulticom solutions to optimize information and application delivery with increased efficiency and security.</p>
Hall 2 Stand 2D50	Vasona Networks	www.vasonanetworks.com	<p>Vasona Networks enhances the order and efficiency of mobile services. Operators can seamlessly integrate on existing networks to better fulfill demand and control when to spend on upgrades. More applications and better experiences result in enhanced subscriber loyalty and can drive new revenues.</p>

Location Technologies&Services

Hall	Company	Website	Overview
Hall 7 Stand 71124	AnyDATA Corporation	www.anydata.com	AnyDATA Corporation is a global leader in the design and manufacture of wireless modules and devices, including mobile hotspots, USB modems, smart phones, tablets, wireless GPS devices and mobile-to-mobile tracking solutions. AnyDATA products have been certified by more than 56 carriers in 45 countries. With offices in USA, Korea, China and India, AnyDATA's multi-national presence is fueled by talent and dedication of its entire world-wide team. Our products span multiple broadband wireless technologies, including latest LTE technologies, EV-DO Rev.A/B, HSPA+. AnyDATA is vertically integrated with its own modules, product design, manufacturing, certification, and customer support.
Hall 3 Stand 3C14	Broadcom Corporation	www.broadcom.com	Broadcom Corporation (NASDAQ: BRCM), a FORTUNE 500® company, is a global leader and innovator in semiconductor solutions for wired and wireless communications. Broadcom® products seamlessly deliver voice, video, data and multimedia connectivity in the home, office and mobile environments. Broadcom's global customer roster includes the elite of both consumer and enterprise technology brands – from computing powerhouses to major providers of networking equipment, and from home entertainment to mobile device and wireless providers. With the industry's broadest portfolio of state-of-the-art system-on-a-chip and embedded software solutions, Broadcom is changing the world by Connecting everything®.
App Planet - Hall 8.1 Stand 8.1B49	CalAMP	www.calamp.com	CalAMP develops and markets wireless communications solutions that deliver data, voice and video for critical networked communications and other applications. The Company's two business segments are Wireless DataCom, which serves utility, governmental and enterprise customers, and Satellite, which focuses on the North American Direct Broadcast Satellite market.
Hall 5 Stand 5MR130	CDNetworks	www.cdnetworks.com	CDNetworks is partnering with the world's leading Telcos and Mobile Network Operators ("MNO") to solve the Internet and mobile traffic growth problems through CDN technologies. CDNetworks' mobile CDN technology provides MNOs with considerable CAPEX savings through data traffic reduction over their mobile networks, as well as improving their customers' user experience. Despite just being recently announced, CDNetworks' mobile CDN technology has been field-proven and adopted by some of the largest MNOs. As the only multinational CDN with expertise and infrastructure in China, CDNetworks can provide Telcos and MNOs with instant access to even the most challenging markets while minimizing capital expenditures of its MNO partners. Founded in 2000, CDNetworks has offices in the U.S., Korea, China, Japan, the UK and France.
App Planet - Hall 8.1 Stand 8.1L2	Glympse	www.glympse.com	Glympse is the pioneer of person-to-person location sharing in real-time, for a set amount of time. Recipients of Glympse do not need the app to be able to view the sender's location on a dynamic map, including speed and ETA. With an intuitive design and enhanced features, such as Glympse Groups, the company easily integrates location sharing into everyday activities. Glympse recently partnered with Mercedes-Benz and Ford to provide location sharing for the connected car. Glympse location technology is embedded into the new Mercedes-Benz 2013 A-Class and GL-class series and it's available to Ford drivers via the SYNC AppLink program.

Hall 5 Stand 5C80	InvenSense Inc.	www.invensense.com	InvenSense® Inc. is the pioneer and global market leader in intelligent motion processing solutions that enable a motion-based user interface for consumer electronics.
Hall 7 Stand 7B67	JET PROPULSION LABORATORIES - NASA	www.gdgps.net	The NASA Global Differential GPS System was developed and is operated by the Jet Propulsion Laboratory (JPL), a division of the California Institute of Technology, which manages JPL for NASA. With nearly 60 GPS engineers and scientists, JPL is one of the largest GPS and GNSS laboratories in the world.
Visiting. Contact through U.S. Export Interest Directory Marketplace	Neustar	www.neustar.biz	Neustar is one of the world's largest addressing and policy management companies, operating authoritative databases for virtually all telephone numbers and area codes for the U.S. and Canada, managing LNP in Taiwan and Brazil; providing DNS solutions that direct and manage Internet traffic; and managing the registry for Common Short Codes used by the wireless industry.
Hall 6 Stand 6G31	Newfield Wireless	www.newfieldwireless.com	Newfield Wireless delivers network visualization software and specialized engineering services to wireless service providers so they can improve their subscriber experience. As a trusted strategic partner, the company develops technically advanced and vendor-independent solutions to address the needs of engineering, marketing and customer care teams within wireless operators.
Hall 7 Stand 7B60	QRC Technologies	www.qrctech.com	QRC products are applicable with both commercial and Govt. customers. The products are developed by a team with more than 50 combined years of experience in the cellular field. The team has been involved in every aspect of cellular communication, from designing the protocols, to designing and optimizing the network infrastructure.
Hall Congress Square Stand CS50	Skyhook	http://www.skyhookwireless.com	Skyhook is the worldwide leader in location positioning, context and intelligence. Its location technology delivers the fastest, most accurate location results available for wifi enabled consumer devices, including smartphones, netbooks, laptops, cameras and gaming devices. Its new location intelligence service SpotRank predicts the density of people in predefined urban square-block areas worldwide at any hour, any day of the week. Developers and advertisers can use this groundbreaking behavioral intelligence data to serve location-based content and ads in cool new ways never envisioned before.
Hall 3 Stand 3B15	TeleCommunication Systems	www.telecomsys.com	TeleCommunication Systems, Inc. (NASDAQ: TSYS) a world leader in highly reliable and secure mobile communication technology. TCS provides messaging, E112/E911, and complete end-to-end LBS solutions that include branded and white-label navigation and finder applications, infrastructure, mapping, and content for leading consumer brands, content providers, voice service providers, government agencies, and 60 mobile operators worldwide.
Hall 6 Stand 6E96	Xceed Technologies	www.exceedcorp.com	Xceed Technologies is a global leader in providing web and desktop based drive test data post-processing products as well as network deployment and optimization solutions for CDMA/EVDO, iDEN, GSM/GPRS/UMTS/HSPA, WiMAX and LTE. Xceed software products, WindCatcher®, Vortex®, Benchmarker®, X-Stream®, and Workflow™ are used worldwide by network operators, infrastructure manufacturers, and handset vendors to improve their customer experience.

M2M			
Hall	Company	Website	Overview
Hall 2 Stand 2MR168	ACCO Semiconductors	www.acco-semi.com	ACCO Semiconductor, Inc. is a fabless semiconductor company that is empowering today's mobile communications products with advanced, high performance and cost compelling CMOS wireless solutions. Headquartered in Sunnyvale, California at the heart of 'Silicon Valley', ACCO has developed and patented a groundbreaking and highly innovative CMOS technology. ACCO is applying this technology today, to provide highly integrated and cost compelling, high-efficiency CMOS power amplifier products for 2G/EDGE/3G/4G mobile handsets, achieving performance levels not previously considered possible using CMOS technology.
Hall 7 Stand 7I124	AnyDATA Corporation	www.anydata.com	AnyDATA Corporation is a global leader in the design and manufacture of wireless modules and devices, including mobile hotspots, USB modems, smart phones, tablets, wireless GPS devices and mobile-to-mobile tracking solutions. AnyDATA products have been certified by more than 56 carriers in 45 countries. With offices in USA, Korea, China and India, AnyDATA's multi-national presence is fueled by talent and dedication of its entire world-wide team. Our products span multiple broadband wireless technologies, including latest LTE technologies, EV-DO Rev.A/B, HSPA+. AnyDATA is vertically integrated with its own modules, product design, manufacturing, certification, and customer support.
Hall 6 Stand 6C92 Contact through U.S. Export Interest Directory Marketplace	Asentria Corp.	www.asentria.com	Asentria Corporation solutions give communication network operators monitoring, access, and control of the remote or unmanned locations on their network, to enable the Network Operation Center (NOC) to reduce the cost of operating the network and risk of a loss of service. Solutions: Power – Diesel, Generators, AC Main, Batteries Security – Door/Motion, Tower Lights, Card Reader Access, Theft Prevention Environment – Temp, Humidity, Smoke, Water, Airflow, HVAC Secure Remote IP Access – Wireless to Serial/Ethernet, Ethernet to Serial Power Control – DC Power Cycling, DC Load Shedding Antenna Control – AISG
Hall 3 Stand 3C2 Connected City, Hall 6 Stand 6D100	AT&T	www.att.com	AT&T Inc. (NYSE:T) is a premier communications holding company. Its subsidiaries and affiliates – AT&T operating companies – are the providers of AT&T services around the world. With a powerful array of network resources that includes the largest 4G network in U.S., AT&T is a leading provider of wireless, Wi-Fi, high speed Internet, voice and cloud-based services. A leader in mobile Internet, AT&T also offers the best wireless coverage worldwide of any U.S. carrier, offering the most wireless phones that work in the most countries. The company's suite of IP-based business communications services is one of the most advanced in the world.
App Planet - Hall 8.1 Stand 8.1B49	CalAMP	www.calamp.com	CalAmp develops and markets wireless communications solutions that deliver data, voice and video for critical networked communications and other applications. The Company's two business segments are Wireless DataCom, which serves utility, governmental and enterprise customers, and Satellite, which focuses on the North American Direct Broadcast Satellite market.

Hall 3 Stand 3C54	Cisco Systems	www.cisco.com	Cisco, the worldwide leader in networking for the Internet, provides hardware, software, and service offerings used to create Internet solutions that allow individuals, companies, and countries to increase productivity, improve customer satisfaction, and strengthen competitive advantage.
Hall 3 Stand 3B128	Comverse	www.comverse.com	Comverse is the world's leading provider of software and systems enabling converged billing and active customer management, mobile Internet, and value-added services. Comverse's extensive customer base spans more than 125 countries and covers over 450 communication service providers serving more than two billion subscribers. The company's innovative product portfolio enables communication service providers to unleash the value of the network for their customers by making their networks smarter. Comverse's solutions support flexible deployment models, including in- network, cloud, hosted and managed services. Comverse, ranked number 55 in PwC's Global 100 Software Leaders based on research by Pierre Audoin Consultants, is a subsidiary of Comverse Technology, Inc.
Hall 2 Stand 2MR43	Freescale Semiconductor	www.freescale.com	Freescale Semiconductor is a global leader in embedded processing solutions for the automotive, consumer, industrial and networking markets. Our technology helps to improve battery life in portable devices and innovate home entertainment to enable a more connected and efficient world for consumers. Freescale is a technology leader in several consumer markets, including eReaders, home media phones, smartphones, gaming and sensors. Our technologies also enable a new era of networking—helping to build more reliable, protected and content-rich networks. Our PowerQUICC processors, StarCore DSPs, RF solutions and QorIQ platforms offer a smarter approach to multicore for manufacturers of wireless and wireline infrastructure, enterprise, SOHO networking and pervasive computing products.
Hall 6 Stand 6MR16	GCT Semiconductor	www.gtcsemi.com	We are a leading fabless designer and supplier of advanced 4G mobile semiconductor solutions. Our products are SoC solutions that integrate RF, baseband modem, and digital signal processing (DSP) functions onto a single die for the 4G LTE and WiMAX markets. We were the first to commercialize single-chip solutions for LTE and WiMAX. Our proprietary technology and system-level expertise enable us to provide complete 4G platform solutions, which are differentiated by their small form factors, low power consumption, high performance, high reliability and cost effectiveness.
App Planet - Hall 8.1 Stand 8.1E20,Hall 3 Stand 3C34	Intel Corporation	www.intel.com	Intel Corporation's vision is connect and enrich the lives of every person on earth by offering solutions across the eco-system with essential technologies that serve as the foundation for an increasingly mobile world. From organizing Big Data, to transforming networks, to delivering performance driven devices including - smartphones, tablets, Ultrabook(tm), and other products customers now experiencing mobile with Intel Inside(r). The company's mobile broadband product portfolio also includes broad offerings spanning Wi-Fi, Blue Tooth, GPS, 2G, 3G and 4G solutions, in an effort to support a variety of technology needs, customer requirements and market segments in both developed and emerging markets.

Hall 7 Stand 7G111	InterDigital, Inc.	www.interdigital.com	InterDigital develops fundamental wireless technologies that are at the core of mobile devices, networks, and services worldwide. Advanced solutions from InterDigital support the development of more efficient wireless networks, a richer multimedia experience, and new mobile broadband capabilities for billions of consumers globally.
Hall 6 Stand 6MR76	Jasper Wireless	www.jasperwireless.com	Jasper Wireless enables mobile network operators around the world with platform, applications, and design services to serve the emerging machine-to-machine (M2M) and embedded devices markets. Using the company's unique end-to-end solution, network operators and enterprises can scale their deployment of connected devices quickly and profitably. Jasper Wireless operator partners include ATandT, América Móvil, Telefónica, KPN, VimpelCom, SingTel, Telstra, Rogers, CSL and Optimus. Founded in 2005, Jasper Wireless is a privately held company based in Mountain View, Calif., with regional offices in the United Kingdom.
App Planet - Hall 8.1 Stand 8.1A1	Nexage, Inc.	www.nexage.com	Our market-leading, integrated Nexage Revenue Platform, comprised of an RTB exchange and mediation, is accelerating our customers' businesses and is a key launching point for buyers and sellers seeking to capitalize on mobile advertising.
Hall 2 Stand 2MR226	Novatel Wireless	www.novatelwireless.com	Novatel Wireless, Inc. is a leader in the design and development of intelligent wireless solutions based on 2G, 3G and 4G technologies providing wireless connectivity. The Company delivers specialized wireless solutions to carriers, distributors, retailers, OEMs and vertical markets worldwide.
Hall 2 Stand 2B91	RFMD	www.rfmd.com	RFMD® (NASDAQ GS: RFMD) is a global leader in the design and manufacture of high-performance semiconductor components and technologies. Enabling worldwide mobility, providing enhanced connectivity, and leading the way with energy conserving technologies, RFMD is a preferred supplier to the world's leading smartphone, entry and feature phone, tablet and notebook, and M2M Device.
Hall 1 Stand 1EMR.E5	Sprint	www.sprint.com	Sprint Nextel offers a comprehensive range of wireless and wireline communications services to wholesalers, businesses, government and consumers. Sprint is widely recognized for developing, engineering and deploying innovative technologies including the first wireless 4G service from a national carrier in the U.S. and an award-winning global Tier 1 Internet backbone. Sprint Wholesale offers an innovative, customizable suite of wireless, wireline, M2M and VoIP services to hundreds of partners worldwide, who in turn serve millions of customers. We enable partners to extend the value of core products, helping build brand loyalty and multiply business results.

Managed Network Services

Hall	Company	Website	Overview
Hall 2 Stand 2MR228	Affirmed Networks	www.affirmednetworks.com	Affirmed Networks enables mobile operators to deploy a virtualized mobile network – completely revolutionizing the wireless network infrastructure. Affirmed’s solutions, the Mobile Content Cloud and the AN3000, elevate service orchestration above industry standards –delivering virtualized subscriber management and policy-aware services that are bundled with 3G and 4G gateway functionality for rich application and content delivery. Affirmed’s technology supersedes existing, monolithic, discrete nodes for services with a flexible, highly-scalable solution that meets today’s demands and evolves with projected trends. Backed by venture capital investors Charles River Ventures, Matrix Partners, and Lightspeed Venture Partners, and by strategic investors T-Venture and Vodafone Ventures.
App Planet - Hall 8.1 Stand 8.1MR15, App Planet - Hall 8.1 Stand 8.1F13	Aruba Networks Inc	www.arubanetworks.com	Aruba Networks™ is a leading supplier of next-generation carrier Wi-Fi access solutions for service providers. The company’s carrier Wi-Fi networks are fast and simple to deploy, easy to manage, and dramatically reduce capital and operational costs. With Aruba, service providers can rollout carrier Wi-Fi with incredible speed to offload 3G/4G networks while delivering value-rich managed mobility services to customers.
Hall 6 Stand 6C75	Celcite	www.celcite.com	Celcite Management Solutions delivers optimisation solutions for all wireless technologies including GSM/GPRS/EDGE BSS, UTRAN (WCDMA/HSPA +HSUPA PH2) and E-UTRAN (LTE).
Hall 2 Stand 2MR166	CENTRI Technology	http://centritechnology.com/	CENTRI Technology provides mobile network management solutions to create smarter, more efficient data networks for mobile operators. With its patented technology, CENTRI's BitSmart platform significantly increases the performance and speed of data networks, securely passes information and applies policies to premium services, and provides a holistic view of the data that crosses the network. CENTRI's platform enables operators and enterprises to deliver a consistent end-to-end user experience regardless of the device, across mobile, Wi-Fi and broadband networks.
Hall 3 Stand 3C54	Cisco Systems	www.cisco.com	Cisco, the worldwide leader in networking for the Internet, provides hardware, software, and service offerings used to create Internet solutions that allow individuals, companies, and countries to increase productivity, improve customer satisfaction, and strengthen competitive advantage.
App Planet - Hall 8.1 Stand 8.1C7	Crittercism	www.crittercism.com	At Crittercism they help people make better apps, improve retention, conversion and monetization. They want people to have powerful insight into how consumers interact with mobile applications in real-time. Their objective is to make the integration easy, so that people can save time and energy in monitoring and managing their apps.

Hall 2 Stand 2A105	Devicescape Software Inc,	www.devicescape.com	Devicescape redefines the "always best connected" mobile experience by uniquely combining intelligent network selection—going beyond simple Wi-Fi Offload—with the world's largest curated virtual network of high-quality Wi-Fi hotspots. For mobile operators this carrier-grade service delivers an overnight, cost effective step change in network capacity-reach leading to a doubling of customer lifetime value which results from elevated customer satisfaction, powerful new data management solutions, and Wi-Fi service generation. For end users the Devicescape solution means a curated mobile experience that features simpler access, faster speeds, and more data consumed at less cost.
Hall 2 Stand 2MR88	MobiTV, Inc.	www.mobitv.com	MobiTV, Inc. has invested 10 years developing the most capable end-to-end managed service platform which delivers media to any screen with reliability and scalability.

Messaging			
Hall	Company	Website	Overview
Hall 2 Stand 2MR176	Aylus	www.aylus.com	In the wireless market today, phenomena such as social networking, video sharing and blogging, and multimedia telephony are driving a huge appetite for rich communication services in both the business and consumer environments. Aylus is transforming the way mobile operators and other communication service providers are able to offer these services to their customers. With new media-oriented services that reach beyond simple voice and data, service providers can create new revenue streams and addressable markets, delivering high-quality live video and multimedia communication experiences to consumers and enterprises wherever they are.
Hall 1 Stand 1EMR.E2	Broadsoft, Inc.	www.broadsoft.com	BroadSoft provides software that enables mobile, fixed-line and cable service providers to deliver voice and multimedia services over their IP-based networks. The Company's software, BroadWorks®, enables service providers to provide enterprises and consumers with a range of cloud-based, or hosted, IP multimedia communications, such as hosted IP private branch exchanges, video calling, unified communications, collaboration and converged mobile and fixed-line services.
Hall 5 Stand 5MR90	Cloudmark	www.cloudmark.com	Cloudmark builds messaging security software that protects communications service provider networks and their subscribers against the widest range of messaging threats. Only the Cloudmark Security Platform™ delivers instant security and control across diverse messaging environments, enabling communications service providers to create a safe user experience, protect revenue and safeguard their brand, while streamlining infrastructure and reducing operational costs. Cloudmark's patented solutions combine Advanced Message Fingerprinting technology built on advanced algorithms, real-time traffic analysis across the world from the Global Threat Network, and security research expertise. Cloudmark protects more than 120 tier-one customers worldwide, including AT&T, Verizon, Swisscom, Comcast, Cox and NTT.
Hall 3 Stand 3B128	Comverse	www.comverse.com	Comverse is the world's leading provider of software and systems enabling converged billing and active customer management, mobile Internet, and value-added services. Comverse's extensive customer base spans more than 125 countries and covers over 450 communication service providers serving more than two billion subscribers. The company's innovative product portfolio enables communication service providers to unleash the value of the network for their customers by making their networks smarter. Comverse's solutions support flexible deployment models, including in-network, cloud, hosted and managed services. Comverse, ranked number 55 in PwC's Global 100 Software Leaders based on research by Pierre Audoin Consultants, is a subsidiary of Comverse Technology, Inc.

Hall 2 Stand 2MR118	Critical path	www.criticalpath.net	Critical Path's extensive portfolio of applications and services enable millions of people to communicate, connect, share and organize while providing industry-leading safety and assurance. Consumer solutions for online communication and social networking are delivered to leading service providers under the Memova® brand for white-label applications, and directly to consumers as the award-winning "ShoZu" service. The world's largest enterprises choose messaging, safety and assurance solutions delivered under the Mirapoint brand. With offices around the globe, Critical Path supports companies with their deployments of Memova, ShoZu and Mirapoint solutions to drive revenue, boost loyalty, streamline operations and reduce costs.
Hall 2 Stand 2MR202	Ecrio Inc.	www.ecrio.com	Ecrio is a leading supplier of client software for IP communication services including IP Voice, video, messaging, and content sharing over 3G, 4G, and WiFi networks.
Hall 5 Stand 5G65	iBasis	www.ibasis.com	For more than a decade IP has been at the core of iBasis' business of providing smart international connectivity to carriers, mobile operators and OTT players. iBasis can help you benefit from the advantages of IP technology, smoothly evolve towards a genuine multiservice IPX, and lead the way to revenue assurance from innovative services such as HD Voice, LTE Roaming and VoLTE. A fully-owned KPN company, iBasis offers a comprehensive portfolio of international mobile solutions: reliable international voice and SMS termination, fraud detection, traffic management, Roaming, Signaling, GRX, emerging HD Voice and LTE Signaling services over the iBasis multiservice IPX.
Hall Congress Square Stand CS50	MediaFriends Inc.	www.mediafriendsinc.com	At MediaFriends, Inc. messaging has always been part of our DNA, and we're continually looking for ways to improve the way people communicate with each other. Through our cloud-based platform, we have created two highly rated consumer apps and bridged the gap to provide businesses with the necessary tools to easily and cost-effectively communicate worldwide.
Hall 5 Stand 5MR98	Movius Interactive Corp.	www.moviuscorp.com	Movius® is a global leader in application enablement for service providers. End user culture has changed forever and we now live in a world where mobility, control, personalization and hyperlocal searches are the norm. We enable a unique set of social/local/mobile applications to help wireless, wire-line, and cable/MSOs providers differentiate themselves not only from their competition but also from Over the Top (OTT) players like Google, Apple, etc. These applications allow service providers a path to recapture lost revenue from OTT players and level the playing field between them.
Hall Congress Square Stand CS50	Onpage Onset Technology	www.onsettechnology.com	Onset Technology is the leading provider of Mobile Messaging Management solutions, enabling organizations to leverage their mobile deployment to ensure communication continuity and uninterrupted access to information at all times. Utilizing advanced patent-protected technology, Onset empowers organizations to transform their mobile communication assets into a ubiquitous platform for continuous and advanced messaging services that enhance organizational responsiveness in day-to-day and at times of an emergency. Onset's Mobile Messaging Management solutions are used by over one thousand organizations including many of the leaders in the financial, legal, and healthcare sectors as well as major federal and local government agencies.

Hall 1 Stand 1EMR.F4	RealNetworks	www.realnetworks.com	RealNetworks creates products and services that make it easy for people to access and enjoy digital media on the devices and platforms they choose to use. Whether it's music, movies, games, video, or apps, RealNetworks thrives on giving people the fresh and entertaining experiences they deserve— whenever, wherever they want. RealNetworks does this in two ways: directly to consumers through our applications and services and through partnerships with well-established businesses and mobile operators throughout the world. RealNetworks technology powers audio, video, ringbacktones, and messaging on more than 700 million mobile handsets from some of the world's most popular mobile carriers.
Hall 2 Stand 2B70	Syniverse Technologies	www.syniverse.com	Syniverse Technologies (NYSE:SVR) makes mobile work for more than 800 mobile operators, cable and Internet providers, and enterprises in over 160 countries.
Hall 2 Stand 2MR51	Telcordia	www.telcordia.com	Telcordia's Interconnection business develops market leading solutions that enable operators to interconnect networks, devices, and applications critical to evolving the global telecommunications marketplace. Telcordia's Interconnection business delivers powerful, trusted, neutral solutions for the telecommunications industry including number portability clearinghouses, mobile messaging services, anti-theft mobile device registries, spectrum management databases and other interconnection information services. Telcordia's Interconnection products are used by more than 1,000 operators, regulators and content providers and are currently used to provide services to over 1 billion end users.
App Planet - Hall 8.1 Stand 8.1K7	Telintel	www.telintel.net	Since 1997 Telintel Ltd has been offering worldwide voice termination. In addition, Telintel holds PTT licenses in several countries, offers SMS products and services, and offers white label solutions for smart phones dialers, residential and hosted PBX services. Currently, Telintel passes over 2 billion minutes of international Voice traffic a month, terminates over 50 million SMS per month, offers DIDs in 56 countries, and is connected to operators and carriers around the world.
Hall 5 Stand 5I60	TriPlay, Inc.	www.triplay.com	TriPlay is a mobile life company - the only media delivery platform and services suite for sharing personal digital content across multiple devices. TriPlay's patent protected media delivery platform was built from the ground up as the first truly cross-platform empowering users to send and receive any digital media anywhere in the world, from any online device.
App Planet - Hall 8.1 Stand 8.1L14	Twilio	www.twilio.com	Twilio, the cloud communications company, is reinventing telecom by merging the worlds of cloud computing, web services and telecommunications. Twilio provides a telephony infrastructure web service in the cloud, allowing web developers to integrate phone calls, text messages, and IP voice communications into their web, mobile, and traditional phone applications. The company is privately held and is headquartered in San Francisco, California.

Hall 1 Stand 1EMR.B1	Unisys	www.unisys.com	<p>Unisys is a worldwide information technology company. We provide a portfolio of IT services, software, and technology that solves critical problems for clients.</p> <p>We specialize in helping clients secure their operations, increase the efficiency and utilization of their data centers, enhance support to their end users and constituents, and modernize their enterprise applications. To provide these services and solutions, we bring together offerings and capabilities in outsourcing services, systems integration and consulting services, infrastructure services, maintenance services, and high-end server technology.</p> <p>With approximately 22,500 employees, Unisys serves commercial organizations and government agencies throughout the world.</p>

We offer unique and high performing ad formats including Push Notification Ads, Icon Ads, and Signup Ads. Developers : Android™ developers can earn over 10x-30x more ad revenue with Airpush, and our ads don't compete with traditional ads. Developers control who gets the ads, and can monetize 100% of users rather than just active users. Advertisers : Advertisers experience significantly higher CTR's and conversion rates, and virtually no accidental clicks. Airpush traffic performs phenomenally for both branding and performance campaigns

Network Management			
Hall	Company	Website	Overview
App Planet - Hall 8.1 Stand 8.1MR50	A10 Networks	www.a10networks.com	A10 Networks is the technology leader in Application Networking. A10's flagship high-performance AX Series platforms offer solutions for three key markets: Application Delivery/Server Load Balancing, IPv6 Migration and Cloud Computing & Virtualization. With the AX Series, customers of all sizes benefit from application availability, scalability & performance; increased infrastructure efficiency and a faster end user experience.
Hall 6 Stand 6C75	Celcite	www.celcite.com	Celcite Management Solutions is the world's leading provider of RAN management solutions for the wireless industry. The company combines expert managed services with pioneering COPS platform to help operators simplify network management and maximize network potential. Founded in 2003 with a vision to create a paradigm shift from "person" to "automation" centric network maintenance and optimization. Celcite broke ground with its RAN management platform, COPS. This enterprise grade unified multi-vendor, multi-technology automation platform monitors, manages, and mitigates network problems automatically. COPS currently manages and optimizes nearly two million sectors globally.
Hall 5 Stand 5D45	CelPlan Technologies	www.celplan.com	CelPlan Technologies, Inc. is a leading provider of RF Planning & Optimization Tools, Engineering Services, Consulting, and Certified Training to the wireless industry. Founded in 1992, CelPlan has steadily developed the CelPlanner™ Suite of tools into the finest set of PC-based application modules available for designing high quality fixed and mobile 4G networks. The suite of tools supports planning and optimization of 2G, 3G and 4G technologies with a traffic based approach. CelPlan has been involved in over 125 4G projects in the last year from providing RFP's, to technology transfer programs, to full project management and deployment.
Hall 2 Stand2MR166	CENTRI Technology	www.centritechnology.com	CENTRI Technology provides mobile network management solutions to create smarter, faster networks for mobile operators. CENTRI's patented BitSmart platform significantly increases the performance and security of data delivery across any network to drive an improved user experience, save companies money and increase revenue opportunities through the monetization of new premium data services. The BitSmart platform uses intelligence to apply customer-defined policies to the network that will prioritize and protect user data. In addition, BitSmart enables in-depth analysis of the end-to-end user behavior across all networks that can be utilized and made actionable for an improved mobile experience.
Hall 2 Stand 2A105	Devicescape Software Inc,	www.devicescape.com	Devicescape redefines the "always best connected" mobile experience by uniquely combining intelligent network selection—going beyond simple Wi-Fi Offload—with the world's largest curated virtual network of high-quality Wi-Fi hotspots. For mobile operators this carrier-grade service delivers an overnight, cost effective step change in network capacity-reach leading to a doubling of customer lifetime value which results from elevated customer satisfaction, powerful new data management solutions, and Wi-Fi service generation. For end users the Devicescape solution means a curated mobile experience that features simpler access, faster speeds, and more data consumed at less cost.

Hall 2 Stand 2MR146	Emerson Network Power	www.emersonnetworkpower.com	Emerson Network Power is the number one provider of computing platforms for telecom infrastructure equipment, with the largest installed base of ATCA systems and blades. Our embedded computing solutions enable a wide range of applications including network optimization, policy control, bandwidth management, load balancing, deep packet inspection, LTE, media gateways, and application servers. An outstanding track record in enabling network equipment providers to develop better products quickly, cost effectively and with less risk makes Emerson Network Power your first choice. Our business stability, technology innovation and world-class manufacturing can significantly reduce time-to-market and help you gain a clear competitive edge.
Hall 6 Stand 6MR48 Contact through U.S. Export Interest Directory Marketplace	F5 Networks	www.f5.com	F5 Networks (NASDAQ: FFIV) makes the connected world run better. F5 helps organizations meet the demands and embrace the opportunities that come with the relentless growth of voice, data, and video traffic, mobile workers, and applications—in the data center, the network, and the cloud. The world’s largest businesses, service providers, government entities, and consumer brands rely on F5’s Intelligent Services Platform to deliver and protect their applications and services while ensuring people stay connected.
Hall 2 Stand 2B46	NetCracker Technology	www.netcracker.com	NetCracker Technology, a subsidiary of NEC Corporation, is the leading provider of BSS/OSS solutions to service providers around the world. NetCracker’s comprehensive, end-to-end BSS/OSS offering includes billing, customer care, online rating & charging, resource and network management, IT platforms, and service fulfillment & assurance, as well as an extensive professional services portfolio that includes managed services and end-to-end outsourcing. Our innovative, end-to-end BSS/OSS solutions enable service providers to operationalize next-generation connectivity, maximize the convergence of network and IT, monetize content, and deliver a compelling customer experience.
Hall 5 Stand 5MR144	NetScout Systems, Inc.	www.netscout.com	NetScout is a global leader in Unified Service Delivery Management providing unprecedented insight into the performance of networks, applications and services for 3G and 4G networks. NetScout enables operators to increase operational efficiency and subscriber value by assuring the user experience, enabling better business decisions and achieving enhanced profitability of data, voice and video-centric services. NetScout’s nGenius Service Assurance Solution has been deployed by more than 148 service providers in 46 countries to provide crucial unified visibility into subscribers, services and networks with more timely and consistent information to predict and prevent performance problems
Hall 6 Stand 6G31	Newfield Wireless	www.newfieldwireless.com	Newfield Wireless delivers network visualization software and specialized engineering services to wireless service providers so they can improve their subscriber experience. As a trusted strategic partner, the company develops technically advanced and vendor-independent solutions to address the needs of engineering, marketing and customer care teams within wireless operators.
Hall 1 Stand 1EMR.E8	Openwave Mobility	www.owmobility.com	Openwave Mobility empowers mobile operators to manage and monetize the growth in mobile video and web traffic. By analyzing the data network and individual subscriber habits, it reduces congestion exactly where it appears while creating new revenues through personalized data plans.
Hall 5 Stand 5E70	Ruckus Wireless Inc.	www.ruckuswireless.com	Ruckus Wireless is supplier of advanced wireless systems for the mobile Internetworking market. The company markets and manufactures a wide range of indoor and outdoor “Smart Wi-Fi” products for mobile operators, broadband service providers and corporate enterprises around the world.

Private Suite. Contact: sales@tecore.com	Tecore	www.tecore.com	<p>Supplier of multi-technology 2G, 3G and 4G mobile network infrastructure. Built with the same standards-based voice and data technologies available to global carriers on an IP-based architecture, we have dramatically enhanced functionality while minimizing space requirements, installation time and cost of ownership. We also offer integrated value-added features to enable our customers to increase ARPU and retention. Our solutions include core as well as radio access network infrastructure, supported by state-of-the-art professional services. Our IP-based core and access products have allowed an unprecedented level of functionality, including: supporting multiple technologies including GSM, CDMA, GPRS / EDGE, UMTS, LTE and VoIP in a single network; integrating multiple network components and value-added features in a single chassis; and delivering innovative new services such as Over-the-Air Prepaid Roaming, an award-winning offering enabling operators to capture roaming revenue directly from network visitors without the need for a roaming agreement.</p>
Hall 6 Stand 6E96	Xceed Technologies	www.exceedcorp.com	<p>Xceed Technologies is a global leader in providing web and desktop based drive test data post-processing products as well as network deployment and optimization solutions for CDMA/EVDO, iDEN, GSM/GPRS/UMTS/HSPA, WiMAX and LTE. Xceed software products, WindCatcher®, Vortex®, Benchmark®, X-Stream®, and Workflow™ are used worldwide by network operators, infrastructure manufacturers, and handset vendors to improve their customer experience.</p>

Network Operating Software

Hall	Company	Website	Overview
Hall 2 Stand 2MR176	Aylus Networks	http://www.aylus.com/	Aylus Networks, Inc. helps mobile operators and over-the-top (OTT) service providers transform their business models so that they can find new and innovative ways of monetizing the broadband mobile Internet. It is a leading provider of infrastructure software for enabling video communication services over mobile networks.
Hall 5 Stand 5C110	Bytemobile, Inc.	www.bytemobile.com	Bytemobile's Smart Capacity platforms give mobile operators more control of existing network resources to manage escalating subscriber demand for capacity due to video and other bandwidth-intensive content and applications.
Hall 5 Stand 5H34	Carrier IQ	www.carrieriq.com	Deployed on over 150M devices from the top mobile device vendors worldwide, Carrier IQ is the leading provider of Mobile Intelligence solutions, providing detailed metrics regarding mobile customer experience in a highly secure, private and anonymized environment. Today, it's increasingly important for mobile operators and OEMs to take a proactive approach to gathering insight into problems that may arise with user experience. Mobile Intelligence is an invaluable tool, providing real-time data directly from handsets, creating more efficient and cost effective business models by pointing out problem service locations and product features, spotting user trends, and ultimately identifying areas for improvement.
Hall 6 Stand 6C75	Celcite	www.celcite.com	Celcite Management Solutions delivers optimisation solutions for all wireless technologies including GSM/GPRS/EDGE BSS, UTRAN (WCDMA/HSPA +HSUPA PH2) and E-UTRAN (LTE).
App Planet - Hall 8.1 Stand 8.1C7	Crittercism	www.crittercism.com	At Crittercism they help people make better apps, improve retention, conversion and monetization. They want people to have powerful insight into how consumers interact with mobile applications in real-time. Their objective is to make the integration easy, so that people can save time and energy in monitoring and managing their apps.
Hall 5 Stand 5G63 Contact through U.S. Export Interest Directory Marketplace	Diametriq, LLC	www.diametriq.com	Diametriq, an innovator in Diameter signaling control technologies, was launched in 2012 to focus on "Smart Signaling" solutions and meeting the ever increasing signaling traffic demands of 4G/LTE networks. Diametriq offers high performance Diameter signaling solutions to meet the needs of LTE wireless operators. The company's standards compliant Diameter Routing Engine™ (DRE) includes a Diameter Routing Agent (DRA), Diameter Edge Agent (DEA), a Subscription Locator Function (SLF) and a Diameter Interworking Function (IWF).
App Planet - Hall 8.1 Stand 8.1I21	Matrixx software	www.matrixsw.com	MATRIXX Software is REINVENTING REAL-TIME™ to deliver solutions that help communications service providers address the growing volume and complexity of services that require real-time processing. By delivering a ten to fifty-fold increase in performance over existing real-time rating and charging systems, the MATRIXX solution enables an entirely new operational cost structure for online charging and subscriber policy management. It empowers service providers to monetize all products, services, and content in real-time at a dramatically lower cost per transaction.

Hall 5 Stand 5G12	Trendium	www.trendium.com	Trendium offers policy-based software and hardware solutions that allow service providers to generate differentiated value services by understanding their customer experience as well as their behavior, service needs and usage patterns. The focus for Trendium's products is to enable the service providers to capture, understand and drill-down to all service events, key performance indicators, as well as the health of network elements and IT infrastructure, in order to identify the areas that can affect and improve the customer experience in time to be able to influence, optimize and monetize that experience.

Network Operator			
Hall	Company	Website	Overview
Hall 1 Stand 1EMR.E5	Sprint	www.sprint.com	Sprint Nextel offers a comprehensive range of wireless and wireline communications services to wholesalers, businesses, government and consumers. Sprint is widely recognized for developing, engineering and deploying innovative technologies including the first wireless 4G service from a national carrier in the U.S. and an award-winning global Tier 1 Internet backbone. Sprint Wholesale offers an innovative, customizable suite of wireless, wireline, M2M and VoIP services to hundreds of partners worldwide, who in turn serve millions of customers. We enable partners to extend the value of core products, helping build brand loyalty and multiply business.
Hall 5 Stand 5MR86	Stoke, Inc.	www.stoke.com	Stoke is the mobile industry's only transformation platform, delivering future- focused thinking and solutions for 3G and 4G mobile broadband infrastructures. Stoke enables mobile operators, through the application of Business-Crossover™ thinking, to overcome limitations inherent in legacy approaches and architectures, helping them tackle the new realities of 3G mobile data service delivery today and successfully navigate their transition to 4G services platforms tomorrow.

Network Planning&Design

Hall	Company	Website	Overview
Hall 6 Stand 6C75	Celcite	www.celcite.com	Celcite Management Solutions delivers optimisation solutions for all wireless technologies including GSM/GPRS/EDGE BSS, UTRAN (WCDMA/HSPA +HSUPA PH2) and E-UTRAN (LTE).
Hall 5 Stand 5D45	CelPlan Technologies Inc	www.celplan.com	CelPlanner Suite has the best collections of RF Planning, RF Optimization and Enhancement software in the market. CelPlanner Suite is composed of CelPlanner, CelOptima, CelEnhancer, CelTools and many others. CelPlanner suite supports multi-technologies. Some of these technologies are HSPA+, LTE, GSM, TDMA, CDMA, W-CDMA, UMTS, CDMA 2000, 1XRTT, 1xEv-DO, Wi-fi, WiMax, LMDS, DVB-H, UWB and many others.
Hall 5 Stand 5G10	Digital Receiver Technology	www.drtd.com	Designs/manufactures communications test/measurement equipment for monitoring network quality in wireless industry.
Hall 2 Stand 2MR108	NetNumber, Inc.	www.netnumber.com	NetNumber is a leading provider of converged, next-generation, ENUM, SIP, SS7/C7 and SIGTRAN addressing and routing technology to the global communications industry. The NetNumber Transactional IP Telephony Addressing and Numbering (TITAN) server is licensed and deployed by many of the world's largest mobile-operators, fixed-line carriers, and cable companies as a centralized addressing and routing infrastructure for both TDM and IP-based voice services, messaging services, number-portability services and least-cost routing services. The highly-scalable TITAN Master/Edge architecture delivers on the next-generation technology promise of lower-cost, faster-performance, and greater configuration flexibility than legacy intelligent networking platforms.
Hall 6 Stand 6G31	Newfield Wireless	www.newfieldwireless.com	Newfield Wireless delivers network visualization software and specialized engineering services to wireless service providers so they can improve their subscriber experience. As a trusted strategic partner, the company develops technically advanced and vendor-independent solutions to address the needs of engineering, marketing and customer care teams within wireless operators.
Hall 7 Stand 7G14	PT	www.pt.com	PT's SEGway portfolio of Signalling SS7, SIGTRAN and Diameter protocol products provide wireless carriers high density signalling and advanced routing for next generation LTE and IMS networks. The company's IP-centric network elements are designed for high availability and scalability to deliver an unparalleled price-to-performance ratio in edge-to-core network deployments. PT's STPs, Diameter routers, gateways, edges, and network applications are deployed in mobile networks around the globe, enabling wireless network service providers to rapidly and cost-effectively deliver revenue-generating features. PT's solutions enable IP migration, Diameter routing, gateway capabilities, SIP bridging, and core-to-edge distributed intelligence, along with features like Number Portability.
Hall 5 Stand 5C55	Sanjole Inc	www.sanjole.com	Sanjole is a leading global provider of over the air test solutions that focus on LTE and WiMAX wireless technologies. Our clients encompass base station and mobile developers to operators deploying these devices in their 4G networks.

Hall 6 Stand 6E96	Xceed Technologies	www.xceedcorp.com	Xceed Technologies is a global leader in providing web and desktop based drive test data post-processing products as well as network deployment and optimization solutions for CDMA/EVDO, iDEN, GSM/GPRS/UMTS/HSPA, WiMAX and LTE. Xceed software products, WindCatcher®, Vortex®, Benchmarker®, X-Stream®, and Workflow™ are used worldwide by network operators, infrastructure manufacturers, and handset vendors to improve their customer experience.

Operational Support Systems (OSS)

Hall	Company	Website	Overview
Hall 5 Stand 5C51	Emida	www.emida.net	Emida is a leader in the global prepayment and value transfer market, operating in 37 countries throughout North, Central and South America, the extended Caribbean, Africa, Oceania, the Middle East and Europe. Their network technology enables the domestic and international distribution and value transfer of many types of prepaid products and payment services.
Hall 3 Stand 3B86	IBM	www.ibm.com	Join IBM at Booth 3.B86 in Hall 3 to learn how we are partnering with service providers, enterprises, organizations and governments to help make communications smarter. Discover new ways we can help you: – Connect to enterprises, consumers, partners, and developers – Innovate with the latest technologies to reach new markets– Deliver new services and more value to your customersSee demonstrations designed to deliver smarter services, personalize customer engagements, transform operations, and build smarter networks. Explore innovations in big data, IBM systems, and research and understand how we can deliver proven results.
App Planet - Hall 8.1 Stand 8.1I21	Matrixx software	www.matrixsw.com	MATRIXX Software is REINVENTING REAL-TIME™ to deliver solutions that help communications service providers address the growing volume and complexity of services that require real-time processing. By delivering a ten to fifty-fold increase in performance over existing real-time rating and charging systems, the MATRIXX solution enables an entirely new operational cost structure for online charging and subscriber policy management. It empowers service providers to monetize all products, services, and content in real-time at a dramatically lower cost per transaction.
Hall 2 Stand 2B46	NetCracker Technology	www.netcracker.com	NetCracker Technology is one of the leading provider of BSS/OSS solutions to service providers around the world. From billing, customer care, and real-time charging and policy solutions, to resource and network management, service fulfillment, and assurance, our comprehensive software and services capabilities enhance the customer experience through content-rich offerings and reduced costs. Our innovative, end-to-end BSS/OSS solutions enable service providers to operationalize next-generation connectivity, maximize the convergence of network and IT, monetize content, and deliver a compelling customer experience. We call this The 4C Experience.
Hall 5 Stand 5MR144	NetScout Systems, Inc.	www.netscout.com	NetScout Systems is the market leader in Unified Service Delivery Management enabling comprehensive end-to-end network and application assurance. On October 2011, NetScout® Systems, Inc. announced it ranked number 396 on Deloitte's Technology Fast 500™, an annual ranking of the 500 fastest growing technology, media, telecommunications, life sciences and clean technology companies in North America.

Hall 2 Stand 2MR51	Telcordia	www.telcordia.com	Telcordia's Interconnection business develops market leading solutions that enable operators to interconnect networks, devices, and applications critical to evolving the global telecommunications marketplace. Telcordia's Interconnection business delivers powerful, trusted, neutral solutions for the telecommunications industry including number portability clearinghouses, mobile messaging services, anti-theft mobile device registries, spectrum management databases and other interconnection information services. Telcordia's Interconnection products are used by more than 1,000 operators, regulators and content providers and are currently used to provide services to over 1 billion end users.
Hall 5 Stand 5G12	Trendium	www.trendium.com	Trendium offers policy-based software and hardware solutions that allow service providers to generate differentiated value services by understanding their customer experience as well as their behavior, service needs and usage patterns. The focus for Trendium's products is to enable the service providers to capture, understand and drill-down to all service events, key performance indicators, as well as the health of network elements and IT infrastructure, in order to identify the areas that can affect and improve the customer experience in time to be able to influence, optimize and monetize that experience.
Hall 7 Stand 7MR101	Vesta Corporation	www.trustvesta.com	With operations in the Americas, Europe and China, Vesta Corporation has been a pioneer and a worldwide leader in electronic payment solutions since 1995. Vesta was the first company to successfully build and deploy non-retail electronic payment solutions for the telecommunications industry.

Semiconductors

Hall	Company	Website	Overview
Hall 2 Stand 2MR124	Anadigics	www.anadigics.com	With a track record of innovation for over 25 years, ANADIGICS delivers the most advanced integrated RF solutions that manufacturers worldwide demand to optimize the performance of wireless, broadband and cable applications across all major networks and standards.
Hall 2 Stand 2MR92	Audience, Inc.	www.audience.com	Audience is a leading global provider of advanced voice and audio processors for mobile systems, based on pioneering work to reverse-engineer human hearing.
Hall 2 Stand 2A120	Cavium Networks, Inc.	www.caviumnetworks.com	Cavium Networks is a leading provider of highly integrated semiconductor products that enable intelligent processing in networking, communications and digital home.
Hall 1 Stand 1EMR.F3	Compound Photonics	www.compoundphotonics.com	From very tiny, very bright, full HD laser projection light engines for smartphones and other mobile devices to ultra-high definition, 3D capable, cinema quality projectors, they have capabilities that are shaping the world of modern projection. They're in the former Motorola semiconductor fab known as COM-1.
Hall 2 Stand 2MR18	DigitalOptics Corporation	www.doc.com	DigitalOptics Corporation (DOC), a wholly owned subsidiary of Tessera Technologies, Inc. (Nasdaq: TSRA), delivers innovation in imaging and optics with products and capabilities that enable expanded functionality in increasingly smaller devices. DigitalOptics' miniaturized camera module solutions provide cost-effective, high-quality camera features, including extended depth of field (EDoF), zoom, image enhancement, optical image stabilization and MEMS-based autofocus. These technologies can be applied to consumer electronic products. The group also offers customized micro-optic lenses from diffractive and refractive optical elements to integrated micro-optical subassemblies.
Hall 2 Stand 2MR43	Freescale Semiconductor	www.freescale.com	Freescale Semiconductor is a global leader in embedded processing solutions for the automotive, consumer, industrial and networking markets. Our technology helps to improve battery life in portable devices and innovate home entertainment to enable a more connected and efficient world for consumers. Freescale is a technology leader in several consumer markets, including eReaders, home media phones, smartphones, gaming and sensors. Our technologies also enable a new era of networking—helping to build more reliable, protected and content-rich networks. Our PowerQUICC processors, StarCore DSPs, RF solutions and QorIQ platforms offer a smarter approach to multicore for manufacturers of wireless and wireline infrastructure, enterprise, SOHO networking and pervasive computing products.

Hall 6 Stand 6MR16	GCT Semiconductor	www.gtcsemi.com	We are a leading fabless designer and supplier of advanced 4G mobile semiconductor solutions. Our products are SoC solutions that integrate RF, baseband modem, and digital signal processing (DSP) functions onto a single die for the 4G LTE and WiMAX markets. We were the first to commercialize single-chip solutions for LTE and WiMAX. Our proprietary technology and system-level expertise enable us to provide complete 4G platform solutions, which are differentiated by their small form factors, low power consumption, high performance, high reliability and cost effectiveness.
Hall 5 Stand 5C80	InvenSense Inc.	www.invensense.com	InvenSense® Inc. is the pioneer and global market leader in intelligent motion processing solutions that enable a motion-based user interface for consumer electronics.
Hall 7 Stand 7E104	Mindspeed Technologies	www.mindspeed.com	Mindspeed Technologies (NASDAQ: MSPD) is a leading provider of network infrastructure semiconductor solutions to the communications industry. The company's low-power system-on-chip (SoC) products are helping to drive video, voice and data applications in worldwide fiber-optic networks and enable advanced processing for 3G and long-term evolution (LTE) mobile networks. The company's high-performance analog products are used in a variety of optical, enterprise, industrial and video transport systems. Mindspeed's products are sold to original equipment manufacturers (OEMs) around the globe.
Hall 1 Stand 1EMR.B5	Newport Media Inc.	www.newportmediainc.com	Newport Media is a fabless semiconductor company that develops highly integrated semiconductor and software solutions for mobile TV broadcasts standards. Newport Media has assembled a management and development team with comprehensive system semiconductor experience in wireless handset and digital set-top box industries.
Hall 2 Stand 2MR100	Peregrine Semiconductor	www.psemi.com	Peregrine Semiconductor is a supplier of the industry's most advanced RF and mixed-signal communications ICs which are ideally suited for the wireless infrastructure and mobile wireless; broadband CATV/DTV; communications infrastructure; and high-reliability markets. Manufactured on the Company's proprietary UltraCMOS™ mixed-signal process technology, Peregrine products are uniquely poised to meet the needs of a global RF design community in high-growth applications such as WCDMA, EDGE and GSM digital cellular and mobile TV; broadband communications such as DTV/PCTV/DVR and telecom infrastructure; and in high-reliability applications such as industrial, automotive, military and satellite systems.
Hall 2 Stand 2MR44	Qnovo Corporation	www.qnovocorp.com	With Qnovo Intelligent Fast Charging, consumers can recharge their phone much faster compared to conventional charging. Qnovo charging provides one additional hour of runtime for each five minutes of charging.
Hall 2 Stand 2B91	RFMD	www.rfmd.com	RFMD® (NASDAQ GS: RFMD) is a global leader in the design and manufacture of high-performance semiconductor components and technologies. Enabling worldwide mobility, providing enhanced connectivity, and leading the way with energy conserving technologies, RFMD is a preferred supplier to the world's leading smartphone, entry and feature phone, tablet and notebook, and M2M Device providers.

Hall 2 Stand 2MR40	Sand 9	www.sand9.com	Sand 9 was formed in 2007 to bring novel nanoscale MEMS technology to market. The company is financed by premiere venture capital funds Commonwealth Capital Ventures, General Catalyst Partners, Flybridge Capital Partners and Khosla Ventures. Sand 9's disruptive products will displace incumbent technologies in large and growing billion-dollar markets.
Hall 7 Stand 7C71	Silicon Image	www.siliconimage.com	Silicon Image is a leading provider of advanced, interoperable semiconductor and intellectual property connectivity solutions that enable the reliable distribution and presentation of high-definition content for consumer electronics, mobile, and PC markets.
Hall 2 Stand 2MR132	Texas Instruments, Inc	www.ti.com	Texas Instruments Incorporated is one of the world's largest semiconductor companies, and dedicated to providing complete solutions that empower our customers to push the boundaries of what's possible in mobile and other markets.
Hall 2 Stand 2C65	TriQuint	www.triquint.com	TriQuint Semiconductor designs, develops and manufactures advanced high-performance RF solutions with Gallium Arsenide (GaAs), Gallium Nitride (GaN), Surface Acoustic Wave (SAW) and Bulk Acoustic Wave (BAW) technologies for customers worldwide. We are a leader in market diversity serving customers in mobile devices, 3G and 4G cellular base station, WLAN, WiMAX, GPS, defense and aerospace markets.

Tablet Devices			
Hall	Company	Website	Overview
Hall 1 Stand 1EMR.F3	Compound Photonics	www.compoundphotonics.com	From very tiny, very bright, full HD laser projection light engines for smartphones and other mobile devices to ultra-high definition, 3D capable, cinema quality projectors, they have capabilities that are shaping the world of modern projection. They're in the former Motorola semiconductor fab known as COM-1.
App Planet - Hall 8.1 Stand 8.1B1	Fiksu, Inc.	www.fiksu.com	Fiksu is a mobile app user acquisition platform that helps app marketers overcome the hurdle of getting an app discovered & download by engaged, loyal users—those who return repeatedly to an app and are most likely to monetize—while lowering user acquisition costs. Fiksu works across many traffic sources, tracks ad performance and optimizes ad buys in real time, & generates more organic and loyal users at a lower cost.
Hall 7 Stand 7B55	Infinite Pheripherals (at Blackberry booth)	www.ipcprint.com	Infinite Peripherals's Linea-pro has introduced groundbreaking functionality to the iPhone®, iPod touch® and iPad®. Seizing upon opportunities to sell into other markets, Infinite Peripherals now supplies printers, mechanisms, and other receipt printer-related components to customers in the following markets: Gaming, Medical, Hospitality, ATM, Retail, Amusement, Security, Time and Attendance, and Industrial Measurement.
Hall 7 Stand 7B60	QRC Technologies	www.qrctech.com	QRC products are applicable with both commercial and Govt. customers. The products are developed by a team with more than 50 combined years of experience in the cellular field. The team has been involved in every aspect of cellular communication, from designing the protocols, to designing and optimizing the network infrastructure.
Hall 2 Stand 2C65	TriQuint	www.triquint.com	TriQuint Semiconductor designs, develops and manufactures advanced high-performance RF solutions with Gallium Arsenide (GaAs), Gallium Nitride (GaN), Surface Acoustic Wave (SAW) and Bulk Acoustic Wave (BAW) technologies for customers worldwide. We are a leader in market diversity serving customers in mobile devices, 3G and 4G cellular base station, WLAN, WiMAX, GPS, defense and aerospace markets.

Telecommunication Authorities-Associations			
Hall	Company	Website	Overview
Hall 2 Stand 2MR51	Telcordia	www.telcordia.com	Telcordia's Interconnection business develops market leading solutions that enable operators to interconnect networks, devices, and applications critical to evolving the global telecommunications marketplace. Telcordia's Interconnection business delivers powerful, trusted, neutral solutions for the telecommunications industry including number portability clearinghouses, mobile messaging services, anti-theft mobile device registries, spectrum management databases and other interconnection information services. Telcordia's Interconnection products are used by more than 1,000 operators, regulators and content providers and are currently used to provide services to over 1 billion end users.
App Planet - Hall 8.1 Stand 8.1K7	Telintel	www.telintel.net	Since 1997 Telintel Ltd has been offering worldwide voice termination. In addition, Telintel holds PTT licenses in several countries, offers SMS products and services, and offers white label solutions for smart phones dialers, residential and hosted PBX services. Currently, Telintel passes over 2 billion minutes of international Voice traffic a month, terminates over 50 million SMS per month, offers DIDs in 56 countries, and is connected to operators and carriers around the world.

Test&Measurement Equipment

Hall	Company	Website	Overview
Hall 7 Stand 7190	Azimuth Systems	www.azimuthsystems.com	Azimuth Systems is the leading provider of comprehensive real world wireless test solutions for 2G/3G/4G, LTE-Advanced and beyond, with field-proven, solutions-focused automated wireless test equipment that makes testing more affordable and reliable by increasing the scope of testing while enabling real world performance testing across the entire product design cycle, resulting in high quality devices that perform as expected in the field.
Hall 5 Stand 5G10	Digital Receiver Technology	www.drtd.com	Designs/manufactures communications test/measurement equipment for monitoring network quality in wireless industry.
Hall 2 Stand 2MR184	Ixia	www.ixiacom.com	Ixia provides the industry's most comprehensive converged IP testing solutions - emulating and verifying the wireless edge to the Internet core. Network equipment manufacturers, service providers, enterprises, and government agencies use Ixia's industry-leading test and simulation platforms to design and validate a broad range of wired, Wi-Fi, and 3G/4G networking equipment and networks. Ixia's solutions create real-world conditions by emulating a full range of high-scaling networking protocols and generating media-rich application traffic to validate performance, conformance, and security of cloud, core, data center, wireless, and multiplay networks.
Hall 5 Stand 5D38	LitePoint Corporation	www.litepoint.com	LitePoint solutions have optimized and verified the operation of more than one billion wireless devices worldwide.
Hall 7 Stand 7B60	QRC Technologies	www.qrcotech.com	QRC products are applicable with both commercial and Govt. customers. The products are developed by a team with more than 50 combined years of experience in the cellular field. The team has been involved in every aspect of cellular communication, from designing the protocols, to designing and optimizing the network infrastructure.
Hall 7 Stand 7138	Quintech Electronics & Communications, Inc.	www.quinteelectronics.com	Quintech has been "The Source for Reliable RF (Radio Frequency) Signal Management Solutions" serving the cable, satellite and broadcast industries. Quintech products are vital and necessary for RF signal management, optimizing the automation of today's advanced telecommunication network infrastructures. Quintech has historically emphasized the design and development of customer driven RF signal management solutions in order to facilitate the convergence of modern telephony, broadcast, satellite and cable/HFC networks. Quintech products are used in most major telecommunications networks worldwide.
Hall 5 Stand 5C55	Sanjole Inc	www.sanjole.com	Sanjole is a leading global provider of over the air test solutions that focus on LTE and WiMAX wireless technologies. Our clients encompass base station and mobile developers to operators deploying these devices in their 4G networks.

Hall 5 Stand 5MR102	Symmetricom, Inc.	www.symmetricom.com	Symmetricom is a worldwide leader of precise time and synchronization technologies. Across the globe, telecom carriers, cable providers and data service providers depend on Symmetricom carrier-class solutions for the superior accuracy, consistency and reliability that is essential for quality assurance, network performance, service availability and seamless network interoperability.

Utilities (Smart Grid)

Hall	Company	Website	Overview
Hall 6 Stand 6E91 Contact through U.S. Export Interest Directory Marketplace	LogMeIn	www.logmein.com	LogMeIn (Nasdaq:LOGM) provides essential cloud and mobile services to individuals, businesses, and IT organizations for remote access, collaboration, customer care, and remote IT management. These services are used by millions of people to quickly, simply and securely connect over 150 million internet-enabled devices across the globe — computers, smartphones, iPad™ and Android™ tablets, and digital displays. LogMeIn is based in Woburn, Massachusetts, USA, with offices in Australia, Hungary, India, Ireland, Japan, and the UK.
Hall 6 Stand 6G100, Stand 6MR2, Stand 6MR36, Stand 6MR10, Stand 6MR34, Stand 6MR32	Maxim Integrated	www.maximintegrated.com	Maxim Integrated designs, manufactures, and sells high-performance semiconductor products. The company was founded 29 years ago with the mission to deliver innovative analog and mixed-signal engineering solutions for the industrial, communications, consumer, and computing markets. A leader in analog innovation and integration, Maxim is unique among semiconductor companies in the range of disparate analog functions that it can combine onto a single chip. The company's highly integrated solutions help customers get to market faster with systems that are smaller and consume less power. Maxim reported revenue of approximately \$2.4 billion for fiscal 2012.

VoIP Systems

Hall	Company	Website	Overview
Hall 6 Stand 6G20	Acme Packet	www.acmepacket.com	Net-Net product family supports multiple solutions for fixed, mobile and cable service providers—including VoLTE, IP interconnect, LTE roaming, RCS, femtocells and fixed-mobile convergence. Acme Packet products satisfy critical security, service assurance and regulatory requirements and deliver many IMS functional elements for next generation networks.
Hall 3 Stand 3C14	Broadcom Corporation	www.broadcom.com	Broadcom Corporation (NASDAQ: BRCM), a FORTUNE 500® company, is a global leader and innovator in semiconductor solutions for wired and wireless communications. Broadcom® products seamlessly deliver voice, video, data and multimedia connectivity in the home, office and mobile environments. Broadcom's global customer roster includes the elite of both consumer and enterprise technology brands – from computing powerhouses to major providers of networking equipment, and from home entertainment to mobile device and wireless providers. With the industry's broadest portfolio of state-of-the-art system-on-a-chip and embedded software solutions, Broadcom is changing the world by Connecting everything®.
Hall 5 Stand 5D54	Dialogic, Inc.	www.dialogic.com	Dialogic supplies products that deliver video calls, location-based services, text messaging, and other high-demand services over mobile, VoIP, and traditional networks. Dialogic provides the technology to create, manage, and control voice, video, and data sessions simultaneously.
Hall 2 Stand 2MR202	Ecrio Inc.	www.ecrio.com	Ecrio is a leading supplier of client software for IP communication services including IP Voice, video, messaging, and content sharing over 3G, 4G, and WiFi networks.
Hall 6 Stand 6E110	Genband	www.genband.com	Genband is a global leader of IP infrastructure and service solutions, helping fixed, mobile and cable service providers around the world evolve communications networks through IP innovation.
Hall 2 Stand 2MR180	Metaswitch Networks	www.metaswitch.com	Metaswitch Networks is a leading provider of the software that powers a whole new generation of communications services, and the solutions that fuel the rapid migration to all-IP architectures. Hundreds of network operators worldwide defend, extend and brand their business by building on Metaswitch to deliver a reliable, scalable, and immersive communications experience.
Hall 5 Stand 5MR98	Movius Interactive Corp.	www.moviuscorp.com	Movius is a global leader in value-added communication solutions for service providers. We create applications that improve the quality of people's lives by helping them communicate in simple, fun and unique ways that transform the way they interact with information, media and each other. On November 2011 Movius Interactive announced today the introduction of CAFÉ, a new Communication Applications Framework Engine that enables service providers to offer a constant flow of new relevant applications to their end-users in an affordable, rapid and cloud ready environment.

Hall 5 Stand 5G34	Radisys	www.radisys.com	Radisys (NASDAQ: RSYS) is a leading provider of embedded wireless infrastructure solutions for telecom, aerospace, defense and public safety applications. Radisys' market-leading ATCA, IP Media Server and Com Express platforms coupled with world-renowned Trillium software, services and market expertise enable customers to bring high-value products and services to market faster with lower investment and risk. Radisys solutions are used in a wide variety of 3G and 4G / LTE mobile network applications including: Radio Access Networks (RAN) solutions from femtocells to picocells and macrocells, wireless core network applications, Deep Packet Inspection (DPI) and policy management; conferencing and media services including voice, video and data, as well as customized mobile network applications that support the aerospace, defense and public safety markets.
Hall 6 Stand 6G33	Taqua, LLC	www.taqua.com	Taqua provides wireless and wireline next generation telecommunication systems and applications. Hundreds of carriers utilize Taqua solutions to provide network solutions ranging from legacy switch replacement, enhanced VoIP and communication applications, fixed/wireless media servers/gateways, high capacity IP Peering and advanced RF wireless backhaul technologies.
App Planet - Hall 8.1 Stand 8.1K7	Telintel	www.telintel.net	Since 1997 Telintel Ltd has been offering worldwide voice termination. In addition, Telintel holds PTT licenses in several countries, offers SMS products and services, and offers white label solutions for smart phones dialers, residential and hosted PBX services. Currently, Telintel passes over 2 billion minutes of international Voice traffic a month, terminates over 50 million SMS per month, offers DIDs in 56 countries, and is connected to operators and carriers around the world.
App Planet - Hall 8.1 Stand 8.1L14	Twilio	www.twilio.com	Twilio, the cloud communications company, is reinventing telecom by merging the worlds of cloud computing, web services and telecommunications. Twilio provides a telephony infrastructure web service in the cloud, allowing web developers to integrate phone calls, text messages, and IP voice communications into their web, mobile, and traditional phone applications. The company is privately held and is headquartered in San Francisco, California.

Voice Product&Services

Hall	Company	Website	Overview
Hall 6 Stand 6G20	Acme Packet	www.acmepacket.com	Net-Net product family supports multiple solutions for fixed, mobile and cable service providers—including VoLTE, IP interconnect, LTE roaming, RCS, femtocells and fixed-mobile convergence. Acme Packet products satisfy critical security, service assurance and regulatory requirements and deliver many IMS functional elements for next generation networks.
Hall 2 Stand 2MR92	Audience, Inc.	www.audience.com	Audience is a leading global provider of advanced voice and audio processors for mobile systems, based on pioneering work to reverse-engineer human hearing.
Hall 2 Stand 2MR176	Aylus Networks	http://www.aylus.com/	Aylus Networks, Inc. helps mobile operators and over-the-top (OTT) service providers transform their business models so that they can find new and innovative ways of monetizing the broadband mobile Internet. It is a leading provider of infrastructure software for enabling video communication services over mobile networks.
Hall 1 Stand 1EMR.E2	Broadsoft, Inc.	www.broadsoft.com	BroadSoft provides software that enables mobile, fixed-line and cable service providers to deliver voice and multimedia services over their IP-based networks. The Company's software, BroadWorks®, enables service providers to provide enterprises and consumers with a range of cloud-based, or hosted, IP multimedia communications, such as hosted IP private branch exchanges, video calling, unified communications, collaboration and converged mobile and fixed-line services.
Hall 5 Stand 5C51	Emida	www.emida.net	Emida is a leader in the global prepayment and value transfer market, operating in 37 countries throughout North, Central and South America, the extended Caribbean, Africa, Oceania, the Middle East and Europe. Their network technology enables the domestic and international distribution and value transfer of many types of prepaid products and payment services.
Hall 6 Stand 6E110	Genband	www.genband.com	Genband is a global leader of IP infrastructure and service solutions, helping fixed, mobile and cable service providers around the world evolve communications networks through IP innovation.
Hall 5 Stand 5F40 Contact through U.S. Export Interest Directory Marketplace	Inovar	www.inovar.com	INOVAR, formerly Integrated Telecom Solutions, provides solutions for mobile network operators worldwide. INOVAR is a telecom solutions company with an innovative and attractive solutions portfolio and an extensive customer base around the globe. Founded in 1996, INOVAR offers an unparalleled suite of value- priced IN and IMS based voice and data solutions for the global wireless marketplace— solutions that increase revenue, boost network traffic, enhance customer loyalty, and capture and retain high-value customers. Our solutions contribute strategic value to mobile operator networks by providing powerful new solutions easily implemented with existing systems.
Hall 2 Stand 2MR180	Metaswitch Networks	www.metaswitch.com	Metaswitch Networks is a leading provider of the software that powers a whole new generation of communications services, and the solutions that fuel the rapid migration to all-IP architectures. Hundreds of network operators worldwide defend, extend and brand their business by building on Metaswitch to deliver a reliable, scalable, and immersive communications experience.

Hall 5 Stand 5MR98	Movius Interactive Corp.	www.moviuscorp.com	Movius is a global leader in value-added communication solutions for service providers. We create applications that improve the quality of people's lives by helping them communicate in simple, fun and unique ways that transform the way they interact with information, media and each other. On November 2011 Movius Interactive announced today the introduction of CAFÉ, a new Communication Applications Framework Engine that enables service providers to offer a constant flow of new relevant applications to their end-users in an affordable, rapid and cloud ready environment.
Hall 2 Stand 2MR108	NetNumber, Inc.	www.netnumber.com	NetNumber is a leading provider of converged, next-generation, ENUM, SIP, SS7/C7 and SIGTRAN addressing and routing technology to the global communications industry. The NetNumber Transactional IP Telephony Addressing and Numbering server is licensed and deployed by many of the world's largest mobile-operators, fixed-line carriers, and cable companies as a centralized addressing and routing infrastructure for both TDM and IP-based voice services, messaging services, number-portability services and least-cost routing services. The highly-scalable TITAN Master/Edge architecture delivers on the next-generation technology promise of lower-cost, faster-performance, and greater configuration flexibility than legacy intelligent networking platforms.
Visiting. Contact through U.S. Export Interest Directory Marketplace	Neustar	www.neustar.biz	Neustar is one of the world's largest addressing and policy management companies, operating authoritative databases for virtually all telephone numbers and area codes for the U.S. and Canada, managing LNP in Taiwan and Brazil; providing DNS solutions that direct and manage Internet traffic; and managing the registry for Common Short Codes used by the wireless industry.
Hall 5 Stand 5MR14	Polycom	www.polycom.com	Polycom is the global leader in open standards-based unified communications and collaboration (UC&C) solutions for voice and video collaboration, trusted by more than 415,000 customers around the world. Polycom solutions are powered by the Polycom® RealPresence® Platform, comprehensive software infrastructure and rich APIs that interoperate with the broadest set of communication, business, mobile and cloud applications and devices to deliver secure face-to-face video collaboration in any environment. Polycom and its ecosystem of over 7,000 partners provide truly unified communications solutions that deliver the best user experience, highest multi-vendor interoperability, and lowest TCO. Visit www.polycom.com to learn how we're pushing the greatness of human collaboration forward.
Hall 5 Stand 5G34	Radisys	www.radisys.com	Radisys is a leading provider of embedded wireless infrastructure solutions for telecom, aerospace, defense and public safety applications. Radisys' market-leading ATCA, IP Media Server and Com Express platforms coupled with world-renowned Trillium software, services and market expertise enable customers to bring high-value products and services to market faster with lower investment and risk. Hall 2 Stand 2MR110	SmithMicro Software	www.smithmicro.com	Smith Micro Software, Inc. creates new possibilities by developing mobile applications and solutions to solve customer problems. Through our insight into the market, we develop new applications that put you in control of your digital lifestyle.
Hall 5 Stand 5MR138	Synchronoss Technologies	www.synchronoss.com	Synchronoss is the world's leading provider of automation software and cloud technology solutions. Our solutions connect, synchronize and activate any device or service across any channel or network for Tier One Communications Service Providers (CSPs) and Original Equipment Manufacturers (OEMs) across the globe. We deliver a best-in-class customer experience with an expedited time to market at a lower cost of service. Synchronoss' industry-leading customers include tier 1 service providers such as AT&T Inc., Verizon Wireless and Vodafone, tier 1 cable operators/MSOs such as Cablevision, Charter Communications, Comcast, and Time Warner Cable and large OEMs such as Apple, Dell, Panasonic and Nokia. These customers utilize our platforms, technology and services to service both consumer and business customers, including over 300 of the Fortune 500 companies.
App Planet - Hall 8.1 Stand 8.1K7	Telintel	www.telintel.net	Telintel offers worldwide voice termination. In addition, Telintel holds PTT licenses in several countries, offers SMS products and services, and offers white label solutions for smart phones dialers, residential and hosted PBX services. Currently, Telintel passes over 2 billion minutes of international Voice traffic a month, terminates over 50 million SMS per month, offers DIDs in 56 countries, and is connected to operators and carriers around the world.
App Planet - Hall 8.1 Stand 8.1L14	Twilio	www.twilio.com	Twilio, the cloud communications company, is reinventing telecom by merging the worlds of cloud computing, web services and telecommunications. Twilio provides a telephony infrastructure web service in the cloud, allowing web developers to integrate phone calls, text messages, and IP voice communications into their web, mobile, and traditional phone applications. The company is privately held and is headquartered in San Francisco, California.
Hall 1 Stand 1EMR.B1	Unisys	www.unisys.com	Unisys is a worldwide information technology company. We provide a portfolio of IT services, software, and technology that solves critical problems for clients. We specialize in helping clients secure their operations, increase the efficiency and utilization of their data centers, enhance support to their end users and constituents, and modernize their enterprise applications. To provide these services and solutions, we bring together offerings and capabilities in outsourcing services, systems integration and consulting services, infrastructure services, maintenance services, and high-end server technology. With approximately 22,500 employees, Unisys serves commercial organizations and government agencies throughout the world.
Hall 2 Stand 2MR10	Verizon Wireless	www.verizonwireless.com	Verizon Wireless operates the largest 4G LTE network and largest, most reliable 3G network in the United States. The company serves 108.7 million total wireless connections, including 92.2 million retail customers. With nearly 82,000 employees nationwide, Verizon Wireless is a joint venture of Verizon Communications (NYSE, NASDAQ: VZ) and Vodafone (LSE, NASDAQ: VOD).
